-M. H. Dickenson, Francis Wells and Dr. Diller Luther, members of the Board of

Public Charities, are at present investigating the affairs of the Blair county almshouse, several complaints having recently been made to the Board in regard to the manner in which that institution is being conducted, financially as well as otherwise.

-The limited mail gave up the ghost on Saturday last, the railroad companies having declined to perform the dattes imposed upon them at the reduced rates which the cutting down of governmental expenses by the House at Washington have fixed for the service. The fast trains continue, however, as heretofore, the only lopping off being the white postal cars.

-Mrs. Edwards, wife of E. L. Edwards, of Johnstown, became impressed about two clock on Sunday morning last with the idea that there were burglars in the house and that the only way to escape robbery if not assassination was to jump out of a second story window, which she did in short order, falling a distance of about twelve feet and sustaining very severe injuries.

-That Siamese(ly) twin joke in Friday's Johnstown Tribune about our electrotype of Tilden and Hendricks is pretty good, but the ease that is not Siamese with which the aforesaid gentlemen are going to be elected in November next will be a joke that will make the Tribune and its political friends laugh a bitter laugh on the other side of their mouths. Stick a pin here.

-Mr. Jacob R. Stuil, a well known and much esteemed farmer residing to Adams township, had the misfertune to slip and fall a few days ago while in the act of getting down off a lead of hay in his barn, and the result was the fracturing of his right arm near the wrist and the injuring of his spine very severely-so much so indeed that his

condition is said to be rather critical.

-- Wm. Hubbard stole a fifty dollar watch and a valuable ring from Charles Fowler, in Hollidaysburg, the other day, and forthwith betook himself to other scenes. Presuming that the thief had gone to Johnstown, a description of him was sent to the authorities there, but so far as heard from he is still among the missing. Both the men were employed on the new Court House at Hol-

idaysburg.

Milliken has issued orders in this morning's issue, says the Pittsburgh to the Fifth Regiment to be in readiness to proceed to the Centennial on Wednesday of on the 16th of next month, and the exhibinext week. Before starting company commanders will see that their men are supplied with one day's cooked rations, which, with tin-cups, plates, species, knives, forks and company property, should be packed in boxes. The Cambria Guard, of this place, and the Jefferson Guard, of Wilmore, being

a portion of the Fifth Regiment, will be ready to move at the time indicated. -A laboring man named James Kehoe, a resident of Greensburg, was found dead in one of the rooms of the Miller House at that place between eleven and twelve o'clock on Thursday night last. He had worked hard during the greater part of the day, and indulged in a few drinks of whiskey in the evening, after which he complained of feeling unwell and was shown to a room, where was eventually found dead, as already stated. Over-exertion, the effect of the heat and intemperance are what the coroner's

jury say killed him. -The current number of the Johnstown Democrat contains the valedictory of Capt. H. D. Woodruff, senior editor of that paper, who retires from the firm and leaves the establishment in the hands of his son and junior partner, L. D. Woodruff, Esq. —That energetic and wide awake gentle-man, Harry Waye, of Johnstown, who only recently took the agency for the Champion Reaper and Mower, has disposed of quite a number of the machines in this county already, selling as high as six of them in one day. The Champion excels in every respect other machines in the market, and is strong and durable, being made of wrought fron, and will do more work on worse ground and in less time than any reaper and mower that has ever been invented. Mr. Isaac C. Boles, of Taylor township, says that he has used the Champion on as steep ground as there is in the county, and he is delighted with it. She was subsequently taken before Esquire Brady, where she demanded a jury trial, which was to have been accorded her yesterday afternoon, with what result we have not learned. The defendant gave bail for her appearance.

purchased. -A Chest Springs Republican who deals very heavily in politics went to Carrolitown last Sunday in the interest of Dr. Sloan, one of the Republican canidates for Assembly, but soon learned from an intelligent gentleman of his own political faith that there was no use in wasting his wind, as everybody in that region, without regard to politics, in-tended to vote for James J. Thomas, and that the Doctor's friends there and thereabouts could not be found even with the aid of the most penetrating of search warrants. On learning this our Republican friend with the Slonu easy gait tried a new tack by very complacently remarking that Jim Thomas and Dr. Sloan were not running for the same office, the former being out for the Legislature while the latter was a candidate for Assembly. The story was too thin to wash, however, and the discomitted politician was forced to abandon the field without having gathered any of the harvest. It is presumed, remarks the correspondent from whom we have the above facts, that Dr. Sloan has been hard at work ever since his nomination training this gentleman to "stump" the county, in which undertaking he seems to have succeeded very admirably.

THE EXPOSITION. - Its Prospects this Season.—The Pittsburgh Tradesmen's Industri-al Institute, as will be seen by advertisement tion promises to surpass not only that of last year, but anything of its character ever held west of the mountains. The buildings are being renovated and remodeled, and an extensive addition to be used as a Floral Hall is in course of erection, and the work is progressing rapidly. The applications for space by exhibitors are greater in variety-and in number than they were last season, and Pittsburgh will be more generally represented than it was last year. The addition of Floral Hall will give a large amount of additional space, which from present indica-tions will be needed, while it adds an at-tractive feature to the Exposition. The Art Gallery, which was so much admired last year, promises to be still more full and attractive than it was last year, and every branch of Pittsburgh industries will be fully represented. Exhibitors who have not yet applied for space should make their applications at once, so as to give time for a proper

arrangement of the hall. The managers are all working for the success of the exhibition and are aided in their efforts by all the leading merchants and manufacturers of the two cities, and where there is such general unity of action the enterprise caunot fail to be a success,

CARROLLTOWN, July 24, 1876.

DEAR FREEMAN—Last week the weather was in temperature akin to that land which lies beyond the river Styx. "where Pluto holds his dark and gloomy reign." This week, up to present writing, tis chiliv enough for autumn, that season when the "sere and yellow leaf," etc., abound and the festive squirrel cracks the rich brown nuts and sports among the naked branches of the forest trees: but such is the climate of our native heath, and as we are all prepared for it, being provided with overcoats and "sich" like, we can grin and bear it with fortitute and resignation, believing it to be a just punishment for the discontent expressed so often in glowing terms the great heat prevalling during the last two weeks or more. CARROLLTOWN, July 24, 1876.

THE WAR was born and spent some of his boyhood days here, but who for more than a quarter of a century have been living in the State of Indiana, were on a brief visit to their old home and received the congratulations of many old friends in and about Ebensburg during the past week. Neither of them are Beils who will ever toll for joy over the election of Tilden and Hendricks, both being strong Republicans, but they speak none the less in they know well and esteem highly for his great personal worth and well known ability.

—A fine horse belonging to Mr. Mathias Farabangh, of Munster township, was killed last Wednesday morning under rather singular circumstances. It seems that the animal was being worked with another horse by Mr. Joseph Noel, and while the team was descending a small aclivity near the Branch railroad with a load of grain, being at the upon the potato beetle and the cabbage worm

THE HARVEST.

is pretty well garnered, and a bountiful one it is. The wheat is "filled to the brim" and weight above the standard; hay is very good and has been well cured, having received no rain; the oats is ripening and corn is in tassel and silk; buckwheat looks well, and spring wheat and barley is first class. Indeed we may expect a bountiful crop of everything but cider and apple butter, the apple crop here being rather short. Cherries were very plentiful in this section during the season just closed.

POLITICAL.

The political pot has not commenced to "bile" very much in this section yet. We want Hon. John Reilly for Congress, every the here believing that he is the only available man that can run with success in this Congressional district. POLITICAL. Tom Davis stands among his constituents that

will be, as he expects, like unto "Tom, Tem, the tinker's son, Who stoln a pig and away he ren; The pig was eat and Tom was beat, And Thomas then had none."

And Thomas then had none."

The intelligent and gentlemanty Jas, J. Thomas, one of the Democratic candidates for Assembly, whose home, as you are aware, is in Carroll township, will have an unsurpassed vote in this section of the county, as he well deserves, having proved his admitted worth by the manner in which he has conducted himself among the people in all projects for the advancement and good of the community. He will be elected beyond a doubt and will be a credit to the position and to the county he will represent.

represent.

There is great enthusiasm displayed by all when the names of Sam'l J. Tilden and Thos. A. Hendricks are mentioned, every one feeling confident that they will be elected. The chair-tuen of the county committee should be on the dort and make it a point to disseminate all the Democratic political Jocuments he can among the people from now until the election. One and all must put forth an effort to deserve and command such a success as we have never be-fore seen. On the Republican side we see al-rendy the evidences of an active and combined system of exertion which can only be countersystem of exertion which can only be counteracted by an equivalent industry and zeal on our
part. State, county and local organization, the
dissemination of printed matter, and the strring appears of popular oratory. These are the
three main requisites which every individual
must feel it his personal duty to help supply to
the extent of his ability, then win we must.

THE TAX-LEECH—FREIGHT DISCRIMINATIONS—
PITTSBURGH FEMALE COLLEGE AND ITS BRILLIANT CAREER.

PITTSBURGH, July 22, 1876. CENTENNIAL HISTORY It solls faster than any other book over published. One Agent sold 61 copies in one day. Send for our extra terms to Agents. National Publishing Co., Philadelphia, Pa.

The most lively feature these "burning" days is the effort of the "dear people" to pay the city tax levy. Weet to the poor man who has a bit of a let on a new street! Perhaps the bardest of a lot on a new street! Perhaps the bardest part of the tax-leach is the necessity of paying the taxes at an early part of the levy-promising a slight reduction—or pay the addition of 10 per cent. as a penalty. This may be the best way—for the treasurer who pockets a good salary and fat fees—but people differ as to its justice or necessity.

Some of the moral (7) Sunday papers are trying to increase their circulation by direct attacks upon certain railroad officials, for drawbacks and "sich" like, as if they were regues of the highest type. We know some of these men are better in every sense than their assailants.

There seems to be a general helief in this community that the Pittsburgh Female College is one of the most worthy and best managed institutions in the country. The extensive patronage from abroad as well as local attests this fact. It all goes to show that the high standard required for gradiation, elegant buildings and superior equipments have had something to do with its high mame. The facts in licate this. During the year, notwithstanding the hard times, the attendance was 273. The aggregate increase by terms over the previous year was 122 more. The same was true of the Conservatory of Music, there being 232 pupils in attendance. Commencement week throughout was a grand success. Four days were given to the examinations of classes, which were conducted grand success. Four days were given to the examinations of classes, which were conducted in the most rigid and exhaustive manner. The Senior class was put through a severe ordeal for two days, and the Mathematical class occupied a full day, both examinations being conducted by teachers outside of the College. The same was true of the Latin class. Miss Poppins secured the "Mrs. Bishop Simpson" mathematical prize, and the Latin prize was awarded to Miss Kate Strasser. The evening entertainments were seasons of much pleasure to the brilliant audiences. The annual musical contest for the "McKee" gold medal was sharply conducted and the music critics who acted as conducted and the music critics who acted as judges awarded the prize to Miss Fannie Houser, of Cadiz, O. The annual reading contest also attracted much attention, and the "Mrs. Margaret Davidson" prize was awarded to Miss Hattle Hong. The last of the series was the performance of the nine graduates. It was a brilliant affair and reflected much condition the performance of the nine graduates. It was a brilliant affair and reflected much credit on the young ladies. Dr. A. Wheeler, of the Pitts-burgh Advecte, made some excellent remarks to the graduates.

The Baccalaurate discourse by Rev. C. W. Smith, A. M., on Sunday, was a fine affair and re flected much credit upon this young and tel-

We notice the College buildings—always in mice condition—are being reflited and beautified. Cozy as the room and table comforts were before, we expect the pupils entering it the new College year, Sept. 7th, will find them very delightful indeed.

Praising this College is really praise to the President, Rev. I. C. Pershing, D. D., the able educator and executive, who is second to none in this broad land.

THE AMERICAN PEOPLE. - No people in the world suffer as much with Dyspepsia as Americans. Although years of experience in medicine had failed to accomplish a certain and sure remedy for this disease and its effects, such as Sour Stomach, Heartburn, Water-brash Sick Headache Costiveness, palpitation of the Heart, Liver Complaint, coming up of the food, low spirits, general debility, etc., yet since the introduc tion of GREEN'S AUGUST FLOWER We believe there is no case of Dyspepsia that cannot be immediately relieved. 30,000 dozen sold last year without one case of failure reported. Go to your Druggists, Letumon & Murray, Ebensburg, or P. M. Wolesiagle & Son, Wilmore, and get a Sample Bottle for 10 cents and try it. Two doses will relieve you. Regular size 75 cents.
