Commissioners, John Hileman and Isaac

and will give it a safe deliverance. -The fact that the FREEMAN, in the estireliable dispenser of news unless it gathers its information from the columns of that journal, will be fully appreciated when we inform our readers that the following item, clipped from Saturday's issue of the Tribune, is based on the story published by us last week relative to the killing of a blacksnake in Carroll township in the early part of the season which measured ten feet and seven

inches, and that the same gentleman (Mr. Albert Boslet) did to death seven yours ago a reptile of the same species which measured fully twelve feet. Not being reliable, the Tribune could not of course accept our version of Mr. Boslet's exploits as correct, and hence it got up one of its own in this wise : "The latest Carrolltown snake measured ten

feet and seven inches. It was killed by a farmer residing in the vicinity of that borough, and he confesses to having killed one last year which was over twelve feet in length. They were both blacksnakes."

-While Conductor Quartz was standing between the Philadelphia Express and Mail train at Cresson a few evenings ago, some dishonest cuss very cooly reached out from one of the platforms of the Phila, Express, then moving away from the station, and lifted a new hat from off his head. While this was doing, however, the glare of Mike's lamp revealed the features of the thief, and as he felt confident that he had seen the counts the unfortunate lad, whose age is same ebap on the Mail train, he slipped around the Philadelphia Express, as it was moving off and had the gratification of finding

young man named Yingling resides at Livermore, Westmoreland county, and for some time past has been employed at a planing mill near the town of Indiana. Several weeks ago he fe!l in love with a lady who makes her home near the latter place, and, like a great many young men we know of, he was not sure whether the tender passion was reciprocated by the object of his atten-tions. Recently he went home on a visit, and shorly afterward his employers received a letter, which was signed by Mr. Speedy. brother of Mr. B. F. Speedy, of this place, and which was written from Livermore. This screed contained the mournful intelligence that Mr. Yingling had met with a fatal accident while riding on a railroad train between his home and Apollo, and that the arrangements for his funeral had been made. It seems that the supposed victim of a vio-

lent death had been a member in good standing of a lodge of Knights of Pythias, in Indiana, and at a meeting of the organization they determined to attend his obsequies in a body. So, to the number of twenty-six, they took passage for Livermore, and were Yingling naturally surprised to see Mr. standing upon the platform, in full life, and having no appearance of being a ghost, either. An explanation was demanded, and they were referred to Mr. Speedy. That gentleman was found, and when the affair was explained the surprise appeared to be mutual, as he had no recollection whatever of having written any letter of the kind. The matter began to wear a somewhat complicated appearance, and it was at length concluded to hold another interview witthe supposed corpse. After some little eva sion he at length acknowledged that the letter had been written with his own hand.

and upon being pressed to explain why he brought the whole delegation of Knights down to that place, fully dressed out in their mation of the Johnstown Tribune, is not a regalia, and ready to mourn the demise of a brother in good standing, he was constrained to confess that he wouldn't have done anything of the kind only that he desired to see if his girl would come on to attend the funeral. Just about the time this rather naive confession was made he found it advisable to flee from the wrath which was manifested on the countenances of his brother Knights, and the chances are that if he had tarried the corpse would have been furnished anyhow. He has not made his appearance in Livermore since this affair occurred, and is doubtless pining away in anguish in some lone retreat, for the facts, as related to us, are that the lady whom he expected to arrive on the first train did not make her appearance at all, and he was given to understand that she is engaged to another man. That is the whole story, as it came to us, and the affair reads romantic enough for the censtruction of a dime novel, -Johnstown Tri-

....

UNLOCKING THE ROCKS .- The great cost of silver and gold arises not so much from their scarcity in the earth as the difficulty of extracting them from their stony combinations. Dr. J. C. Ayer, the well known chemist of Massachusetts, has cut this gordian knot. After having merited and re-ceived the gratitude of half mankind by his remedies that cure their diseases, he is now winning the other half, by opening for them an easy road to the exhaustless treasures of the hills. He has discovered and published a chemical process, which renders, at little cost, the hardest rocks and ores friable like chalk, so that the precious metals are loosed from their confinement, and easily gathered. Mines too poor to pay, may be worked at a profit now, and the yield of rich mines is largely increased, while the cost of extracting the metals from the ore is diminished. ther is a great achievement, to enrich mankind, or cure their diseases. But we are informed our celebrated countryman adheres

The dimensions of the edifice may be best understood by conceiving of it as three buildngs-one fifty feet wide by a hundred and fifty feet in length: and two others, each of which would be forty-five feet in width by a hundred and eighty feet in length-the whole blending into one building of beautiful proportions, and all four stories high above the basement. The basement story is nine feet in height, and the other four stories range from eleven and a alf to fourteen feet between the floor and

"The building is remarkable for its being well lighted, well ventilated, and for its general of cheerfulness. It has been pronounced Prof. Wickersham, the Superintendent of nir by Prof. Wickersham, the Superintendent of Public Instruction, as unquestionably the best building of the kind in the United States.

Communication.

THE COUNTY TREASURYSHIP. MR. EDITOR-The most singular reason linve ever heard of upon which to base a candidate's claim for office wat, if I am rightly informed, and I think I am, made use of a few days ago by one of your competitors for County Treasurer, who, by the way, is credited with still further saying that he didn't care whether he was nominated or not so that he succeeded in beating yourself and a certain other candidate in whom I feel an interest beyond all others named. But that ain't what I started out to tell you. The gentleman to whom I refer claims that either himself or his particular friend should be nominated for County Treasthen should be nominated for County Treas-urer, because, forsouth, they each gay more than double the amount of tax which yourself and my friend both together pay; or, to bring it down to a fine point, himself and his friend conjointly are the possessor of more than four times the amount of property which yourself and the other gentleman in greation can be and the other gentleman in question can lay claim to. Ergo, the office should be bestowed upon one who really don't need it, while he to whom it would be a God-send must be counted out. That is to say, poor men have no rights which their more fortunate neighbors are

bound to respect. The same seeker after office. I am assured, is busy circulating the report that the Democratic basis of Cambria county has been keeping you for a number of years, and that you have no right to expect nor should you receive any more favors from that source. Well, it may be that you haven't earned all you have got from the Democracy of this county, although I am the Democracy of this county, although I am told that you are a hard-working man and that you run your business on the most economical principles; still it does seem a little queer that a man whom an cufire party is engaged in keeping, and who is said by no means to be a spendtorift, hasn't one-fourth as much property as the man who boasts of the amount of taxes he pays and thinks that ought to be deemed all sufficient to secure him the nomito the latter as his specialty and chief am-

-----A MICHANICAL TRIUMPH-Mr. J. H.

Moore's New Mercantile Wagon, -One of the most extensive and certainly one of the most complete specimens of mechanical skill that Ebensburg has ever had the honor of accomplishing, was sent forth upon its mission on Saturday evening last, amid the well of Mr. John H. Moore, of Altoona, which is

beyond question the largest and most perfect vehicle of the kind that has ever been put and is the handiwork of Mr. Daniel M. Chute, of this place. It is intended for four horses and is constructed in all its parts of the very best material that the country can afford. It is built on platform springs, with a cut-under or arch for the front wheels to run in beneath the body so as to permit the vehicle to be turned short within its own length. The body is fourteen feet long, four feet high and five feet in width, and contains nine doors and twenty-six drawers any kind of goods to be shown without interfering in any way with the other articles comprised in the stock. These several compartments are perfectly water-proof, and in no event can the goods be injured or even dampened by the most incessant rain. The

lriver's seat, too, is fully protected against inclement weather, it being supplied with the means to close it in on all sides. The entire wagon weighs about 3,500 pounds and is capable of carrying 5,000 weight of merchandise. The wheels, which are know as Sarven's patent wheels, were manufactured in Cincinnati at a cost of \$60 for the full sett. They are perfect beauties in their way, being the most substantial and elegant wheels that we have ever seen. They are roned with tires two inches wide and one inch thick, and are well calculated to bear any weight that may be put upon them. The wagon cost \$760 as it stands-"a thing

of beauty and a joy forever"-but had it been turned out in some city shop it is the opinion of many fully competent to judge that it would have cost little if any less than one thousand dollars. In this brief desciription of a master work

of art we feel that we have not done full justice to the subject, but we have said mough we think to convince all that the monster vehicle is a credit to one of our best mechanics and a decided honor, especially in these panicky times, to the enterprise and public spirit of Mr. Moore, of whom it may

truly be said that since he started out in the world, at the early age of thirteen, penniless and shoeless, but with mind intent upon making his way in spite of the most adverse circumstances, he has encountered more of the ups and downs of life then usually fall to the lot of man. Determined, however, to meet misforture with an indomitable will and an honesty of purpose which is always bound to win, he has passed through the crucible of ill luck time and time again only to find himself to-day well worthy of the name of prince of pedlars, the possessor of the largest and most elegant tarnout in the

country, and dealer in a greater variety and a more extensive stock of notions and fancy goods than any other man in the same line. There could scarcely be more glory for Moore in the future, but if there is we are sure he will attain it honestly and wear it meekly. P. S. Since the above was put in type,

we have received a note from Mr. Moore, dated Altoona, Aug. 30th, in which he tells us that he filled the "Great Eastern" chock found that it weighed fully five tons. Mr. Moore feared the wagon with its load on

height unfurled her standard to the air, her

nation for County Treasurer. Yours.

THE Democratic convention of Blair county having on Monday last nominated SAMUEL HENCHEY for State Senator, and Cambria having no candidate of her own to urge, so far as we know, the pomination of Mr. HENCHEY by the conferees from the two counties, when they meet, is a foregone conclusion. We know SAMUEL HENCHEY

-an honest man and a thorough, straightforward Democrat. He deserves and we have no doubt will receive the hearty support of every Democrat in the district. The Hollidaysburg Standard truthfully says of

him : "The phoice of the Democracy of Blair for Senator is a Democrat in whom there is no guile and a gentleman of unquestioned purity of character. He is a man of the people, has guile and a gentleman of unquestioned purity of character. He is a man of the people, has never mixed in politics in his life and brings to never mixed in polities in his life and brings to the canvass a record against which the fonlest malice can suggest no stain. Should Cambria mumber of games this summer, and they have inflice can suggest no stain. Should Cambria ratify the nomination, as we feel sure she will, his election is an assured certainty."

..... VINE CULTURE AND WINE MARING .-Mr. Alfred Speer, of Passaic, N. J., so long and favorably known as the wine man of New Jersey, expects a larger yield of grapes this year than usual, and has reduced the price his four year old port so as to bring it within the reach of the poorer families who need a pure and rich wine for medicinal purposes. Mr. Speer's mode of fermenting and keeping his wine differs from the usual methods. This is the reason why it is so much superior in quality, but it requires four years management and changing of temperature in order to make such a perfect fine wine as it is; the knowledge of changing to various temperatures at different times, and at the right time, is where he has the advantage of getting so rich a wine without the use of liquor. Large quantities of Speer's Port Grape wine have been ordered to South America, and by Europeans. Physicians recommend it as superior to most of the European wines. It is dealt in largely by druggists.-Daily Express.

GREEN'S AUGUST FLOWER .- It is natural for people suffering with Dyspepsia and Liver Complaint or any derangements of the digestive organs, such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-burn, Waterbrash, gnawing and burning pains at the pit of the Stomach, Yellow Skin, Coated Tongne, and disagreeable taste in the mouth, coming up of food after cating, low spirits, &c., to put off from day to day buying an article that they know has cured their neighbor, friend, or relative, yet they have no faith in it until it is too late. But if you will go to your Druggist, Lemmon & Murray, Ebensburg, or to Woleslagle & Son, Wilmore, and

get a bottle of GREEN'S AUGUST FLOWER your immediate cure is as certain as you live. Sample Bottles of this medicine can be obtained for 10 cents to try its superior virtue.

Regular size 75 cents. Try it, two doses will relieve any case.

....

-The golden oriflame of day was sinking behind the western hills and glorifying the landscapes with its parting rays when the hero of our story bobbed into the popular and extensive clothing emporium of Godfrey Wolf, next door to the post-office, Altoona, and bought himself a full suit of the best made and in style and fit the most perfect wearing apparel that ever graced the human form divine in this latitude, and came forth there from with almost as much money as he had when he entered therein. Go thou, reader, and do likewise.

-Messrs. Baxter & Son of this place have concluded to make way with the entire stock of goods they have now on hand, no mat-ter what the sacrifice, as they need room for their fall and winter supplies. Hence it is that they have resolved to sell all they have at less than cost, and they invite every one who wishes to secure better bargains than they ever heard of to bring along the cash and see what they can do for them. This is no catch-penny announcement, but a bona [8-20.-tf.]

TUNNEL HILL, Aug. 28, 1875. DEAR FREEMAN - Base ball was rather lively here to day, and the "Stars" of tids place are shining brightly once more. They played the stiming brightly once more. They played the "Mountain Tigers" nine inning for a ball. The former club book the ball, gaining the victory by the following score: 'Stars 27; Tigers 16. This game passed off so well and all were so pleased with ft, that they resolved to play five unings more for a bat. The "Stars" also came out victorious in these five in angs by a score of 18 to 12. Both games were carried on welland to the pleasure of all. The empiring especially to the pleasure of all. The unpiring especiality was well done, and to the credit of that impor-

only been beaten ones. The Tunnei hill school, under the tutorship of our mutual friend, Mr. John Murphy, is pro-

gressing finely, and both parents and children seem satisfied with him as a teache The squirrels around this vicinity are pretty well bunted up, as several young men of this place seem to have forgotten all about the game laws, and strings of squirrels are being brought in every day. When the senson comes there will not be a squirrel in the woods.

IMPORTANT TO MEDICAL STUDENTS. The Trustees of the Louisville Medical College (Lonisville, Ky.,) have, in accordance with the provisions of their charter, estab lished a Beneficiary System whereby any young man studying medicine and being unable to pay for his education, may receive a Beneficial Scholarship, v hich relieves him of payment of the Professors' fees. The public will be pleased to learn that this well known College has abolished all fees for its diplomas; the Faculty being thus wholly uninterested pecuniarily in the result of a examinations for graduation. For particulars, address Dean of Louisville Medical College, 163 Second street, Lonisville, Ky.
