AN UNFORTUNATE FAMILY-A Singular Accident Resulting in Death. -The readers of the Journal will remember that we publish-

ed an account of a singular accident which happened to Miss Jennie Geist, of Franklin township, in the latter part of March last. It will be borne in mind that she ran against a wall in the dark with an ordinary glass tumbler and broke it, one of the fragments striking her on the neck and inflicting a severe wound that caused her friends to despair of her life; but, fortunately, by careful nursing and excellent treatment she recovered. About the same time a brother got into a serious trouble and is still suffering the penalty of outraged law. We now have to relate another peculiar, and, in this in-stance, fatal accident to a member of the same family : Miss Tennie Geist, sister of lennie, has resided in the family of John R. Lowrie, esg., of Warriorsmark, for a number of years. On Friday of week before last Mr. Lowrie took Miss Geist, with other members of his family out riding, and on their return Miss Geist, while in the act of springing from the carriage, in some manner

ly that she died from the effects of the injury on Sunday morning following. We deeply sympathize with the bereaved family. They have truly had much sorrow and affliction. May they be able to bear up nobly under it all .- Huntingdon Journal.

THE ALTOONA RAILROAD SHOPS .- The new and extensive addition to the Pennsylvania ratiroad company's work-shops at Altoona renders the establishment the most

complete in this country. The new building about 35 years, was injured so badly at the east end of the Gallitzin tunnel, on Monday eight to twelve feet thick and one story high, with arched roof. It is known as the machine shop, where the engines are "set up" or put together. A single line of track enters the building from either end, but incourse walking on the track when he met side there are three tracks. A locomotive "ordered to the shops" is taken just over the threshhold of the building, when it is

picked up by a patent crane costing \$42,000 and carried either upside down, sideways, or in other positions to any part of the shop. long since, and afterwards, while pulling up If a new boiler or fire-box is needed, the some potato stalks which Paris green had been spriukled, had the misfortune to get ered to the basement, and the boilers are some of the poison into the wound, and the taken to the boiler shops. The boiler being result was that the hand and arm became renewed it is carried back and the focomotive is set up again ready for the road. A spectator might stand looking in amazement while a locomotive disappears by piecemeal before he could realize the situation. The shops at Altoona are a wonderful study for

A DISSERTATION ON THE TARIFF.

DOUGHVILLE, FLA., July 12, 1875. EDITOR-The Tariff question, which is the most vexations of all vexations topics, sure be most vexations of an vexations topics, sur-ly demands the services of my powerful pen in the crisis into which the Republican party has precipitated us. Strong Local Endorsement.

THE following letter fully explains itself, and needs no comment :

ERENSRURG, PA., April 10, 1816. To Walter A. Wood, President, etc.

DEAR SIR - This is to certify that I purchased from L. & S. W. DAVIS, your agents in this place, during the year 1972, one of your NEW IRON MOWERS, which I have oper-ted during the past three scanons with entire su-cess. I have used it in cutting fully 200 acres grass, and have not expended one cent on it for repairs. Like sil other machines, it is not perfect, of course, but the only fault I find with it is her it is not arranged with shafts for one horse instead of two, as one horse can very easily operate it is anything like fair ground.
