STANLEY WOODWARD, of Luzerne county, committed a great blunder when he offered a resolution in the Lauraster convention virtually instructing the delegates from this State t , the St. Louis convention to vote for Judge Black as its nominee for President. The convention was not called for the purpose of bestowing an empty compliment upon Judge Black, or any other man; and, besides this, it was e deulated to place Judge Black in a false position, as he has too much political segacity not to know that he stands about as good chance of being struck with lightning as he has of being nominated at St. Louis. The resolution was offered without his knowledge or consent, and the convention did a wise thing by laying it on the table.
