TILDEN, HENDRICKS, AND THE COUNTY TICKET!

The Annual Democratic County Meeting for Cambria will be held at the COURT HOUSE, Ebensburg, on MONDAY EVENING, SEPT. 4th. Adult speakers will be present. The people of all parties who desire a change in the administration of the Government and wish reform therein are requested to be in attendance and to vote for the ticket.

The Republicans of Cambria county have always been very unfortunate. They have not for many years secured the election of a single candidate except one man for Assembly, which cost the Republicans and Democrats \$171,000 exactly, as the books of the late banking house of Lloyd & Co., in this place, fully attest.

But the decided success of the Democracy by large and increasing majorities is due to something more than the admitted purity of our people. George T. Swank, the immaculate editor of the Johnstown Tribune, has contributed no little to our success in the past.

Our friends and patrons have on several occasions chided us for not adopting the advice of Washington to Gen. Braddock on the eve of the fatal Braddock's field disaster, to "fight the enemy in his own way." Our known aversion to personal warfare has hitherto kept us aloof from replying to assaults on our best citizens; and this has perhaps encouraged the idea that any falsehood against our people could be made with impunity.

Next week we will endeavor to get at the bottom facts in regard to this pipe line movement, and in the meantime it will be well enough for those who own the land through which it is proposed to pass to make sure that the enterprise will prove a blessing and not a curse to themselves and the public at large before they confer the right of way or grant any special privileges to the Company in question. Wait, say we—sign nothing until fully convinced that it is all right.

EX GOVERNOR MORGAN the present Republican candidate for Governor of New York, did nothing to suppress the Canal jobs when he occupied the gubernatorial chair on former occasions, and for this service to the ring, William B. Woodin, one of the jobbers, presented his name to the Republican convention for their support.

True to his nature, true to his instincts, and true to the misfortune of an early mispent life, he hates every man and every woman with a bitter and unholly hate. He hates the world, and the world even with him, because the world hates him. He is unhealthy and miserably morally and physically. He cannot stand in the presence of any one for five minutes at a time without an involuntary twitching of his lower extremities. In short, without anything to love worthy of love, he has devoted his miserable life to the demon of hate!

Of course such a man, and a paper edited by such a man, could not succeed without extraneous help from some source. Knowing this full well, Swank got himself appointed clerk of the District Court; but when an election for the office became necessary, not daring to go before the Republicans of his own neighborhood, he was forced to retire and make room for a better man. But his venal paper had to be supported for all that, and nothing was left within his reach but the Johnstown post-office. True, Mr. Gettys, the then able and competent post-master, stood in his way. He was a man without bluish and had left a leg on one of the Southern battle-fields for the Union cause. But he must be removed or the Tribune must die. So Geo. T. Swank robbed him of his place, and is now enabled by the taxes paid by the people at large to abuse men who are infinitely his superiors in every sense of the word.

It is well enough to know, however, that this creature is merely the poor, miserable tool of one man in Johnstown and another man in Ebensburg. They both despise him, but he answers their present purposes, and when they are done using him they

FACTS AND FIGURES FOR WORKING PEOPLE TO CONSIDER.

It is the custom for Oriental monarchs on their accession to the sovereignty to distribute lavish gifts among their peoples. This year the Republican officials estimated that the amount of money needed to carry on the Government for the year would be \$203,000,000 48.

The Democratic House was inclined to allow for this purpose \$138,752,940 42. The Republican Senate demanded \$158,200,598 63. Believing that the sorely burdened taxpayers would prefer half a loaf to no bread, the Democratic House yielded so far as to let the appropriations be \$147,718,074 05.

This year 1876 they had been \$177,663,327 72. This array of figures has little significance or interest for the average reader; therefore the World will present them in another shape.

Taking the population of the United States to be 42,000,000 souls, we find that in 1876 each person in the country had to pay to support the Government, not including interest or redemption of the debt.....\$4 23 If Belknap, Chandler and a Democratic had their way, each person would have been taxed to carry on the Government in 1877.....4 88 1/2 If the Democratic had had their way, the cost per head would have been reduced to.....3 32 1/2

Belknap and Robeson's plan in the Senate was to reduce the tax by letting off the people too easy—let's make each one pay.....3 77 And the House was compelled, unless it desired to be accused of blocking the wheels of legislation, finally to agree to levy a tax per capita of.....3 51 1/2 Now, if we take the average laborer, who has a family of five, comprising himself, his wife and three children, it is apparent that the Republican Administration had its way he would have had to pay into the National Treasury \$24 1/2, which, assuming his wages to be \$1.50 a day, represents about sixteen days of hard labor.

Had the Democratic House been able to command, as it will next year, the co-operation of the Republican Senate, the share of the national taxation would have been \$16.63, or eleven and a half days' labor.

Even with all the drawbacks we have enumerated, the burden on the laborer's family has been reduced this year from \$21.15 to \$15.74, or \$5.41. This amount may seem small, but it represents the labor of twenty-four working hours. To a million families the apparent trifling sum of \$3.50 in cash means how much comfort for the sick, what shoes and clothing for the children, how much meat and potatoes for all!

Let the laborer who, meanly clad and poorly fed, digs in the sewers, or delves in the coal mines, or works upon the railroad tracks; let the clerk who toils for sixteen hours a day at a salary of \$3 a week; let the artisan who finds no employment for eight months in the year; let the farmer who puts his life into the stubborn soil and does not bring therefrom a living—let the people ponder on this!

A Democratic Administration means more money in the pockets, warmer clothes for the back; better food for the belly; shoes for the baby; a new dress for the wife; less work for the husband. And the Republican Administration means more taxation per head in 1877 than has been increased over that for 1876 by the sum of 60 cents, or 14 1/2 per cent.

Therefore, elect Hayes and this is what the head of the family of five will have to pay, or each year of his administration. The Republican expenditures for 1876 were \$21.15. For 1877 it was placed at \$24.17. With Hayes and a Republican Congress it will, therefore, be: For 1878.....\$27.68 For 1879.....31.97 For 1880.....36.26 For 1881.....41.54 Total.....\$137.50

On the other hand, take the Democratic estimate for four years, even if it is not further reduced, and it foots up \$66.65. Let us hear, then, the conclusion of the whole matter. Despite all laws and enactments against bribery of voters, we say to every head of the family: Vote the Democratic ticket, and we will pay you directly in four years \$70.55. How many days' work is that? How many pairs of shoes? How many yards of calico and flannel? How many pounds of meat and boxes of bread?

But about the figures we give to-day there can be no question. They show what the Republicans wanted to do, what we would have done, what we have done in the face of opposition. This is a "campaign supplement" that tells. Let Democratic papers and speakers circulate it; give it to your neighbors; give it to the farmer, and when next November comes Mr. Hayes, figure-head of blather, bribery and bayonet-rule, will not have the odd 69 votes in the Electoral College.—N. Y. World.

AN OPEN LETTER TO GOV. HAYES.—GRAND HOTEL, NEWPORT, R. I., Aug. 23, 1876.—Dearest Sir: I have just finished a mounted reminiscence of six New England States, and feeling that any reliable information concerning them will greatly interest you, I enclose herewith those two busy B's—Blaine and Brewster—and you in propria persona (a little Spanish Latin I picked up in Chili).

WHAT TILDEN HAS DONE—LET HAYES SHOW SOMETHING TO MATCH IT.—When Tilden was installed Governor of New York he set about showing his Democratic faith by his works. He reformed the management of the canals so that, while for the previous ten years the canals had cost the taxpayers over two and a half millions annually on an average, in 1876 the tax is nothing, while the canals were never kept in better order. He reduced the State tax about one-half the amount of the years under the Republican Dix administration.
