When the party had got fairly under way another party concluded it would be a good joke to follow them up and raise the jutes of a could of dams above where they proposed to do their gigging. So they started and were not long in putting their project in execution and the result was that a great body of water rushed down the stream, but sudsequent de-velopments proved that the gigging party had not gone to Blacklick at all, but had repaired to the Sugmethanna fiver, where eds really do or three ladders and several buckets of the Susquehanna river, where eels really do abound. IN MEMORIUM. In CARROLLTOWS, July, 17, 1873. DEAR FREEMAN-Since my last the harvest has set in here in real earnest and so far the weather has been very propinious. Thems of news are exceedingly scarce, and dull and money very scarce. The people are all looking forward, however, to the election of Tilden for a change for the betler. There was some talk of cutting the Democratic local in county nominations some time ago-in fact until very recently-but since the nomination for molexing of Ebensburg, and the supine James Curningham, of Carroll township, the nordlerth whangdoodle of said ring, the dissatisfied Dem-orerats and not a few leading Republicans, have denounced that ticket and says: "We'll all vote for Ryan, "We'll all vote for Ryan,

Even when the hour of her discolution was fast approaching she unce more expressed her deep gratitude to those who had assisted and nursed her through her long and painful illness. Her death was like a peaceful slumber. The corpse, shrouded in the habit of the order she loyed so well, and retaining and even sivilig back the blautiful features marred by her great sufferings, was haid out in the Sister's chapel, which was hand-somely and becomingly decorated. The coffin was of plain external appearance, in accordance with the regulations of the order. The funer-i services took place on Sunday morning at 10 with the regulations of the order. HON. JOHN REILLY .- None too highly has the Alteona Mirror complimented our attentive and obliging young Congressman, Hon. John Reilly, in the following well mer-ited tribute to his ability and gentlemanly

deportment, which we clip from Tuesday

The people of the Seventeenth Congressional District of Pennsylvania have reason to be proud of their Representative, Hon. John Rell-ly. Those of his constituents who have not had an opportunity of visiting Washington and had an opportunity of visiting washington and becoming familiar with the manner in which Mr. Reilly is fulfilling his duty, can have but a feint idea of his eminent usefulness, his unfit-ing energy, and his deserved popularity among his feilow members of all grades of pelitical opinion. Modest and unpretentious, he attends opinion. Modest and unpretentious, he attends to his work in Congress just as he attended to his old duties in Airoons, performing whatever is given him to do with all the energy and as-siduity he would bestow upon his own private business. No constituent calls upon him in vain, or meets with delay, but prompt attention is given to every legitimate demand, ao matter how humble the applicant or how insignificant the favor asked. He is, in a word, the people's representative, and his record during the pres-ent session of Congress is one that more prom-ition is meets with elevy did they not ent session of Congress is and that more prom-lacent members might well envy did they not appreciate the fact that he is traiy deserving. From all we can learn, Mr. Relly would pre-fer not to be a candidate again, but would rath-er return to his more congrenial purguit in rail-way affairs. He is none the less worthy of the highest estoem of all his constituents. Roughly

highest esteem of all his constituents, Republi-cans as we'l as Democrats, and we accord him our due proportion.

THE "HOUSEREEPER" OF OUR HEALTH. The liver is the great depurating or blood cleansing organ of the system. Set the great housekeeper of our health at work, and the foul corruptions which gender in the blood and rot out, as it were, the machinery of life are gradually expelled from the system.— For this purpose Dr. Pierce's Golden Medical Discovery, with small daily doses of Dr. Pierce's Pleasant Furgative Pellets are pre-eminently the articles needed. They cure every kind of humor from the worst scrofula to the common pimple, blotch or eruption. Great eating nicers kindly heat under their mighty curative influence. Virulent blood poisons that lurk in the system are by them robbed of their terrors, and by their perse-vering and somewhat protracted use the most triated system may be completely rep. FINANCIAL REPORT of BARR TOWNSHIP SCHOOL DISTRICT for the most tainted system may be completely ren-ovated and built up anew. Enlarged glands, year ending June, 1876: tumors and swellings dwindle away and disappear under the influence of these great resolvents. Sold by all dealers in medicines.

"Claude, a child about three years old, was greatly afflicted with sores on his legs and feet so that he could not wear his shoes and stock-ings. Had a great deal of trouble with him. Had tried many remedies ineffectually. At last we tried the Golden Medical Discovery, and in about three weeks he was entirely cured, his sores were all healed, and health much im-proved. Respectfully yours, J. W. BOYEN, "Vermillion, Edgar Co., Ill., Jan. 20th, 1875."

SAVING AND HAVING .--- If you husband cur health, it will last into a green old age; but if you waste it in idle pastimes, or what is worse, wicked prodigality, it will not last out half your days. There is no disease that is incurable if you go rightly about it. Chron-ic diseases require chronic remedies; and if you are not willing to take time to get well is next to impossible. Dr. KEYSER'S LUNG CURE, or pulmouary resolvent, will renovate and recreate the whole system ; it will restore the lost functions to pristine health, and enable the human body to live in quiet and peace. In early coughs it is a ally supposed to make two wolves, and yet, while there was one Wolff and another Wolff in our town on Wednesday last, we the tissues and re-establish health. There

By re. ference to our advertising columns, it will be found that the titles of these works are Industrial INSTITUTE, "The Science of Life, or Self-Preservation "Sexual Physiology of Woman and Her Diseases," and "Diseases of the Nerves and Nervons Maladies," the value of which is proven by the fact that a beautiful and costly Gold Medal has just been presented the anthor by the National Medical Association.
