-- We interviewed Mr. Godfrey Wolff, of Altoona, a few days ago, on the subject of business, and learned to our surprise that he is not only doing a fair share of trade, but that his average daily sales seldom fall bedollars. This is an evidence, we take it, that people know when to buy good clothing at a great saving in the matter of price, should be an encouragement to others to go there and do likewise. Mr. Welm was in the twenty-second year of his age and had been married only about five mouths. He had established himself as a wood turner, etc., in Johnstown, with a fair prospect for success, and was making all needful preparations for housekeeping at the time of his unfortunate visit to the great exhibition. -We were shown on Monday last, by Mr. Lev! A. Nagle, a living curiosity, captured by him in Chest township, this county, a few days ago, which is certainly wenderful in its way, and which challenges the atten-tion of P. T. Baruum beyond maything in that line we have heard of fer many a day. The wonder referred to is nothing less than a double-headed black snake, which has two heads, four sets jaws (upper and lower), and four eyes, two in each head, all being properly located. The two heads are joined together almost to the points, and there is a yellow band about the neck. Of its size we forbear to speak, but it is by no means a dreadful looking monster, even with its two heads. This is no fish story, but a genuine snake story, as we can amply verity after having seen the reptile in full life and vigor.

A plea of guilty was entered by Henry Burtnett for the larceny of a watch and chain from Mr. Jas. J. Murphy, of Johnstown.

Chas. Kline vs. M. H. & Louis Nathanson.

Two promisory notes were offered as evidence in this case, against which no defence was made. The Court ordered the jury to find for the plaintiff in the sum of \$316.83, which was accordingly done without leaving the box.

The Court having overruled the motion in arrest of judgment and for a new trial in the case of Patrick Leonard and Wm. Young, found guilty of murder in the second degree, the accused, as well as all the other parties convicted or high crimes in the Quarter Sessions last week, were called up for sentence yesterday morning. After a strong appea for mercy in behalf of Leonard, Young and Reese, made by Messrs, Shoemaker, Lanton and Reads respectively, and after a few remarks from District Attorney Rose, Judge Dean proceeded to impose the sentences of the law on the several prisoners, in doing which he addressed to each of them a lew words of counsel and regret for the criminal acts which had made it necessary for him to perform so unpicasant a duty. The sen-

ences are as follows: Patrick Leonard and Wm. Young each to pay a flue of \$130 to the county, jointly to pay the costs, and separately to undergo an prisonment of eight years each at hard

ther in the Western Penitentiary. Wur. M. Robecca Elizabeth McDevitt, convicted of bignmy, was, in view of her apparent ignore ance and the fact that she was likely soon to become a mother, sentenced to the county jail for a term of one year, less one day, and to pay \$5 and costs of presecution.

AN IMPORTANT DECISION .- A couple of very small cases were tried in our Court this week which not only exhibited the folly of going to law for trifles, (because the expenses of even the winning side far exceed the amount recovered,) but also served to show a strange variance in the popular mind in respects to the law regarding the "buying of property at private and judicial sales. The first lesson comes home to the parties who suffered in the suits referred to, but the decision of the Court ought to serve as a wholesome caution to others. It was decided in these cases that while any one who pur-chases personal property at a judicial sale can, if he choose, leave the property in the possession of the defendant in the writ as ong as he pleases, and it is not liable to a second seizure, providing that the transaction is houest; and no notice or advertise-ment is required, the judicial sale itself being a sufficient notice to the world as to the transfer of title; yet when one purchases property from a failing or insolvent debtor, the purchaser must take such actual poses. sion of the property as it is capable of, or the transaction is a fraud in law, no matter how honest it may have been between the parties and no amount of notices or advertising will save the property from creditors, even if the purchase r takes possession of the property for a few days and afterward places it again in the care of the debtor from whom he benght it; so that in either case the adverlisement is only money thrown away. In these hard times, when poor people are going under by scores every day, we are glad to publish this information for the benefit of our subscribers. The loss of a few dollars to us in advertisements of the kind referred to is not to be considered when we can save to our patrons hundreds of dollars' worth of trouble and expense.

In the case of Mattern vs. Saxton, and several other actions recently brought be-fore Judge Dean, at the Huntington, Court, it has been decided that the act of 1864, which increased the pay of witnesses to one dollar, does not apply to witnesses residing in or within one mile of the county seat, and the pay of witnesses of this class remains at fifty

FROM the World's Dispensary Printing resume of the doings in Court from the close of our last report until Thursday afternoon received "The People's Common Sense Medical Adviser, in plain English; or, Medicine Simplified," by R. V. Pierce, M. D., Counselor-in-chief of the Board of Physicians and Surgeons at the World's Dispen sary. Whoever helps humanity in its struggle with its inherent weakness and diseases to bear or cure, is its benefactor. Ignorance is not only of itself a cause of disease and morality, but it is the enemy of every effort to cure or fintigate. Nothing will so speedily remove this cause as knowledge (an elementary one at least) of the diseases to which we are beir, as well as those superinduced by our own impredence. Dr. Pierce has rendered, in our judgment, a benefactor's service, both to the afflicted and to the profession, in his diagnosis of the diseases treated of, and in the presentation of the philosophic principles involved in their cause and removal. He is sparing of remedies, and usually prescribes such as are safe in unskilled hands. As a book merely of abstract knowledge, it is exceedingly readable and interesting, especially the following subjects: —Cerebral Physiology, Human Temperaments, Pseudo-Hygiene, the Nursing of the Sick, Sleep, Food, Ventilation, etc. In one chapter on another subject, so delicate in its nature that it is shut up beyoud the domain of warning to all but physleians, so accursed in its results in modern society, he is most explicit, and alike true to field, to virtue, to life, and to society, shows the truth as presented in the teachings of Scripture,—that life begins with conception,—with great force, to which is added faithful

PENNSYLVANIA'S DAY AT THE CENTEN-NIAL.—Our former townsman, A. C. Mullin, Esq., Secretary of the Pennsylvania Board of Centennial Managers, gives official notice of the appointment by Gov. Hartrant of Thursday, Sept. 28th, as Pennsylvania's day at the big show. Hon. Benjamin Brewster has been named as orator of the day. The circular says : The Centennial Commission have promised that every feature and appolutment of the Exposition will be rendered as complete and attractive as possible on the day named, and assurances have been received from prominent railroad officials that ample facilities for travel will be furulshed at reduced rates. As soon as the arrangements have been completed, these rates will be made public, and nothing will be left undone to make the occasion a desirable time to visit the Exhibition.

It is a source of just pride to Pennsylvanians that the great event, so happily commemorated by the International Exposition, occurred in Philadelphia and on Pennsylvania soil. But the historic period which followed it so closely, specially commends itself to our grateful recollection and observance. The day which has been set apart will be the one hundreth anniversary of the signing of our first State Constitution.

It is an all-important fact that the young should learn how to avoid the most afflictive diseases always prevalent in civilized communities, and hardly less important that men of middle age, and even those more advanced in life, should understand how the lost powers of manhood may be restored, On these and other kindred matters the work entitled "The Science of Lite, or Self-Preservation," is more lucid than any other medical work extant. No less valuable and instructive is "Physiology of Woman and Her Diseases," as is also the work on "Diseases of the Nerves and Nervous Maladies." All of these works are published by the "Peabody Medical Institute," Boston.— Their advertisement in another column should receive the attention of all our readers. SCARCITY OF MONEY.—There is no doubt but the present situation of all kinds of business and industry is fearfully depressed, and it behoves every family to look carefully to their expenses. Winter is coming on when children are liable to Group, Whooping Congh, etc. Coughs and Colds will prevail everywhere, and Consumption with other Throat and Lang diseases will carry off many. These diseases should not be neglected. Doctor bills are expensive, and we advise our people to use Boschee's Germann Syrup. It never has failed. One bottle at 75 cents will keep your whole family well during the winter. Two doses will reflected any case. Sold in all towns in the United States, and by our Druggists, Lemmon & Murray, of this place; also by P. M. Woleslagle & Son, Wilmore.

CARROLLTOWN, Sept. 12, 1876. DEAR FREEMAN—Your correspondent sends in his excuse for being remiss last week, and promises to make it up in the future. These hot days are an incentive to inactivity, and I must confess that I was somewhat overcome by that lazy god, Morpheus, and dreamed away the hot calm afternoons neglectful of the doings of the busy world. THE SPORTSMEN

are daily bringing in loads of squirrels, which are very plentiful in this neighborhood. Mr. Jos. Behe on Friday last brought in severiteen gray and black squirrels, and Mr. P. S. Eck secured a like number a few days previous. Your humble, etc., succeeded in capturing fourteen of the "animiles" one day last week, and several other parties have been bringing in large lots of them every day. Mr. Behe is the sportsman of this section, and challenges any one to try his hand and leave him behind in beating up game, or in any manner of woodcraft. A CURIOUS LETTER.

Some time ago a certain A. B., of this place took up his "Sarpet-cack" and departed for foreign parts - that is to say, Virginia or New York for instance. When he had rusticated for some time and his financial condition was for some time and his financial condition was beginning to become alarming and his landlord importunate, he suddenly reuppeared on his "native heath." A short time thereafter he received a threating notice from his landlord which caused visions of juils, etc., to fitt across his mind. The Democratic Club in this place is in a flourishing condition, over one hundred members having joined since its existence. The Club met on Saturday, Aug. 28th, 1876, at seven p. m. Nir. J. J. Thomas, candidate for assembly, delivered a few remarks and was succeeded by Mr. Jas. Null, who spoke at some length and then A. Walters, Esq., made a short speech. Mr. W. was unwell, and could not speak with his wonted energy. The Club then instructed the committee on invitations to invite a speaker from Ebensburg to address the Club on Saturday, Sept. 2d. The committee selected W. H. Sechler, Esq., for that dury, and accordingly on Saturday last Mr. S. appeared and delivered an able and eloquent appeal to all to support the Democratic tickel, etc. There were at least two hundred persons present. The club then adjourned until Saturday, Sept. 9th. This organization has wrought a great deal of good in this commounity, having stirred up some that would have laid dormant, and diffused a general activity among the people in regard to politics. THE ENTERPRISE

of our town is commendable. A large grist mill has been raised and is three stories high, fifty feet long and forty feet wide, and will be run by steam. Mr. Blum has completed extensive improvement on his dwelling and brewery, and the building presents quite an imposing appearance, to say poshing of the addition of a handsome sign, which reads "Old Sun Brewery" Mr. Blum does an extensive business in beer. Mr. Julius Stich, the generous, kind-hearted, genial and joily proprietor of the Carrolitown Brewers, also does a large and extensive busines. His brewery is dituated in the north end of Carrolitown, on the border of Campbelltown. You see our borough comprises two towns, in which will be found three extensive stores and several shops, three good hotels for

By the way, snuffing is an almost univerhabit among the citizens of this piace. The old man of three score and ten and the mere youth, or inevitable "small boy," on meeting will produce the snuff box, and "take a pinch" as naturally as if it was in the regular order of business. But to proceed, we have three cabinet-ware rooms in town. Mr. Jos. Beho, the popular undertaker, is the most extensive dealer. As a mechanic in his line Mr. B. defies competion for fineness and finish of work, The wheels of Justice are not allowed to rust. The wheels of Justice are not allowed to rust, as may be inferred from the fact that we have two Justice of the Peace and three lawyers to keep them moving. We have one of the largest and best finished Catholic churches in the diocese. It is situated in the centre of the town, and the steeple is so high that it can be seen from a great distance. There is a chime of bells in the tower which on Sunday mornings peal forth their call to the faithful to meet together, and in common to praise and thank Him who gave them life and the means to enjoy it. We have the usual amount of shoemaker, carpenter, tailor, and blacksmith shops, jew lry establishments, saloons, etc., which go to make up a town.
