COLORADO held its first election as a State on Tuesday last, but with what result it is not possible to more than guess at this time. Both parties claim the State. In the Connecticut town election, on the same day, the Democrats gained six towns since last October. A decisive Democratic victory has also been achieved in Georgia.

SOMETHING for every lover of his country to think about and rejoice over is the fact that the Democrats of Maine polled 5,288 more votes at the late election than they ever did before, while the Republicans \$30,000,000 of extraordinary and needless strongest Republican States doubtful. If fell short 2,319 votes as compared with the expenses of the current year. That policy poll of 1868, when the strength of that party was shown more fully than it has ever its candidate is so eminently identified been before or since. All which leads Col. with." M'Clure, the great master mind of that able, independent and incomparable jourby tens of thousands."

THE truth about the Maine election has come out at last, thanks to the official returns, which show that Conner, Republican candidate for Governor, received 73,515 votes, while Talbot, Democrat, received 60,719, the balance of the votes polled, 1, 613, being put down as scattering. This showing reduces Conner's majority to 11,-183, or to a plurality over Talbot of 12,796, instead of 15,000 or 16,000 claimed by Mr. Blaine and proclaimed by the Radical organs all over the country-the purpose of upon the October elections. But they overshot the mark. They failed to suppress Buckeyes of the deceit and fraud which the large majorities with which it seems almost certain that Indiana and Ohio will be carried by the Democrats on Tuesday next.

THE editor of the Philadelphia Times has an undoubted right to express his admiraof season, especially as he seems to lose sight of the fact that the Cameron faction tunes of that gentleman as M'Clure can possibly be, but when he ventures the as sertion that "unless Lemon has got out of the hang of running pretty much all the votes around the hills and down in the valleys of little Blair, it isn't worth much of a fight about what Democrat shall have the honor of standing up to be knocked down,' he mistakes the spirit of the Democratic conference now in session for the second time at Cresson, which has the power and the will, as we honestly believe, to designate a man who, politically speaking, can whip Lemon out of his boots-a much desired process which will deprive Don Cameron of at least one vote for U. S. Senator which he confidently counts upon receiving in the event of Lemon being returned to a seat in the Senate chamber at Harrisburg. And that the conference will give us such a man we have every reason to believe, unpleasant though it may be for Lemon and his special admirer Col. M'Clure, to contemplate such a denouement.

Distracted Ohio.

From an editorial in the Philadelphia Times of Monday last in regard to the political outlook in Ohio we extract the following cold comfort for our Republican brethren. The Times says :

"It is idle to charge the demoralized and almost hopeless condition of the Republicans of Ohio to an aufortunate nomination for Secretary of State. It is a source of weakness, but is one of the effects, rather than the cause, of Republican degeneracy. The nomination of Governor Hayes was the crowning misfortune to the Republicans of that State. In their dele gation to the National Convention there were not half a dozen Hayes men to be found; indeed, they divided without reference to Hayes, and sixteen were understood to be for Blaine, and twenty-eight for Bristow. It is Hayes who has endangered Ohio and made Democratic success in Indiana more than possible, and the nation does not misunderstand it. A WORD TO THE WORKINGMEN. - This campaign is yours. It is for your families, and your action at the poils in November will give evidence of the fact whether or not district it takes occasion to speak in the you care more for your wives and children than you do for mere party. What is your situation now? If you have employment, does the mere pittance you receive for your hard labor suffice to furnish you with the necessaries of life? Are you able to raise money enough at the end of every month to pay your rent without depriving your children of bread?

Now is the time for action. Let your oices be raised for a change, let your votes be cast for a change. Reform is the watchword, and to effect a reform a change in administration is the first step. Your condition cannot be made any worse under the guidance of Uncle Sammy Tilden than it s to-day, and you have the assurance of history that a change of rulers after a panic has always restored confidence and prought good times in its train.

Can you longer besitate? Look at Altoona, where the Penn's R. R. Co. has been compelled to discharge over fifteen hundred men within the past few weeks, and the end is not yet. A hard winter is approaching, and if the demand for a change is not ratified at the polls, woe betide the sufferer. During the past three years you have hardly made money enough to keep soul and body together, and if Hayes is elected it will be but a continuance of the present administration, present hard times, and present thieves in office.

"CHEATING THE DEVIL" was the subject of a sermon in Unity Chapel, Harlem, by the Rev. William T. Clarke. He said that the prevalent idea of Christianity is that an elaborate trick is played on the devil in the interests of its believers; that one may sell himself to the devil and take pay in the pleasures and prizes of the world, and when sick of the bargain escape from its obligations by repentance, roll the in store for the country when the thieves sweet bait of wickedness under the tongue until satisted and then spit out the hook and leave the devil with his rod and line; buy the devil's goods on a long credit without paying a penny for them, and then take benefit of the theological bankrupt act, and leave him to whistle for his recompeuse. This piece of theological trickery is a substratum for the frauds of business and the chicanery of politics. Bank direc poor, Judges who rob the orphans of trust money, municipal thieves, Congressmen and Cabinet ministers whose hands are educated people there are hundreds who sympathize with the man who always took off his hat when the devil was than will the Lancaster Intelligencer and its mentioned, not out of respect, but because he did not know what might happen. The idea that a man can cheat and lie until all virtue is squeezed out of his soul like the juice from a pressed orange, and then shuffle off all the effects by some process of spiritual legerdemain and come out heroic, happy and holy, is an insult to intelligence. - New York Sun.

LETTER FROM CHARLES FRANCIS ADAMS-SOUND ADVICE FROM A GOOD SOURCE.

The following letter was addressed to Daniel Magone, jr., the Chairman of the New York State Democratic Committee, in response to an invitation to speak at a mass New York at Cooper Institute held on Fri- distant. day evening last. It is the boldest and most aggessive declaration that has come from any of the distinguished Liberal Republicans who have declared for Tilden, Hendricks and Reform :

Quincy, Sept. 25, 1876. - Dear Sir : Absence from the city has prevented me from answering promptly your letter of the 20th inst. If I were younger it would be an agreeable duty to perform the task to which you invite me, but I have not done anything of the kind for fifteen years, and am now in my seventieth year. Should I accept one invitation it would probably give rise to others which would have an equal claim. My judgment is that I had better stay at home. Yet I think I fully appreciate the importance of this canvass. It is narrowing itself daily more and more into a struggle between the people and the managers who hold the official organization of the country for their own exclusive benefit. From the days of Credit Mobilier down to the last exposures made by the investigations of the last congress there is only one conclusion to be drawn, and that is the prevalence of corruption almost everywhere in the republican organization. The honest men do, indeed, make brave and sincere efforts to resist this baleful influence, but they are too often defeated to raise any just hopes of unitimate success. This struggle has been going on for years, and no material change for the better has yet been effected. The time has now come for a radical change, and the substitution of a wholly new influence tied up by no restrictions other than the genuine wishes of honest men of all parties. When in a great popular convention of a party to nominate a candidate for the presidency, one gentle men deeply compromised by the investiga tions of a committee of the house of representatives comes within twenty-five votes of a nomination, and another, who really did honor to himself by fearless and effective exposures of corruption in high places, could not command many more than a hundred votes, it seems to me that it is high time for a change in the public opinion. Neither is the case improved by a view of the manner in which the canvass has been carried on. The great effort of the republicans seems to be to operate on the popular passions excited during the late civil war. Instead of repeating the honorable call of President Grant, "Let us have peace!" the cry is for raising what may prove another war. And why is this? Only because the people in the southern states choose to vote as they please, without regard to the corrupt combinations of office holders all over the country, wielded by equally-corrupt combinations of legislators at the seat of government to perpetu ate their own power. Verily, verily, if the people are wise they will lay down party and seize the present opportunity to make a change. I am very truly yours,

CHARLES \$330,000,000 A YEAR. - The Hard Times Accounted For .- It is well, says the Hartford Times, for the tax-payers to know what sums of money this Republican party has been spending. Corruption in office, extravagance without bound, and a perfect looseness and recklessness on the part ly mismanaged the country's affairs-these things have been known, or vaguely understood by the public for some time. But who has known or believed the astounding fact, that for the last ten years-years of profound peace-the public expenditures, as reported by the Secretary of the Treasury for each fiscal year separately, have been over three hundred and thirty millions a year? No wonder the people are poor. No wonder trade is stagnant. Our resources have been drained and wasted in riotous living. Over three billions, three hundred and six millions of dollars vanished in the conduct of this government for the last ten years of peace! And not a passable vessel left the navy to show for all the millions spent there-the navy not strengthened but gone to ruin; not an honest system of revenue collection-nearly half of that wasted or lost in corrupt 'rings' and combinations now proved to have extended to the White House; no economy in the Postoffice department, where the robbing "straw bid" system of awarding contracts is still draining the treasury; not an army that can be used to put down Sitting Bull and the Indians-it of the white citizens of the Southern States; not a single thing, in fact, to point to, to explain this vast and appalling expenditure of the people's money. Even the costly and disastrous miscalled "reconstruction" is admitted to be a failure, when Grant orders the army into the Southern States to control the elections.

Over \$330,000,000 a year !-- and this, too, in a time of profound peace! Is there any mystery about these "hard times!" -- or auend to them, for that matter, if Hayes and his Butlerized party are again to triumph?

CENTENNIAL AWARDS. -THE GREAT COMPETITION IN THE PIANO DEPARTMENT. -Steinway & Sons Against the World .- A special dispatch from Philadelphia to the by his sons. Pittsburgh Commercial, dated Sept. 27th. says: The agony of exhibitors as to awards is over. The formal ceremonies of announcement were held this evening in Judges' Hall. President Hawley, for the tend to visit the Centennial Exhibition, Centennial Commission, presented the lists and will after their return doubtless desof those to whom diplomas and medals had been decreed to the President of the United States, who delivered them to the several foreign and State commissioners. Owing to the fierce competition among piano man ufactures, the greatest interest was manifested to know who had carried off the highest honors. Steinway & Sons, as usual, are the victors, and the judges at Philadelphia have indorsed the verdicts of the juries at Paris and at Vienna. Forty different makers, comprising al! the most noted at home and abroad, competed, and the American Steinway is the best. The following extract, which will serve as an illustration, tells why the judges in their report recommended the awarding of a diploma and medal to Steinway for the greatest concert capacity in grand pianos, as also the highest degree of excellence in all their styles, viz: "Largest volume, purity and duration of tone, and extraordinary carrying capacity, with precision and durability of mechanism; also, novel disposition of the string and construction and bracing of the frame."
