THE Republican State Convention of Ohio on Wednesday last nominated Rutherford B. Haynes, of Sandusky, for Governor. Thos, Young, of Hamilton, for Lieut. Governor, and Geo. W. Mellyaine for Supreme Judge.

-----Or the furth-six delegates from Philadelphia to Simon Cameron's is an eminently respectable gentleman no Lancaster convention, forty-fice were office-holders and active members of the different corrupt rings which are plundering the taxpavers of that misgoverned city. When such men emoluments of the public treasury; and speak for the virtue and intelligence of the fact that he brings a good name to conthe Republican party in the metropolis of the State, political honesty is at a heavy discount and political villainy commands a high premium.

WE suppose that after the practical experience of the three gentlemen who represented this county in the Lancaster Convention, they will not be rash enough to deny that Simon Cameron carries the Republican party of this that rules in our commanding political cir-State in his breeches' pocket, or that it moves obedient to his remorseless will. To a Republican outside of Pennsylvania, it has long been an enigma how a man with the tainted reputation of Cameron can dominate and control the to arbitrary and venal rules its just retribu-State organization of a powerful party. Nevertheless is the fact. " 'Tis true, and pity 'tis 'tis true." Republicans like Samuel Henry, C. T. Roberts, and Gen. Jacob M. Campbell, however strongly they may favor the nomination for a State office of a bold and fearless leader such as Butler B. Strang, must abandon him if Cameron demands the sacrifice, and gracefully step down and out without further ceremony. For them and those that believe with them his imperious will is the iron bed of Procustes -----THE Chairman of the Democratic County Committee was not mistaken, as the Voice and Echo of last week thinks he was, when he stated in his call for a meeting of said Committee, on Monday of next week, that one of its duties would be the selection of three conferees to meet like conferees from Blair county to elect a Senatorial delegate to the Democratic State Convention. It is true, as that paper states, that the County Convention last September elected ex-Sheriff Bonacker, Wm. Linton and J. G. Hasson Senatorial Conferees, but it was for the purpose of attending a meeting of conferees from Blair county to nominate a candidate for Stale Senator. The matter was well understood at the time, and we have no doubt the three gentlemen named so regarded it. The only wonder is that when the convention had its hand in it omitted to provide for the election of a Senatorial delegate to the State Convention. But having failed to do so, there ought to be no difficulty about the matter now. Our own opinion is that the practice of the County Convention electing delegates to a State Convention a full year in advance of the time is all wrong, and that the custom would be more honored in the breach than in the observance. The next County Convention ought to ignore it and leave the delegate business to be determined next year. -----It is very plain that if there are no, three meet again ?" degrees of guilt in the crime of theft, there are degrees of meanness in it. Several chiefs of the Sioux and other Indians, including Red Cloud and Spotted Tail, were at Washington last week for the purpose of having a big talk with the President and that bland and child-like gentleman, Columbus Delano, Secretary of the Interior, in reference to the sale to the government of the Black Hills in Dakota, and also to set forth the grievances which their people suffer at the hands of the thieving agents with whom they are compeiled to transact business. While these noble red men of the forest were at dinner the other day some unmitigated curse entered their room and stole eight shirts from the Minneconjon band, \$5 from Spotted Tail, \$5 from Swift Bear, \$19 from Face, and \$5 from Pawnee Killer. An Indian thoroughly understands what it is to be fleeced officially, but to be robbed unofficially is one of the white man's accomplishments which was never dreamed of in his untutored philosophy. The Minneconjonsat least would have a good case in law against the landlord for the value of their shirts, whatever might be said about the loss of the money of the others. Webster's This letter will not stop the agitation which would adequately express the

pointed and emphatic language : "The nomination of Mr. Rawle for Treasurer was Hartranft's severest blow. It was probably not so intended, but it will grow in its dead weight until it must drag the ticket into such a slough of despond that no average measure of Democratic folly can rescue it. When Simon Cameron sits down to choose a candidate for Treasurer the people of Pennsylvania know well what it means ; and when he decides upon an anniable, blameless but unskilled and pliable man, no one will be deceived as to the purpose of the creating power of such a neminee. Without political antecedents. or experience, or past services to command him to a convention for a most important state office, and unable to command half a score of delegates on his own merits or by his own efforts, it was natural that the earnest men of the party, who fought its battles when its victories were for principle and not for plunder, should earnestly protest; and the fact that their protest was as unheeded as the passing winds taught them the abject humiliation that Republicanism has reaped as the fruits of its modern leadership. That Mr. Rawle one questions; but he was unthought of for the position until he was decided upon by the Cameton power of the State, as the man who would best serve the interests of those who mean to coutrol and enjoy the secrate to such a domination will intensify rather than soften the popular resentment the arrogant subordination of the convention must provoke. Mr. Strang was fought bitterly and blasphemed boldly on every hand by the dependents of the masters of the convention because he has dared to own himself, and refused to worship the idols of political prostitution and shame ; and with him have fallen in this most unequal contest every man who dared to cherish a conviction or express a purpose in opposition to the festering corruption cles. The men who have gone to the front and received the wounds of the pretenders may bow passively to party discipline, but

the tens of thousands, whose earnest and patriotic wishes they reflected, will be likely to strike a revengeful blow that will give tion."

THE three most prominent figures in the Radical farce enacted at the late Laneaster Convention were John Cessna, Harry White and William B. Mann. The first named of this triumvirate (Cessna) played the part of temporary chairman ; the second (White) that of permanent President, and the third (Mann) nominated Hartranft, preceding it with a high sounding, or otherwise injured. gushing eulogium. Cessna had become so odious to his party that he was refused a renomination last fall for Congress. and it is within the figures to say that if he had been a candidate the majority against him would have been at least e thousand greater than the 1,197 which overwhelmed so respectable a gentleman as S. S. Blair. The irrepressible, office-seeking White made a district for himself in order that he might ventilate his ornamental, starspangled braner eloquence before the assembled wisdom of the nation, but was consigned to the limbo of Radical politicians by a majority against him of 518, although the Republican candidate for Lieutenant Governor received a majority of 857 in the same district. William B. Mann, who is the head and front of the Philadelphia ring and whose name has been identified for the last ten years with all the shameless frauds on the ballot-box in that city, was ignominiously defeated for the office of District Attorney last November, while at the same election the Republican State ticket had a ma- had been suffered before neath. jority of 12,963. BURNING OF A FRENCH CATHOLIC CHURCH SOME INCIDENTS OF THE FIRE-THE BURIAL -SEVENTY-SIX LIVES LOST AND A LARGE NUMBER INJURED.

A terrible disaster occurred last Thursday light in the burning of the French Catholie church at South Holyoke, Mass., during the evening services, involving the loss of sixty-six men, women and children. The exercises had nearly closed, and a hymn was being sung, when the draperies on the altar caught fire from a candle, and the wall being low and the flames streaming up, the building was set on fire. The audience numbered about 700, and the people in the body of the church escaped, but on the stairway leading from the gallery, human beings were packed in a dense mass, struggling to escape. As the flames rushed towards them many leaped to the floor beneath and were trampled to death. The gallery skirted both sides of the building. with only one entrance from the front. The scene was fearful in the extreme during the little while it lasted. Besides the sixty-six dead, there are enough to carry the total loss of life up to seventy-five. The priest's house which joins the church in the rear was also burned. The bodies were taken to Peter Monett's store and the Park street school house for temporary deposit. The church and pastor's house were totally destroyed. The priest's exertions to keep order were fruitless. The screams of the living and the moans of the dying made a deafening tumult above the orders of the pastor, who worked most heroically and was personally instrumental in saving many lives. One family of four were in the church and all were killed. Many were pulled out by the arms and feet so badly burned that they lived but a few hours. The flesh peeled off on being touched. Some were taken out with scarcely any flesh remaining on their bones. The Sisters of Mercy from the convent were soon on hand, caring for the wounded, with the priests holding services over the dying. The mother of Father Dufrisne was among those terribly burned. The large wooden tenement block of James Prew, near the burged church, was thrown open for the reception of the dead and wounded, and several deaths occurred in this building during the night. Several were also taken to the New York mills

boarding house. Peter Monett, to whose store the dead bodies were afterwards taken, was in the body of the church with three children when the fire caught. He immediately ran toward the flames and attempted to put them out with several pails of water taken from the priest's residence, adjoining the church. Finding it useless he then tried to save some of the furniture, but was quickly driven away. He and his children were all saved. One girl escaped from the gallery by jumping on the back of a man, who carried her out.

LATER PARTICULARS.

SPRINGFIELD, May 28 .- The bodies of fifty persons burned to death at Holyoke. last night, have been identified, in addition to those of lifteen or twenty who were at once removed to their homes by their friends. Nearly seventy have died, and some forty more are more or less burned,

The hero of the disaster was John Lynch, ical Pennsylvania statesmen possess a brave fireman, who was first to respond the alarm. He describes the scene when he reached the burning church as appalling. People were wedged tight and almost immovable in the doorways, making a dense mass of humanity from six to eight feet in height, none of them being able to stand upright from the terrible pressure of the crowd behind. Without a moment's pause to consider their danger. Lyuch and Chief Engineer Mullin rushed into the flames, spurred on by piteous cries of "For God's sake come and help us !" and began pulling out bodies. A moment later and a well directed hydrant stream from Mt. Holyoke hose struck the brave rescuers and undonbiedly saved their lives, while upon and over them a sheet of fire rolled like a wave, streaming far out into the open air. Hundreds of men went to the wreck as on as opportunity offered to search for the bodies, and a police force was organized to keep back the large crowd which had gathered. The greater number of bodies were found in the fatal entryway, burned, some of them, to a crisp. The body of one woman was found in the seat she had occupied. Her clothing was entirely burned off. A woman, weighing 180 pounds, way dragged screaming from the mass. Si was carried a short distance from t church and placed on the grass, while ; flesh actually peeled off her back, and moment she fell over dead. The scenes last night and to-day school house basement where the were carried, were heartrending in 1 treme. In some instances the

OF THE VICTIMS.

There is but little to add to the mournful story of the Holyoke church disaster. Many who were supposed to be only slightly burned will die from their injuries, and a great many who survive will be maimed and disfigured for life. The funeral obsequies took place Saturday in the basement of the half finished church which was soon to supply the place of the flimsy wooden structure destroyed. The weight of them proved too much for the slender structure, and the middle boards gave way, allowing it to sink with the coffins several inches. The church had meantime become packed with people, relatives and friends of the deceased, who pressed about the dais watching the movements of the workmen on and around it, and when the timbers cracked the crash sent a thrili of horror through all present, as it was thought that all the coffins were precipitated to the ground. But they were spared this fresh torture, for the dais was soon repaired and made more secure. One lady gave a heart- in season for dinner. rending scream and was carried out in a fainting fit. The ceremony of "Adieux, or absolution to the dead," was conducted by Fathers Dufrisne, Primean and Gagnier, and consisted of a final sprinkling of the coffins with holy water while the choir chanted prayers for the dead. A sad case was that of Joe Richards, who was in the building with his wife when the fire was found to be beyond control. The church was erected in 1870, entirely of pine, and was about one hundred feet by sixty, two stories, with galleries on the sides and north end, about twenty-five feet wide. There were two doors in the north end, and a vestibule, from which two doors opened into the body of the church.
