IMPORTANT ARRESTS.-Two of Pinkeron's detectives, Carlin and Lukens by name, arrived in this place from Philadelphia on Saturday night last. Of course no one knew who or what they were after; no one ever does. On Sunday afternoon, however, they started in a two horse carriage for Chest Springs and vicinity, and on Monday morning succeeded in effecting the arrest near St. Augustine of a young man named James Plunkett, whom they brought to jail here the same day. Plankett resided for about one year at or near Souman station, but left that place in August last for Clearfield township, where he was raised and hal formerly lived. The charge against him is that he made a brass key with which he and others, or others without his aid, succeeded in unlocking a freight car on the Pa. R. R., somewhere between Gallitzin and Johnstown, in the latter part of September, from which they stole a box of dry goods, the contents whereof they appropriated to their own use. We merely state the charge as made by the R. R. officials, without knowing anything about the facts. Four other persons were arrested and brought to jail last week on suspicion of being concerned in the same transaction, two of whom are still in prison, the other two having been released on bail soon after their incarceration. Young Plunkett had been confined only about three hours when a relative from Clearfield township arrived in town and entered bail before H. Ki skead, Esq., for his appearance to answer

at December sessions. Common Sense vs. Prejudice. By R. V. PIERCE, M. D., of the World's Dis-pensary, Buffalo, N. Y., Author of "The People's Common Sense Medical Adviser," etc., etc.

I am aware that there is a popular, and not altogether unfounded, prejudice against "patent medicines," owing to the small amount of merit which many of them possess. The appelation "Patent Medicine," does not apply to my remedies, as no patent has ever been asked for or obtained upon them, nor have they been urged doon the public as "cure-alls," They are simply some favorite prescriptions, which, in a very extensive practice, have proved their superior ramedial virtues in the cure of the diseases for which they are recommended. Every practicing physician has his favorite remelies which he oftenest recommends or uses, because he has the greatest confidence in their virtues. Patients do not know their composition. Even prescriptions are usually written in a language unintelligible to any but the druggist. As much secreey is employed as in the preparation of proprietary medicines. Does the fact that an article is prepared by a process known only to the manufacturer render that article less valuable? How many physicians know the elementary composition of the remedies which they employ. some of which have never been analyzed? Few practitioners know how Morphine, Oninine, Podophyllia, Leptandrin, Pepsin, Chloroform, are made, or how nauseons drugs are transformed into palatable clixirs; yet they do not hesitate to employ them. Is

it not inconsistent to use a prescription, the composition of which is unknown to us, and discard another preparation simply because it is accompanied by a printed statement of its properties with directions for its use? Some persons, while admitting that my medicines are good pharmacentical compounds, object to them on the ground that hey are too often used with insufficient judgment. I propose to obviate this difficulty by enlighening the people as to the structure and functions of their bodies, the causes, character, and symptoms of disease. and by indicating the proper and judicious employment of my medicines, together with such auxiliary treatment as may be necessary. Such is one of the designs of People's Medical Adviser, forty thousand copies of which have already been published and are sold at the exceedingly low price of \$1.50,

and sent (post paid) to any address within the United States and Canada. If you would patronize medicines, scienifically prepared, use my Family Medicines. Golden Medical Discovery is tonic, alterative, or blood cleansing, and an unequaled cough remedy; Pleasant Purgative Pellets, scarcely larger than mustard seed, constitute an agreeable and reliable physic; Favorite Prescription, a remedy for debilitated females; my Compound Extract of Smart-Weed, a magical remedy for pain, bowel complaints, and an unequaled Liniment for both human and horse-flesh; while Dr. Sage's Catarrh Remedy is known the world over as the greatest specific for Catarrh and "Cold in the Head," ever given to the pub-

These standard remedies have been before the public for many years—a period long enough to fully test their merits, and the best argument that can be advanced in their favor is the fact that their sale was never so great as during the past six months.

Local Correspondence.

CHEST SPRINGS, Oct. 25, 1875. DEAR FREEMAN-I propose to send you a few local items from this community, the first of which is to requality your readers with the fact that our citizens were greatly surprised and edified by a lecture delivered in the school by a gentleman who styles himself Di Luke Elecate, of England. He is a thoroughly educated man, and for the last eighteen months has led the life of a recluse in the wilds of White township. He was known to many of us, but we little dreamed that he was the scientific man that his lecture proved him to be. His subject was "Mental Science," and he held his audience spell-bound, as it were, for fully two hours, al-though we scarcely realized that he had occupied more than thirty minutes. At the conclusion of his lecture he gave us a brief sketch of his life, closing with the remark that so long as he remained in public life the public claimed his services, and as he was desirons of publishing a work on the above subject, he retired to the forests of White township for the purpose of preparing his manuscripts. Having at last accomplished this object, he now proposes to return once more to his legitimate calling, and after repeating his hecture here by request on Saturday evening, Nov. 6th, intends visiting Ebensburg and perhaps other places. How true

it is that the roughest casket sometimes con-tains the purest pearl.

The marksmen of this place organized a grand hunting expedition last week, the participants in which formed themselves into two parties of equal numbers, each of which contained a fair sprinkling of the valiant Nincods who van-quished Barnum's pet bear the week previous. After the expedition had been fully organized and the respective commanders selected, the following agreement was drawn up and signed, viz: Each party was to continue the hunt for two days and to confine themselves to the mountain between this place and Altoons, and the party returning home with the smallest number of scalps and tails was to forfeit to the vicber of scalps and talls was to forfeit to the vie-torious party all the game which they lind suc-ceeled in capturing, besides paying for a big-oyster supper for all the participants. In ac-cordance with these stipulations the hunt took place, and when the two rival teams returned home they counted down 250 and 175 heads and rails respectively, comprising pigeons, pheasants, woodcock, bawks, porcupines and groun sirrels. Some amusing stories are told by to bagging various large game. One man shot a hage turkey, but the feathers carried off the meat. Another brave hunter, after following along the winding trail of a fu'l grown buck, succeeded in getting a shot and as he thought a fatal one at the buck. In fact he declares that as sure as the gun cracked the game fell, but not being well versed in the art of hunting he neglected to load his gun, and instead therehe neglected to load his gun, and instead thereof seized his scalping knife and rushed in to finish the work. Imagine his surprise then when
he found that the buck was not only able to defend its position, but that after recovering
from the fright it had received from the report
of the hunter's gun, got up and scampered off
at a rapid pace, soon leaving its assailant far in
the rear.

the rear. More another time. THE readers of the Combria Freeman are made to struggle with the following problem: "A party of legal gentlemen dined at a hotel and the bill being \$16.41, each one paid as many cents as there were lawyers in

the party. How many lawyers were there?" This is certainly a "big question" to put to an educated community; besides, it is not SEALSKIN SAQUES, practical-to say nothing of its being unconstitutional. Evidently 1641 is the square of the number sought, and the square root of the given number being found, we have 41 lawyers all in a row. Now, who ever heard of forty-one lawyers getting away from a hotel at an expense of forty-one cents each No such case appears in the books-not even in Blackstone-and we are led to believe that the Cambria man had a vigorous attack of "night mare" when he propounded this startling problem, - Osceola Reveille.

IS YOUR LIFE WORTH TEN CENTS?-Sickness prevails everywhere, and everybody complains of disease during their life. When sick, the object is to get well. Now we say plainly that no person in this world who is suffering with Dyspepsia, Liver Com-plaint and its effects, such as Indigestion, Costiveness, Sick Headache, Sour Stomach, Heartburn, Palpitation of the Heart, Depressed Spirits, Biliousness, &c., can take GREEN'S AUGUST FLOWER without getting relief and cure. If you doubt this, go to your Druggists, Lemmon & Murray, Ebensburg, or P. M. Woleslagle & Son, Wilmore, and get a sample bottle for 10 cents and try it. Regular size 75 cents. Two doses will

will be more appreciated than by presenting them with a likeness of yourself. To have this made perfect call on Mr. B. L. H. Dabbs, at his Photograph establishment, No. 46 Sixth street. He has the largest and most complete establishment in Pittsburgh, and the pictures taken by him lead all other in their complete finish of style and perfec-tion. Best light in the two cities.

STOVES-PREPARE FOR WINTER.-We call the attention of housekeepers to the advertisement of Messrs. A. Bradley & Co., of Pittsburgh, headed "Graphie" and printed in another column. It is one of the most extensive and teliable business houses in that city, and purchases can be made to bet-ter advantage there than anywhere else we

WINES FOR DEBILITATED FEMALES .-Some time since we stopped at Passaic, N. J., and were really surprised to see the amount of Mr . Speer's stock of Port Grape Wine on hand. It is almost fabrilous. Four storehouses are filled, and tiers upon tiers of casks up and down stairs, and in some cases huge vats, occupy every available spot; leaving only little alley ways through which to walk. It is an illimitless quantity of wine. None is sold until it has acquired the age of four years and the buildings, 1, 2, 3, and 4, are of the first, second, third and fourth years vintage. Our druggists have some of the oldest of the above wine direct from Mr. Speer. - Patterson Quardian.

Dr. Finney's compound syrup of Brechu is guaranteed to cure Inflammation of to Kidneys and Bladder, cainful or suppressed urination so frequent in old age, painful or suppressed menstruation, lacorrages or whites, gravel, gleet, stricture, bloody discharges, Bright's dicease, brickaust deposits, dropsypain in the back or side, sick aendache, pimples, blotches and eruptions on the face, and a'l diseases of a specific or constitutional nature, regardless of duration, age or sex. Compound Syrup of Buchu is a positive and radical cure. For sale by LEMMON & MURRAY, Ebensburg.

BEARER-YINGER.-Married, at St. Benedict's church, Carrolltown, on Tuesday morning, Oct. 26th, 1875, by Rev. A. Heubner, Mr. DEMETRIUS A. REARER, of Carroll township, and Miss Marry Yinger, of the former place.

May Demetrius ever be a Bearer of glad tidings and great joy to the companion of his bosom, and may many young Bearer rise up in due course of time and call them blessed.

MYERS.—Died. in Munster township, on Sunday evening. Oct. 24th, 1875, Mrs. ANN MYERS, relief of John Myers, dec'd, aged 77 years and 2

The deceased lady was born in this county, we believe, and was the mother of cx-Sheriff James
Myers and Mrs. J. D. Parrish and Mrs. Hasson,
of this place. She was a woman of kind and
noble impulses, a sincere and devout member
of the Catholic Church, and a friend and neighbor who endeared berseaf to all who know her, as was fully attested by the large funeral cor-tege which on Tuesday last accompanied her remains to their last resting place in the Catho-lic cemetery at Loretto. May she rest in peace. CAIN .- Died, in Carroll township, on Wed-CAIN.—Died, in Carroll township. on Wednesday morning. Oct. 27th, 1875, Mr. JAMES CAIN, sr., aged about 80 years.
Mr. Cain was one of the oldest and best citizens of Northern Cambria, and enjoyed as he deserved the esteem of all his neighbors. He was born in Ireland, and with that devotion and zeal which characterizes all worthy children of the Catholic church and of the Errerald Is'e,

hewas through out life an exemplar of all those Christian virtues which adorn and ennoble poor

fallen humanity. Requiescat in pace.

A Lecture on the Nature Treatment and Radical Cure of Seminal Weakness, or Spermatorrhœa, induced by Self Abuse, Involuntary Emissions, Impotency, Nervous Debility, and Impediments to Marriage generally; Consumption, Epilepsy, and Fits; Mental and Physical Incapacity, &c.—By ROBERT J. CULLVER WELL, M. D., author of the "Green Book," &c.

The world-remowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-Abuse may be effectually removed without medicine, and without dangerons surgical operations, bougies, instruments, rings, or cordials; pointing out a mode of cure at once certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

**Part This Lecture will prove a boon to thousands and thousands. Just Published, in a Scaled Envelope. Price 6 cts
