JOHN VOGEL. Ebensburg, May 8, 1876.

THANKS "FROM THE DEPTHS OF THE HEART."-WELLINGTON, Lorain Co., O., Aug. 24, 1874.—Dr. R. V. PIERCE, Buffalo, N. Y.—Dear Sir: Your medicines, Golden Medical Discovery, Dr. Sage's Catarrh Remedy, have proved of the greatest service to me. Six months ago no one thought that I could possibly live long. 1 had a complication of diseases, -scrofula, manifesting itself in eruptions and great blotches on my head that made such sores that I could not have my hair combed without causing me much suffering; also causing swollen glands, tonsils enlarged, enlarged or "thick neck," and large and numerous boils. I also suffered from a terrible Chronic catarrh, and in fact I was so diseased that life was a burden to me. I had tried many doctors with no benefit. I finally procured one-half dozen bottles of your Golden Medical Discovery and one dozen Sage's Catarrh Remedy and the Discovery I began to improve, and when I had taken the remaining, I was well. In addition to the use of Discovery I applied a solution of Iodine to the Goitre or thick neck as you advise in pamphlet wrapping, and it entirely disappeared. Your Discovery is certainly the most wonderful blood medicine ever invented. I thank God and you, from the depths of my heart, for the great good it

has done me. Very gratefully, Mrs. L. Chaffee.

Most medicines which are advertised as blood purifiers and liver medicines contain either merenry, in some form, or potassium and iodine variously combined. All of these agents have strong tendency to break down the blood corpuscles, and debilitate and otherwise permanentiyinjure'the human system, and should therefore be discarded. Dr. Pierce's Golden Medical Discovery, on the other hand, being composed of the fluid extracts of native plants, barks and roots, will in no case produce injury, its effects being strengthening and curative only. Sarsaparilla, which used to enjoy quite a reputation as a blood purifier, is a remedy of thirty years ago, and may well give place, as it is doing, to the more positive and valuable vegetable alteratives which later medical investigation and discovery have brought to In Scrofula or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammation, Mercurial affections, Old Sores, Eruptions of the Skin and Sore Eyes as in all other blood diseases, Dr. Pierce's Golden Medical Discovery has snown its great remedial powers, curing the most obstinate and intractable cases. Sold by all dealers in medicines.

THE ALLEGED AUSTIN-PATTON HOMI-CIDE CASE.—A correspondent writes to the Altoona Mirror from Bell's Mills under date of May 8th to give what he alleges is a true account of the affray between Neal Patton and Peter Austin, an account of which and the subsequent death of Austin is published elsewhere in to-day's paper. Here is the story as told by the correspondent in ques-

Neal Patton is a policeman in the employ of the Bell's Gap Ruilroad Company. On Satur-day evening, April 15, he had charge of a train to Lloydsville to preserve order. Peter Austin and a man named M Cabe, both miners, boarded the train at Bell's Mills in an intexicated condition. They soon raised a disturbance with the conductor, when asked for their tickets, and Policeman Patton was called to quell the affair. During the melee some one bit Austin, and Patton was blamed for it. The fight then ceased until the train arrived at Lloydsville, when Austin cailed Patton all manner of hard names, but the latter paid no attention to his abuse and went home. On Sunday morning the drunk was continued, and, while the people were on their way to church. Austin insulted several persons, when Patton, in the discharge of his arrived stock of spring dress and dry goods at a bottom price, for either gold or green-backs.

duty, ordered him togohome. This so curaged Austin that he followed Patton everywhere and end-avored to raise a fight with him, in which, Patton bit him two or three moderate blows over the head inflicting what were subsequent-ly shown to be only scalp wounds. This had ran over him, killing him instantly. He was a resident of that place, and aged about 64 years. He leaves a wife and family.

—The entertainment given at the Court House on Friday evening last by Prof. John Hart, of Lancaster, was all that could have been expected from an elocutionist and dramatic reader who has few if any superiors in the prefession, and we are only sorry that many more of our people did not avail them selves of the opportunity thus afforded for enjoying a rich literary feast such as may not soon again be presented to them. The Professor has since then given eutertainments at St. Augustine, Chest Springs, and Carrolltown, Weshesday and Thursday evenings being spent at the latter place.

—Two tramps were liberated from a freight to do his duty, and a man who is slow to anger and quick to forgive. Such are the facts in the alleged Austin-Patton homicide case.

... ALLEGED HOMICIDE.-We clip from Friday's issue of the Johnstown Tribune the following facts, gleaned from the Altoona

The remains of a man named Peter Austin who resided until recently at Lloydsville, this county, were about being interred in Hollidaysburg, on Wednesday, when a rumor was started that the man had been murdered. District-Attorney Milliken found that there was sufficient The second distribution.

On Friday last a Johnstown lad, whose age does not exceed twelve years, appropriated \$37 belonging to his mother, and forming an alliance with a tramp named John Chambers, the two set their faces in the direction of the centennial, the latter in the meantime having appropriated the stolen funds, a portion of which he expended in buying the necessary railroad tickets, for himself and his youthful companion. A lattern of the arrest at the stolen how were secured the arrest at the report to justify him in holding an inquest; so he directed Justice Lect to summon quest; so he directed Justice Lect to summon a jury, and three physicians were also called in, to make a post-moriem examination of the hody. The evidence developed the following facts: On the latter in the wished Altoona. He left that city in the evening, being then very drunk. On the following day-Easter Sunday-be got in into a quarrel with Neal Patton-brother of Manus Patton, the man shot and killed by Constable Burns, at Gallitzin, some two or three years ago. From Words, they came to biows; and Neal Patton, himself and his youthful companion. A telegram, however, secured the arrest at Alicona of the tramp and his juvenile benefactor, the latter of whom was taken home next morning by his father, and the former, after being made to disgorge the unexpended money and the railroad tickets, was given one hour to shake the dust of the city from his feet and take his departure for other seenes.

—There is no moiety of truth whatever in the report that Mr. Simon Sultzbach departed for Philadelphia on Friday evening last. It is true, however, that he betook himself to the city on Monday of the pr sent week, and the content of the property of the killing of Austin.

for the killing of Austin. MONEY, AND MONEY'S WORTH .- If your health fails, you must make proper efforts to restore it, or content yourself to die before your time, or live a life of sickness and misery, a useless drone in the busy hive of There are few sicknesses, even of a of the discose, which has ne-division of the order also.

Communications.

DIFFICULTIES OF TEACHING. The Press, as every one knows, is a great and wide spread medium for the redress of grievances. It watts knowledge on its inky wings to every nook and corner of this broad land. The safeguard of liberty, it is the hope of the many, and where is the cottage that loves not its silent company? All sorts and conditions of men avail themselves of its communicating power, and why not, also, the country district chool trachers?
Acting on this suggestion, I begleave to pre-

sent in plain words a few of the more fre-quently recurring troubles, or sources of trouble, to which a common-school teacher is lable. In the first place, a teacher does not mode. In the first place, a teacher does not receive a pecunisty remuneration in proportion either to his ability, his knowledge of the branches taught, or his experience in teaching. Every other profession, trade or business is paid in proportion to the above qualifications, but teaching seems to be an exception to the general rule. eneral rule.

general rule.

If we call a minister of the gospel, we want a workman who is worthy. If we send for a doctor, we don't want a quack who will physic us without reason. When we put our cause in the hands of a lawyer, we seek one who has shown ability, knowledge and skill. If we want a surveyor to map out our farm, we send for one who can do it with knowledge and certainty. And so on down, with the architect, carpenter, smith, painter, and every other artisan, workman or !aborer.

For instance, if we want a house built, we don't want an apprentice to spoil the same;

For instance, if we want a house built, we don't want an apprentice to spoil the same; and who would trust his horse's hoof to the unskillful bungling of a novice? If we wish to get our house freshened up with a new coat of paint, we don't hire a young man to grease the premises, nor do we take our coat to one unlearned in the art of cutting cloth.

With all these examples before us, will any one tell us that an unqualified teacher is as good as an able one, or that he should receive the same salary?

Again, the district teacher is subjected to many petty annoyances through quarrels in

Again, the district feacher is subjected to many petty annoyances through quarrels in progress amongst the patrons of the school. He unwittingly gets on a friendly footing with one family and thereby draws down the ill-will of others on his devoted head. If he needs coal or kindling, then look out for wet wood and smushy coal. If the hostile family wield an influence over the directors, then the teacher's feet trembles in his situation.

The teacher is all in all with the friendly patron and nothing at all with the hostile one.

The one finds that the teacher don't make good fires in the morning, while the other lays it to bad kindling and smitshy coal.

One thinks that the school is not kept open the full time; the other thinks every clock in the neighborhood has a time of its own.

The next step is the political difficulties. Because a teacher can't be both a Democrat and a Republican at the same time, he don't suit all hands; but the commonest source of dis-turbance is hostility of some because they want a friend in to teach the school, who, they magine is a vastly superior person.

And, last but not least, religion is made a

cause of quarrei, as if the piace where you learn to "read, write and cipher" must need be a religious institution. Of course it must be religious in a general way, but it need not be seturian. It should be religious in the etymological meaning of the word—that is a scholar should be bound or field back from evit. As well might religion be made a part of blacksmithing, carpentry, etc., as to imagine that religio dogmas should be taught in a public school om where a few of the business arts and so nees are taught. Then, to sum up: In every other profession

or trade one is paid in proportion to his ability, knowledge and skill, while there is no distinction made amongst district teachers.

A teacher is buffeted about amongst the belligerent patrons, and all attempts to have a good school rendered futile by a want of units.

Some bear a grudge because a teacher is not of the same political persuasion with the selves, while others object because he do Now, all combined, these difficulties render a school term as near an approach to a term in the penitentiary as mything imaginable; and to crown it all. • me mes the directors stand aloft and view i. e "smoky battle" afar off. Well, as they used to say in the debating club, with these few remarks I will take my seat. PROVISIONAL TEACHER.

Chest Springs, April 26, 1876. CHEST SPRINGS, May 4, 1876. DEAR FREEMAN-I admire "Rob Roy" as a teacher, and also for his skill in selecting difficult problems; but when he comes to say that out of all the questions sent in by him, two only were correctly solved, I would merely answer, in the elegant language of the modern critics, "Puil down your vest!"

Now, it seems to my humble, unpracticed judgment, that it is vastly easy to sit in (all-fornia and dish out cut-and-dry problems to the Cambrians, but it is quite a different thing to answer those submitted by others. to answer those submitted by others.
Give every one of us puzziers a mathematical library to consult at pleasure and a complete set brary to consult at pleasure and a complete set of mathematical apparatus, and we might solve "Rob Roy's" questiens quite readily. The deficiency, you see, is not in the capacity but in the appliances. For instance, you might as well ask us to calculate, the time when Venus would next cross the sun's disc, without the necessary mathematical instruments.

Again, "Rob Roy" says he solved that fourth example arithmetically. Now, I don't like to contradict, but I imagine any school boy of a contradict, but I imagine any school boy of a certain class could tell him that he used an Al-gebraic process in the solution—the difference consisting in using capitals instead of small letters to represent the unknown quantities.

The answer, however, came a little too late, as I had sent it in two or three weeks before. but the printer jumbled the whole number fraction together into an undistinguishable com-pound; which leads us to incidentally remark

mistakes.
In closing, I will just say that I shall hold to
my solutions of "Rob Roy's" problem until they are procen incorrect, Yours. &c., A. D. H.
P. S. I wish "Rob Roy" were here to run
district institute. I would gladly attend.

that typographical errors are not mathematical

---AN OLD FIRM IN NEW QUARTERS .- The old and widely-known firm of England & Bindley, dealers in hardware, have just removed from their old stand, No. 263 Liberty street, Pittsburgh, to that fine, commodious building, No. 50 Seventh avenue, one and a half squares below the Union Depot, where they will be pleased to see their old friends and 'customers. The house of England & Bindley is one of the best in the city, keeps at all times an unusually large and varied stock, and is known throughout this section as one of the most substantial and reliable of any in the Iron City. Our readers will find it to their advantage to give them a call at their new location.

... A CARD, -To all who are suffering from the errors and indiscretions of youth, ner-yous weakness, early decay, loss of manhood, etc., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, Station D, Bible House, New York. [4-21.-6m.]

COAL AND LIME for sale in large (EO M. READE, Attorney-at-Law, or small quantities by Frenchurg, Pa. Office on Coarre street, laug. 37, 72.) [3-17.-2m.] Smithfield Si., Prissburg.

MARK THESE FACTS! THE TESTIMONY OF THE WHOLE WORLD. HOLLOWAY'S CINTHENT.

Bud Legs, Bud Breasts, Sores and Ulcers. ALL description of sores are remediable by the proper and diligent use of this inestimable proparation. To attempt to cure bad legs by plastering the edges of the would together is a folly; for should the skin unite, a boggy, diseased condition remains underneath to break out with tenfold fury in a few days. The only rational and successful treatment, as indicated by fature, is to reduce the inflammation in and about the wound and to soothe the neighboring parts by rubbing in plenty of the Ointment as salt is forced into meat. This Ill cause the malianant humors to be drained off om the hard, swellen, and discolored parts round about the wound, sore, or ulcer, and when these humors are removed, the wounds themselves will soon heal; warm bread and water positices ap-plied over the affected parts, after the Untment has been well rubbed in, will scothe and soften the same and greatly assist the cure. There is a description of ulcer, sore and swe ling, which heed not be named here, attendant upon the follow of youth, and for which this Clintment is uncertly recommended as a sovereign remedy. In curicg such poisonous seres it never falls to restore the system to a healthy state if the Pills be taken ac-

cording to the printed instructions. Dipththeria, Ulcerated Sore Throat and Scarlet and other Fevers. Any of the above diseases may be cured by well rubbing the Olntment three times a day into the chest, throat, and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at part, whereas the Unitment will do its work at once. Whoever tries the unguent in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved as by a charm. All sufferers from these complaints should envelop the throat at bedtime in a large bread and water pourities, after the Ointment has been well rubbed in; it will greatly assist the cure of the throat and chest. To allay the fever and lessen the inflammation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, the grand essential in all cases of fevers, sore throats. or where there might be an oppression of the chest, either from asthma or other causes.

Piles, Fistulas, Strictures. The above class of complaints will be removed

by nightly fomenting the paris with warm water, and then by most effectually rubbing in the Ointment. Persons suffering from these direful com-plaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for a considerable time two or three times a day, that it may be taken into the system, whence it will remore any hidden sore or wound as effectually as though palpable to the eye. There again bread and water poulties, after the rubbing in of the Olntuent, will do great service. This is the only sure trealment for females, cases of cancer in the stomach, or where there may be a general bearing

Ulcers.

Blotches, as also swellings, can, with certainty The property recently occupied by the "Ebensburg Mining and Manufacturing Co..." situate in Ebensburg.
