The blue field will be sixteen feet eight inches in length and of the same depth. The thirtyeight stars will each measure fifteen inches across. It will require two thousand seven hundred yards of machine sewing and ninety yards of hand sewing to complete it, and it will weigh about fifty-five pounds.

-The first Sabbath School Convention of the Allegheny Evangelical Lutheran Synod will be held in Altoona, from May 23d to 25th, 1876. Each school connected with the Synod will elect two delegates, male and female, besides the pastor, to represent them in the Convention. A report of the number of officers, teachers and scholars, with the number of additions to the church from the school during the year, and the amount contributed for benevolent purposes, is request-ed. Delegates will inform Rev. H. Baker, of Altoona, in due time, of their intention to be present.

THREE FIRES IN ONE DAY .- Friday last was not only a bad day for high winds, but deserves to go upon record in this part of the country at least as one more than usually prolific of fires, no less than three having taken place on that day within a few miles

The first of these in point of locality if not of time, occurred in Susquehanna township about noon, and resulted in the complete wiping out of the dwelling house of Mr. Jacob Reffner, as well as the almost total destruction of all it contained, including, besides the furniture, about forty bushels of wheat and some other grain. The fire was communicated to the roof from the stove pipe while the family were at dinner, and first intimation the inmates had of the conflagration was the falling in of the roof. Mr. Reffuer's loss, which he is but poorly able to bear, will amount to about \$600, on

which there is no insurance.
On the same day, as already indicated, the residence of Mr. Daniel Glenn, of Pine township, Indiana county, near the Cambria line, was set on fire by a spark falling upon the roof, and was burned to the ground with the greater part of its contents. We did not learn the extent of the loss nor the amount

of insurance, if indeed there was any.

The third and last of this series of conflagrations was at the residence of Dr. Brallier, of Cherry Tree, Indiana county, which caught fire in much the caught fire in much the same way as the others, but was fortunately discovered in time to prevent further damage than the burning in the roof of a hole about eight feet

A FATAL QUARREL BETWEEN NEIGH-BORS.—The Somerset Herald for the current week furnishes the following particulars of the killing of Jacob Rose by John J. Sease, in Baint to make the control of the current of the killing of Jacob Rose by John J. Sease, in Baint to make the current of the current world for May plies its axe at "The Root of our Present Evils," and plies instity. The subject is a large and inviting one to the in Paint township, Somerset county, a short distance South of Scalp Level, this county, on Wednesday the 19th inst., a brief notice of which was published in a portion of our ast issue :

It becomes our duty to chronicle a sad tragedy that was enacted in Paint township, on Wednesday last, wherein Jacob Rose was killed by John J. Sease. Rose was the owner of a saw mill and it appears from all the information we have been able to gather on the subject, that on the day named Sease went to the mill to get some lumber which belonged to him and which had been sawed at the mill. The owner of the mill and one of his sons were at work at the mill at the time, and Sease and the boy got into a wrangle. After some hard words had been bandled between them, the former picked up a piece of lath about four feet long and four inches wide, for the purpose of striking the boy. At this stage of the proceeding the elder Rose interfered and told Sease not to strike the boy, when Sease quickly turned on the old gentieman and dealt him a blow across the head, inflicting a wound several inches in length and fracturing the skull.

Doctor F. L. Averdorf was called more

tieman and dealt him a blow across the head, inflicting a wound several inches in length and fracturing the skull.

Doctor F. L. Averdorf was called upon and did all for the suffering man that medical skill could devise. Mr. Rose appeared to be perfectly free from any slarm that the wound would prove fatal, as he mounted a horse and rode to the office of John E. Sease, Esq., to make an information against Sease, but before finishing his statement he became so weak that he was compelled to abandon it, and started for his home. On his way thither he became so sick and the unfavorable 'symptoms increased so rapidly, that it was evident his lease upon life was very short. About 8 o'clock in the evening the unfortunate man breathed his last, and his death is directly attributed to the injuries inflicted by John J. Sease.

Mr. Rose was a man of about fifty years of age and was universally esteemed in the community in which he lived.

Sease was arrested and brought to the jall at this place on Friday last, and the matter will doubtless undergo a judicial investigation at the August term of our court. He is a man of about fifty years of age, near six feet high and weighs upward of two hundree pounds, broad shouldered, well developed muscles and has a long black beard and black hair. The nose is rather prominent and the eyes large and bright. Taken altegether he is a fine physical specimen of manhood. This account of the deplorable affair is not near full, we know, as our readers would desire, nor is it as comprehensive as we would like to make it, but that beautiful slatute (?) in the criminal jurisprudence of the State which disqualifies a man who has intelligence would like to make it, but that beautiful statute (2) in the criminal jurisprudence of the State which disqualifies a man who has intelligence enough to read and think about a case of the kind from serving on the jury, precludes the giving of the circumstances in full. When our law makers in their great wisdom will determine that men of intelligence are not to be prevented from fulfilling their sworm obligations to "give a verdict in accordance with the evidence" by any account of such affairs that they may read or hear, then and not until then can enterprising journals furnish their readers with full and minute accounts of such tragenies. full and minute accounts of such tragenies.

XANTIPPE. - It seems that the memory of this woman, like that of her renowned husband, is likely to be kept alive to the end of time. She is said to have possessed a very irritable temper, and her name has become a synonym of "vixen," or "scold." It is more than possible, however, that the judgment passed upon her by mankind has been too severe. A more charitable disposition would undoubtedly have discovered in her many good qualities, and have attributed her failings more to physical infirmities than to moral obliquity. The party most intimately acquainted with her, and therefore best able to form a correct opinion, gives her credit It is now well for many domestic virtues. known that many of the diseases to which women are subject, have a direct tendency to render them irritable, peevish, cross, morose, unreasonable, so that they chafe and fret over all those little ills and annovances that a person in health would bear with com-posure. It is fair to infer that most of the tantrums of Xantippe were due to these causes alone; and could Socrates, as he returned from the Senate, the Gymnasium, or that the children may have full time to pre-Mortar's Drug Store and carried home a We say "God Speed" to this bright. bottle of Dr. Pierce's Favorite Prescription. now and then, no doubt he might have evaded many a "curtain lecture," allayed many a "domestic broil," made it much pleasauter for the children, and more enjoyable for himself, and rescued his wife's name from the unenviable, world-wide, and eternal notoriety is has attained. Thousands of women bless the day on which Dr. Pierce's Favorite Prescription was first made known to them. A single Lottle often gives delicate and suffering women more relief than months of treatment from their family physcian. In all those derangemente causing backache, dragging-down sensations, ner-vous and general debility, it is a sovereign remedy. Its soothing and healing properties render it of the utmost value to ladies suf-fering from internal fever, congestion, inflammation, or ulceration, and its strengthening effects tend to correct displacements of internal parts, the result of weakness of

natural supports. It is sold by all druggists. CURE FOR DIPHTHERIA .- Below we print a recipe for the cure of diphtheria, which has been kindly furnished for the benefit of the public, by Mr. Hiram Burlew, of Lock Haven. It is composed, as will be seen, of simple ingredients, which can be readily obtained at any of our drug stores. A supply should be prepared by everybody and kept on hand for an emergency; although we do not anticipate an alarming spread of the dreaded diphtheria, it will often "come handy" in case of sore throat of any kind.

The following is the recipe: 3 oz. wild cherry bark.

2 oz. sage.

Boil each separately in a pint of water, mix together and strain, and boil down to half pint; add to this t oz, of alum and as much loaf or granulated sugar as will dissolve. This is to be used as a gargle as often as may be needed. Poultie the throat with figs or cranberries, well

Mr. Burlew adds: "I made use of the above treatment for diphtheria in my family with good success, when the doctor had given up the child as a hopeless case. Bellefonte Watchman.

HOLLOWAY'S PILLS AND CINTMENT .-Health and Beauty-How to Secure Them .-Female Irregularities .- Beauty is as indispensible to the happiness of woman as is health to her existence, the loss of charms being regarded as a greater affliction than death itself. Rolloway's Pills and Ointment have done more towards preserving it, and relieving the various disorders incidental to the sex, than all other advertised medicines united. Thousands of levely females have had their constitutions raised and beauty blighted by drastic apperients, pernicious stimulants and poisonous lotions. The mild, sootbing and restorative influence of Holloway's great internal and external remedies, in all complaints of women, are now generally admitted, whether in the Spring-time of womanhood, or in the Autumn or turn of life.

SENSIBLE ADVICE.-You are asked every day through the columns of newspapers and by your Druggist to use something for Dys-pepsia and Liver Complaint that you know nothing about, and you get discouraged spending money with but little success. Now to give you satisfactory proof thas GREEN'S AUGUST FLOWER will cure you ot Dyspepsia and Liver Complaint with all it? effects, such as Sour Stomach, Sick Head-ache, Habitual Costiveness, Palpitation of the Heart, Hart-burn, Water-brash, coming up of food after eating, low spirits etc., we ask you to go to your Druggists, Lemmon & Murray, Ebensburg, or Woleslagle & Son, Wilmore, and geta Sample Bottle of GREEN'S AUGUST FLOWER for 10 cents, and try it, or a Regular Size for 75 cents. Two doses will relieve you.

-A seven-year old daughter of Mr. Wm. Wright, residing near New Florence West-moreland county, had one of her hands torn off piece by piece, one day last week, by being caught in a cutting-box. It seems that the little girl and an older brother went to the barn together, and while there the lad started the cutting-box and by some means his sister got her hand into the mill and it was pulled in between the rollers with the

THE CATHOLIC WORLD .- The Catholic HENBY W. KANAGA. moralizing critic, and whether or not the Catholic World has bared the real root is for the reader to satisfy himself. The article is a thoughtful one, and, though, as might be expected, the views enunciated are Catholic in their tone and tendency, the considerations advanced in it deserve attention from all quarters. "A French Novel" is a lighter theme, but full of interest and vivacity. The freedom claimed for Catholic writers of fiction in the future is of the argest kind. and the rating given such writers in the past, of the sharpest. 'Pirkheimer' is a refresh-ing dip into one of the side currents of the gteat Reformation. The Catastrophe is at length reached in "Are You My Wife?" The end of the strange heroine is told with great power and feeling. This story will end in the June number. "Napoleon and Pius VII." is an article based on the new and very interesting "Life of Plus VII." by Miss Allies. "The Poetry of the Period" will probably attract the general attention will probably attract the general attention as much as anything in the present number. The writer rates Rossetti and Morris higher than Tennyson. What will the lovers of the Laureate think of this? "The Church and Civil Liberty" holds up the Catholic Church as the champion of human liberty now and since its existence. Before it and without it, according to the writer, true liberty was nuknown. "Scanderbeg" is a spirited biographical sketch of a real Christian hero. The article has a certain present interest, from the fact that its subject led to the last great revolt against the Turkish power, in much the same region as that wherein the struggle between Christian and Turk is now being waged. There are several other articles of greater or less interest in the present number of this magazine. But from those men-tioned it is easy to see that the Catholic World knows thoroughly how to pass "from grave to gay, from lively to severe," and combine solidity of matter with gracefulness of touch. The literary criticisms are full of merit, and form a valuable feature of their own. The expose of an unusually provoking piece of literary piracy in a so-called edition of "Faber's Hymns" was deserved:

WIDE AWAKE FOR MAY, 1876 .- WIDE AWAKE for May is grassy, flowery, and out-of-door-ish generally. There is a de-lightful flutter of birds' wings in Miss H. R. Hudson's poem, "Helping the Birds." Mrs. Warner's full-page poem is starred with dandelions, there are humming-birds in "Sweetheart's Surprise," by Mary E. C. Wyeth, a merry sound of waters in the "Mill Songs" by Miss Farman. "Puss Speaks" adds another to these fine poems. The number opens with a story by Edgar Fawcett, adorned by a fine illustration drawn by Miss C. A. Northam. It will do our inde-pendent girls no harm to read this story. Other good stories are, "The Doll Mission," by the editor, "The Angel of the House," a Centennial story, by C. H. Woodman, and "Hanging a Bear," a true story of adventure by Rev. I. L. Beman, with a spirited frontispiece by F. T. Merrill. There is a simple but tempting record of last summer's camp-ing out, by H. A. H., alluring one thus early to the wholesome way we Yankees have taken up of spending the hot summer days, while the initial paper of "A Child in Florence" promises us some pleasant reminiscences of that famous art-city. The serials, "Young Rick" and "The Cooking Club," are worth the reading. The Departments are well-sustained, the pictures admirable.— Last, but not least among the attractions, is a Centennial drama, prepared for the children by the well-known dramatic writer, Mrs. E. D. Cheney. It is given thus early some magazine. Only \$2.00 per annum. Sample copies 20

In this state of health, Dr. KEYSER' LUNG CURE will recreate the body; will fill the arteries and veins with new blood, out of which new tissues and new organisms can be formed, and all the functions of life will be restored to pristine health and vigor. We have seen this verified in more than an hundred instances. Yes! even after consumption had laid its fatal grasp upon its victim, Dr. Keyser, with that most wonder working medicine, has given back health and life. OBITUARY.

BROWN.—Beid. In Washington township, on Thursday, April 20, 1876, Mrs. CATHARINE ANN BROWN, wife of Mr. Wm. Brown, aged 45 years, 4 months and 14 days.

The deceased was the mother of a large and respected family, and her life was devoted to the performance of good works, among which may be mentioned the bringing up of her children is the strict observance of those duties which they owe to both God and man. Her d ath is mourned by a large circle of relatives and frience, all of whom esteemed her very highly. Having did as she lived, a firm believer in the Catholic faith, her remains were interced in the cemetery at Summitvilie. May she rest in peace.

MULLEN. - Died, in Summerhill township, on Monday, April 24, 1878. Mrs. Manganer Mullien, reliet of Bernard Mullen, deceased, aged about relict of Bernard Mullen, deceased, aged about 68 years.
Mrs. Mullen was born in County Longford, Ireland, and came to this country about fifty years ago, during most of which time she resided in this county. Her long and eventful life was brought with many troubles, not the least of which was the paralyzation of her husband some thirty years ago and the consequent devolving upon hereif of the duty of providing for the wants of the family. She was a devout member of the Catholic Church and enjoyed the esteem of all who knew her. May she rest in peace.

I propose to enter the ranks and endeavor to keep you posted on matters of general interest to the public. Not having had a great deal of experience in newspaper writing. I trust you will not criticise too closely my manner, but look more to the matter of my entitles. my manner, but look more to the matter of my epistles.

It pains me to have to inform you of the loss by fire, on Friday last, of the dwelling house and all its contents belonging to Mr. James Refner, of Susquehanna township. You will remember that the wind blew strong and high on that day, and this together with the fact that the family were seated at dinner when the fire broke out, accounts for it making such headway that not an article of furnature of beadway that not an article of furnature of

even wearing apparel was saved. The entire community sympathizs with Mr. Refuer, and efforts are on foot to assist the unfortunate but theserving family as far as possible. Our friend M. J. Buck, M. D., paid a brief visit Our friend M.J. Buck, M.D., paid a brief visit to his home last week.
Out farmers are busy ploughing, and the village is consequently duli, local items scarce and greenbacks dutto.
A juvenile lover of some thirteen summers made an avow at of his "feelinks" the other evening in a manner worthy of record. He requested a younger brother of Susan Jane to inform

his mamorato that her likeness was imaged on his heart as large as a twin calf. HOLLOWAY'S OINTMENT.

Bad Legs, Bad Breasts, Sores and Utcers. ALL description of sores are remediable by the proper and diligent use of this inestimable preparation. To attempt to cure had legs by plastering the edges of the wound together is a folly; for should the skin unite, a boggy, diseased ondition femains underneath to break out with tenfold fury in a few days. The only attended. fury in a few days. The only rational and successful treatment, as indicated by nature, is to reduce the inflatmention in and about the wound and to the inflammation in and about the wound and to soo he the neighboring parts by rubbing in plenty of the Ointment as sail is forced into meat. This will cause the malignant humors to be drained of from the hard, swellen, and discolored part-round about the wound, sore, or ulcer, and when these humors are rounoved, the wounds themselves will soon heal; warm bread and water poultices applied over the affected parts, after the Ointment has been well rubbed in, will soothe and soften the same and greatly assist the cure. There is a description of ulcer, sore and swe ling, which need not be named here, attendant upon the follies of youth, and for which this Ointment is u gently recommended as a sovereign remedy. In curing youth, and for which this Ointment is u gently recommended as a sovereign remedy. In curing such poisonous sores it never fails to restore the system to a healthy state if the Pills be taken according to the printed instructions. Dipththeria, Ulcerated Sore Throat

and Scarlet and other Fevers. Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat, and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at part, whereas the Ointment will do its work at once. Whoever tries the unguent in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved as by a charm. All sufferers from these complaints should envelop the throat at bedtime in a large bread and water pouttice, after the Ointment has been well rubbed in; it will greatly assist the cure of the throat and chest. To allay the lever and lessen the inflammation, eight or ten Pills should be taken night and morning. The Ointment will prostice persoiration, the ing. The Cintment will produce perspiration, the grand essential in all cases of fevers, sore throats, or where there might be an oppression of the chest, either from asthma or other causes. Piles, Fistulas, Strictures.

Piles, Fistulus, Strictures.

The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for a considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. There again bread and water poutitices, after the rubbing in of the Ointment, will do great service. This is the only sure treatment for females, cases of cancer u the stomach, or where there may be a general boaring down. Indiscretions of Youth; - Sores and

Ulcers. Blotches, as also swellings, can, with certainty, he radically cured if the Olutment be used freely, and the Pills taken night and merning, as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this Olutment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time with the use of the Pilis to insure a lasting cure. Dropsical Swellings, Paralysis,

and Stiff Joints. Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such discusses, will yield in a comparatively short space of time when this Ointment is diligently rubbed into the parts affected, even after every other means have failed. In all scrious maladies the Pills should be taken according to the printed directions accompanying each box.
