

SUPERIOR CEMENT FOR FINE GLASS. -For mending valuable glass objects which would be disfigured by common

French Garments. for spring and summer wear, constituing in part of

that in parts of China the same kein prevail about the swallow as in the land and Germany. But thereany other analogics between the Esta A crowing hen is an olial universal dislike in Brittsnuy, mili families in China will keep a com death or other calamity in Equand Germany, as it was in Green a cept at Athens) ; but in the Case Empire it presages death and a garded as the bird which calls in soul. And the crow also is in Car a bird of ill-omen. Is it not, that likely that these popular fancies birds and animals have begun in races of the globe and were sh quently adopted but never ergin by mythology? May it not be certain birds or animals became with inent in mythology because they already become prominent in trailing rather than that they became pro-nent in tradition because they pr ously had been prominent in myles gy. For instance, instead of this a dog's howling as a death ormal Aryan belief that the dog gailed soul from its earthly tenement a abode in heaven, may we not sil that the myth arose from an and existing omen, and that the arose, as omens still do, from a to cidence which suggested a connect subsequently sustained by super-observations? The St Swithinfah which arose within historical men and still holds its ground in maps scientific observation, well illess how one striking coincidence maj into a belief which no amount of a they had attained to any though different people, that the E qual its way everywhere, and will she ignorant babe to the land of sea POULTRY MANURE _Fifty forb make in the roosting house alone out per annum of the best mann more than enough manure for #1 manure being even richer then gut
