SPEAKER KERR is lying at the point of death at Rock Alum Springs, Va., and no hope whatever is entertained for his recovery.

REFERRING to the declaration of Bedford county in favor of the renomination of Hon. John Reilly for Congress, the Phila. Times says that that gentleman carried this "strong Republican district by over a thousand majority two years ago, and can do it again or scratch closer to it in the fact of a Presidential election than any other man" that could be named.

Indiana county, remarks the Phila, Times, is still in a tangle on the Republican nomination for Senator, and Dr. St. Clair, of that county, and Dr. McKnight, of Jefferson, both stick obstinately. General White's Congressional candidacy is probably the real "nigger in the wood pile," and that's an unmanageable sort of an Ethiopian. It is a fight between saw-bones, and as Dr. St. Clair has tasted blood in the Senate he won't surrender worth a cent.

The Pittsburgh Post is informed that ex-Gov. Wm. Allen, of Ohio, will support Tilden and Hendricks, all stories to the contrary not withstanding, but that there is only one contingency that will call him to the stump, and that is the appearance of and who never yet spared either himself or ical reform. Morton in Ohio during the campaign. H his money for the success of any cause he presses a lively desire to get after him, and if he does there won't be much of the bloody shirt left.

The Cincinnati Catholic Telegraph of Thursday last contains an article from Archbishop Purcell, addressed to the two ple of the United States, relative to the attitude of the Catholic Church toward the public school system. He declares that the Church has no disposition to interfere with the system, and says: "No doubt justice and equality would entitle the Catholic people of this country to exemption from taxation for the support of other schools, or to a share of the public school funds in proportion to the number of pupils in the schools, but ever this we are disposed to waive in your favor."

The Democrats of Bedford county held their convention on Tuesday last and declared in favor of Hon. John Reilly for a second term in Congress. They also nominated C. N. Hickok for the State Senate and W. P. Schell and Geo. H. Sprang for Assembly, besides selecting a full county ticket. So the good work for honesty, retrenchment and reform goes bravely on, and if Mr. Reilly does not submit to the great pressure which is being brought to bear upon him it will be because he has cogent reasons of a personal character which all sensible men must accept as good and sufficient, and not because the people are not fully determined to renominate and re-elect him if he only permits them to do

With a keen and penetrating sense of a few troops from the South to fight Sitting the great necessities that arise in the cul- Bull, mination of great events, Col. McClare, of the Phila. Times, says that ofter a Republican Kilkenny cat fight in Huntingdon for many years, it is proposed to settle it now by taking Mr. Durborrow, of the Journal, and Mr. Guss, of the Globe, the two hostile war chiefs, and nominating them both for the Legislature. Whether so much combustion could be crowded into one organization without blowing everything into smithereens is a problem that only a trial could solve; but Huntingdon must always have its political sensations, and they might try splicing the tails of Durborrow and Guss together by way of varying the performance for one campaign. If the venture doesn't pay, they will have the consolation of knowing that they had the liveliest show of the season.

---THE resolution of Hon. Scott Lord, published elsewhere, is timely and to the point. The Democratic party, no less than the Republican, condemus all attempts to repress any right of the citizen, and will, whenever and wherever it has the power, fully enforce the Fifteenth Amendment. That amendment is a part of the Constitution, which is the fundamental law .--Therefore it says, by this resolution, the negro in the South shall be protected in all his rights of citizenship, as well from the negro as from the white man. OUR INDUSTRIES.

With the industries of the people there have been frequent interferences. Our platform truly says that many industries have been impoverished to subsidize a few. Our commerce has been degraded to an inferior position on the high seas; manufactures have been diminished; agriculture has been embarrassed, and the distress of evidence, was recommended to the mercy the industrial classes demands that these things shall be reformed.

The burdens of the people must also be lightened by a great change in our system of public expenses. The profligate expenditures which increased taxation from tive dollars per capita in 1860 to eighteen dollars in 1870 tells its own story of our need of fiscal reform.

In the reform of our civil service, I most heartily indorse that section of the platform which declares that the civil service ought not to be "subject to change at every election," and that it not to be made "the brief reward of party zeal," but ought to be awarded for proved competency and held for fidelity in the public employ." I hope never again to see the cruel and remorseless proscription for political opinions which has disgraced the administration of the last eight years. Bad as the civil service now is, as all know, it has some men of tried integrity and proved ability. Such men, and such men only, should be retained in office; but no man should be retained on any consideration who has prostituted his office to the purposes of partisan intimidation or compulsion, or who has furnished money to corrupt the elections. This is done and has been done in almost every country of the land. It is a blight upon the morals of the country, and ought to be

> THE MOLLIES DOOMED .- Another Break in the Ranks. - At Pottsville, on Thursday iast, there was a great sensation in the Mollie Maguire trial. At 2 o'clock Frank Melingh, a tool of the conspirators in the Mollie Magnire outrages, was taken from the prisoners' dock and placed upon the witness stand to corroborate the evidence of James McParlen, the detective. There was a perceptible shudder among his fellow-conspirators when McHugh kissed the Book after the clerk of the court had repeated to him the solemn injunction that he was to tell "the truth, the whole truth and nothing but the truth." Women especially, who had hitherto shown more stoicism than the male conspirators, evinced the deepest solicitude. They bent forward their heads upon their bands and for the first time showed tears in their eyes. The gang in the dock trembled and Jack Kehoe turned paler than he ever did. Frank Meilugh belongs to Mahanoy City, and was secretary of the division of the Mollies at that place. He has always been a wild young fellow, and is the only one of the prisoners at present on trial who has been out on bail. McHugh corroborated the evidence of McParlen in almost every particular, and is a first-class witness for the state. When asked if he thought he would escape punishment by going on the stand, he answered : "I think that I will not receive as much, and I concluded that it was better to go on the stand than to make a defense, and it would be better for the rest to plead guilty now than to wait." He fully confirmed the meeting in September, 1874, when it was determined to shoot the two Major brothers and Thomas, otherwise known as "Bully Bill," and strongly implicated Kehoe. The next sensation was created by George Beyerle, the warden of the Schnylkill county jail, who testified that Kelioc, one of the principal defendants, asked him how the trial of the Yost murderers would go, and "I told him pret-ty rough." Kehoe, said, "I think it will go rough with us all, for I'm afraid that we won't get justice; but if we don't get justice here, the old man at Harrisburg won't go back on us." And I think he said. "Let them crack their whips, for the old man at Harrisburg won't, or daren't, go back on us." Judge Ryan wanted to have the evidence stricken out, but as it was only offered in relation to the case of Kehoe, the court refused to do so at pres
