Myers, of that place, was on Tuesday last taken before Esq. Kinkead on a writ of habeas corpus and released on \$800 bail, his loving but grief-stricken mother going his security. Whisky is evidently Peter's greatest weakness, and although young, intelligent and altogether prepossessing in his personal appearance, he must learn to shun the flowing bowl if he wants to avoid future trouble and keep out of jail.

-Thomas Hughes, one of the young men charged on oath of Mary Risinger with ontraging her person, as noticed elsewhere, was arrested in Cambria borough on Tuesday afternoon and confronted with the supposed victim of his lust, but the failed to recognized him as one of her assailants, and he was consequently discharged form custody. It is new believed that John Hayes and a young man named Nighingale are the guilty parties, but neither of them have as yet been arrested, though we presume every possible effort is being made to capture them.

-Mr. David Ginter, of Alexandria, Huntingdon county, appeared upon the Pa, R. There is a clock at the Centennial exposition which, it is said, needs winding only once in a century, and which tells the mouth of the year, the day of the month, the day of the week, the hour of the day, the minute of the hour, and the second of the minute; and yet, with all its accomplishments, it cannot tell what everybody here knows to be a fact, that Myers & Lloyd keep as good goods and as many of them in all departments as any dealer in the business, and that they sell fully as cheap if not a little cheaper than like articles can be bought elsewhere or anywhere else.

-A youthful socker after knowledge, having read in the book of Genesis that "the sons of men multiplied apon the face of the earth," surprised his father by enquiring whether people did sums on the ground in these days. Of course his worthy progenitor explained the matter to him, but as a reward for his thoughtfulness in asking the question he should have taken him to Jas. J. Murphy's Star Clothing Hall, 199 Clinton street, Johnstown, and rigged him out in a splinter new suit of seasonable clothing, in the sale of which ample justice in goods and prices is done to all who favor Mr. M. with

-In view of the fact that the Pa. R. R. Co. proposes to carry excursion parties con-sisting of one hundred or more persons to and from the Centennial at greatly reduced rates, a paper is being circulated for signatures in Johnstown which provides for the depositing at the banking house of John Didert & Co., onor before Aug. 10th, by each one signing his or her name to the paper, of the sum of \$7.25 for each and every whole ticket they may wish to use, the party to leave Johnstown on the Philadelphia Express on Monday evening, August 14th. The idea is a good one, and we see no reason why it should not be acted on in Ebensburg as well as Johnstown. Who will move in

Thursday night they captured and killed two logs belonging to Mr. Oliver Haggerty, Friday night they made way with a cow owned by that gentleman in like manner, and Saturday morning they stopped a farmer on his way to market and rifled his wagon of everything eatable, meantime threatening to shoot the terrified man if he made any noise. Saturday afternoon the police and a number of citizens of Altoona went to the grove to clean out the maraders, but after a thorough search they only succeeded in capturing two of the fraternity, but had the satisfaction of seeing thirteen others making tracks eastward along the railroad on a

The prisoner, whose age is about 29 years, is of stout build, medium height, and rather forbidding aspect. He is apparently very ignorant, and, if guilty of throwing the fatal stone, as alleged, may possibly have been the tool of the other parties charged with the crime. He admits that he was with the Leonards on the night of the murder but deules that he aided in the bloody work. In securing his arrest, which really took place in Fayette county, a few miles from Noblestown, Allegheny county, Sheriff Baumer had the assistance of Detective Seth Wilmot, who greatly aided him in working up the case, but to the Sheriff himself is principally

due the credit of bringing about his capture. -A fifteen year old girl named Mary in Emerlinge, of the Wilkinsburg Risinger appeared before Justice Brady, of dits they say the Wilkinsburg Johnstown, on Monday evening last, and detailed the particulars of a heinous outrage help y "fearful the way Con- which she declared had been perpetrated upon her person on Sunday afternoon by two young fiends in human shape, who followed and overtook her in the vicinity of Dornock who waited on the table went Point while she was on her way to visit a sister residing at Sang Hellow, and who, she alleged, forced her to go with them down a last by the contractors steep embankment on the north side of the horities each agreeing to road, where each in turn held his hand over become becessary for uncover- her mouth to stifle her outcries while the other committed the heilish act. ing) organ of the system, and has very appropriately been termed the "housekeeper" of our health. I have observed in the dissecting-room, and also in making post-mortem examinations of the bodies of those who have died of different diseases, that in a large proportion of cases, the liver has given evi dence of having at some time been diseased. Liver affections are equally prevalent in beasts. Every butcher knows that the livers of cattle, sheep, and swine, are ten times as frequently diseased as any other organ. A healthy liver each day secretes about two and a half pounds of bile. When it becomes torpid, congested, or if, from any cause, it be disabled in the performance of its duties, it is evident that the elements of the bile must remain in the blood, thus irritating, poisoning, and perverting, every vital process. Nature attempts to rid the system of these noxious materials by means of other cemetery at Summitville yesterday forenoon. Oblinary next week.

The stomach and bowels, sooner or later, become affected, and constipation, piles, dropsy, dyspepsia, or diarrheea, is the inevitable result.

SYMPTOMS OF LIVER COMPLAINT. A sallow color of the skin, or yellowish brown spots on the face and other parts of the body; dullness and drowsiness, with frequent headache; dizziness, bitter or bad taste in the mouth, dryness of the throat, and internal heat; palpitation of the heart, a dry, teasing cough, sore throat, unsteady appetite, sour stomach, raising of the food. and a choking sensation in the throat; sickness and vomiting, distress, heaviness, and a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; colic pains and soreness through the bowels: constipation, alternating with diarrhosa piles, flatulence, pervousness, coldness of the extremities, rush of blood to the head, with symptoms of apoplexy; numbness of the limbs (especially at night), and chills, al-ternating with hot flashes; kidney and other urinary difficulties, dullness, low spirits, and gloomy forebodings. Only a few of these symptoms will be likely to be present in any case at one time.

TREATMENT.—Take Dr. Pierce's Golden Medical Discovery, with small doses of his Pleasant Purpative Pellets, which act as an atterative on the liver. For Liver Complaint and the various affections caused by a diseased liver, these remedies are unsurpassed. The Golden Medical Discovery does not simply publiste the disease, but it produces a lasting effect. By its use, the liver and stomach are changed to an active healthy state, the appellie is regulated. active healthy state, the appetite is regulated, the blood purified and enriched, and the entire system renovated and restored to health.

SAD DEATH FROM AN OVERDOSE OF MORPHIA.—It is our painful duty this week to chronicle the death under very lamentable circumstances of our worthy young friend and townsman, Mr. Simon Sultzbach, manufacturer and dealer in cigars, etc., which occurred at a quarter past seven o' clock on Wednesday evening last. Mr. S., in company with a couple of young friends, paid a visit to Loretto on Monday afternoon, where he had an attack of fits, to which he was said to be subject on certain occasions but returned home in the evening apparently not much the worse for the ordeal through which he had passed. Previous to going to bed, however, he was known to be suffering a great deal with neuralgia, and, as was his habit, took a dose of morphia for the apparent purpose of alleviating the pain, but either through mistake or with a full knowledge of what he was doing, swallowed an inordinate quantity of the anaesthetic. Soon after this he retired to bed, and nothing more was thought of the matter until about neon the next day, when the fact that he had not yet left his bed attracted the attention of the lady of the house at which he was lodging, and she sent her little son to awaken him. The lad did not succeed in arousing him, however, and so reported to his mother, who was not long in discovering that the apparent sleeper was in an unconscious condition. The alarm was given forthwith, and ere long Drs. Plank and Evans were summoned, but it was then found too late to afford bim any relief. Dr. John Lowman, of Johnstown, was also telegraphed to on Wednesday, but he only arrived, by private conveyance from Cresson, a half hour or so before death ensued, and of course could do nothing for the stricken man. From the time his condition was first discovered until he breathed his last, he did not utter a word and was seemingly unconscious of anybody or anything about him, though his writhings and mounings indicated very plainly that he was suffering great pain, which continued with more or less intensity until death put an end to his struggles. His relatives in Philadelphia were informed by telegraph of his condition as soon as it was ascertained that there was little or no hope for his recovery, and two of his brothers arrived here on Wednesday night's train, only to find poor Simon a corpse.

Even apart from the distressing circumstauces which marked the closing scenes in the life of our young friend, there are few if any in this community whose death would excite more sincere or widespread sorrow than less the early demise of Mr. Sultzbach. Genial and generous in his nature, with a pleasant word and a kind deed for everyhody, he was a universal favorite wherever known, his cheery voice and ready wit ensuring him a cordial welcome in all circles and among all classes of our people; and now that he has been called from time to eternity we feel sure that his memory will long be cherished by a host of warm friends who knew him but to love him and named him but to praise. His remains were last night taken to Philadelphia for interment. We did not learn his age, but presume it was about 28 years. Peace to his ashes.

-Mrs. Lantz and her daughter Alice, of Itoona, were last week convicted in the Blair county court of selling liquor without license and selling liquor on Sunday, and were jointly sentenced to pay a fine of \$800 —\$400 on each count—and the costs of prosecution, in default of which they are to remain in jail for a term of six months. T. J. Williams, an Altoona tax collector, found guilty of embezzling funds belonging to the county, was sentenced to pay a fine of \$4,500 and the costs of prosecution, and to undergo an imprisonment of one year, less one day, in the county prison. James Bigley, an Altoona incorrigible, was sent to the peni-tentiary for two years because he assumed the role of a burglar, and George Driver and Jesse Bartley, convicted of larceny, were assigned quarters in the county jail and House of Refuge respectively, the former for nine months and the latter until he attains his majority, all three in addition being required to pay a fine of \$10 each and costs of prosecution. For assault and battery Emanuel Green was fined \$20 and costs and sent to jail for three months, where he had already been for six mouths awaiting trial, and Peter De Rush was fined \$10 and costs. Chas. Kromer, who plead guitty to the charge of selling liquor without license, was sentenced to pay \$200 and costs or go to jail for three months, and Flem. Tront and Geo. Ankenbauer, found guilty of the same offence, were dealt with in like manner.

-At Archibald Hutchison's barn, in to dispense with so day, but every effort is being made to secure harness was stripped from the lead horse and an and in the gathering of their their capture, which no doubt will soon be jarked out of the driver's hands, leaving him however, totally unbarmed.

A WONDERFUL ESTABLISHMENT. -One of the sights afforded by our city at the present time, which no one visiting the Centennial should fail to see, is Wanamaker's Mammoth Clothing Depot, Thirteenth and Mar-

on one floor, and containing on its hundreds it without; when this is not convenient, try and Shoes, Hats and Caps, and Men's Fur-nishing Goods valued at over one million of dollars. Some idea of the extent of business done at this giant establishment may be gathered from the fact that nearly two thousand hands are employed in the different de-partments—of these five hundred being always in the store engaged in the capacity of clerks, salesmen, cutters, sewers, etc., etc. The business is all done on one floor, and is carried on in all its branches with the most perfect system. Everything works as smoothly as clockwork, for the simple reason that every employee in the mannfacturing department has his specific work to perform, and a particular place to per-form it in, while the clerks and salesmen are under strict discipline from the time they begin work in the morning until they

leave their posts in the evening.

Visitors to this mammoth house are alcourtesy and attention, whether they pur- breath. chase or not. The different stages in the manufacture of clothing, from the reception of the fabrics in the piece, direct from the mills, down to the folding of the ready-made garments for exhibition on the counter, may seen here to the best advantage, while the wonderful steam cutting-machines and other improved labor-saving appliances used in the tailoring business are constantly in

The proprietor, Mr. John Wanamaker, is also the senior member of the firm of Wanamaker & Brown, of the celebrated Oak Hall Clothing Store, Sixth and Market sts., and of the house of John Wanamaker & Co., 818 and 820 Chestuat street, this city. These two establishments employ over a thousand

hands, and do an immense business. Mr. Wanamaker began business in 1861 with Mr. Brown, under the now famous firm name of Wanamaker & Brown. The business relation continued until Brown's death in 1868, when the entire bus iness passed into Mr. Wanamaker's hands, and has since been carried on under his personal supervision with a degree of enterprise and success that has not only made his name a synonym of American goaleaditiveness, but has enabled him to build up a princely private fortune. - Catholic Standard, July 29, 1876.

EVERY YOUNG MAN should procure a copy of the medical work entitled "The Science of Life, or Self-Preservation," published by the famous "Peabody Institute," Boston. This book will teach the young how to avoid dangerous diseases, and from it the middle-aged and those more advanced in life may attain to a restoration of a prostrated system to active health. It is the resuit of deep study and most extensive medi-cal practice, and may be relied upon. The extremely valuable and interesting book ontitled "Sexual Physiology of Woman and Her Diseases" is also published by the Institute. Also, "Diseases of the Nerves and Nervous Maladies," is another work published by the Institute, an exhaustive treatise on these subjects. By referring to the Advertisement in another column it will be adjoining lands of Mishael Smith, Patrick Ray, seen that the author of these important and others, containing I Acres and 31 Perches. works has recently been presented with a Gold Medal by the National Medical Association. CARROLLTOWN, Aug. 2, 1878. DEAR FREEMAN—Accidents will happen in the test regulated families, and every one should be supplied with an antidote. We are vise your renders not to invest in the accident business, as it is not a healthy recreation. Accidents are not particular where they light, and sometimes they are lighter and at other times they are not. But to begin: IN WHITE TOWNSHIP.

one day last week, Mr. Simon Noel was "spudding" spruce logs, that is peeling the bark, while some of his fellow workmen was felling a tree near by. They announced to Simon that he had better get out of the way, as the tree might fall on his; all which he proceeded to do with the utmost activity, and had reached a log, on which he climbed, when the tree fell across the end of the log furthest from him, thereby causing the log to tilt up and heave 8'-mon in the air to the height of several feet. He came down, of course, but then his posterior came in contact with a large stone and his shoulder struck the sawed end of another log, injuring him quite severly. At last accounts shoulder struck the sawed end of another log, injuring him quite severly. At last accounts he was recovering slowly.

In Carroll township, the other day, a son of Mr. John Miller, aged about 10 years, was precipitated from a wagon load of hay and had one of his thighs tractured. Drs. Buck and Wesner are attending him.

Cherry Pectoral, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Ayer's

Among the great science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does

control them. The testimony of our best citi-gens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organa yield to its power; and cases of Consump-tion, cured by this preparation, are public-ly known, so remarkable as hardly to be beleved, were they not proven beyond dispute.

As a remar'y it is adequate, on which the public may recommend in the public may recommend in the public may recommend by curing Coughs, the force muers of more serious disease, saves unnumbered lives, and an amount of suffering not to computed. It challenges trial, and convinces we most scoptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It ack speedily and surely against ordinary colds, securing sound and nealth-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily

Originally the product of long, laborious, and accessful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as powersing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.
