

CAMBRIA FREEMAN. Ebensburg, Pa., Friday, Oct. 20, 1876. LOCAL AND PERSONAL.

\$250. IT IS TO PUT TO FLIGHT A COUPLE OF RECKLESS LIARS.

Who wants the money? The Cambria Herald and Johnstown Democrat have asserted without a shadow of doubt that Mr. John Ryan, the Democratic nominee for Sheriff, purchased his position in Cambria county for \$250,000. The Herald and Democrat, provided a like amount of money will be placed in the hands of any one, as a bet of the utter falsity of the charge. If any one will prove to the satisfaction of the public that John Ryan offered any delegate any money to support him for the nomination of Sheriff, or authorized any one to do so on his behalf, he will be paid \$500. If any one will prove to the satisfaction of the public that John Ryan offered any delegate any money to support him for the nomination of Sheriff, or authorized any one to do so on his behalf, he will be paid \$500.

It has been openly charged time and again by the Tribune and the Democrat that Mr. Campbell was President of a Know Nothing lodge in Johnstown a few years ago, and that subsequently he belonged to a proscriptive organization known as the American Mechanic. Both of which charges have not been denied, and cannot be denied by even so reckless a party journal as the Johnstown Tribune. What to our foreign-born citizens propose to do about it?

Legally speaking it is not a dear thing to shoot deer, as deer hunting is in vogue in view of the scarcity of such game we should like to see the dear experience to go in quest of deer in this region. Better come down to things cheap and spend your time and money in purchasing dry goods, groceries and other useful merchandise at the low-priced cash store of Myers & Lloyd, High street, Ebensburg, where bargains await all who wish to profit by them.

The martial band which accompanied the meeting broke in on the festive occasion of Mr. Moore soon after he had warmed up to his subject, and the result was that many of the guests were hurried to the door of the hall to see what was being done by the band. The band, whereat we concluded that to their ears at least there is life and music in the music of the band. More's the pity, perhaps—for the life and drum.

It is perfectly safe to set down as one of the Tribune's lies, which are always contemptible in their nature, the charge of Irish descent in the leading workmen of the building. Whereat we concluded that to their ears at least there is life and music in the music of the band. More's the pity, perhaps—for the life and drum.

An exchange wants to know if this is money how to get the cash out of the time of need. Well that depends a good deal on the way it is used. If it is used to buy a suit of clothes, it is money how to get the cash out of the time of need. Well that depends a good deal on the way it is used. If it is used to buy a suit of clothes, it is money how to get the cash out of the time of need.

All who have noted the fact, and especially those who live in the immediate vicinity of the Union school building, are profuse in their praise of the good discipline which has been secured by the management of the school. Mr. Frank Lytle, principal in charge, the task he has accomplished by no means a light one, but his high experience has enabled him to become master of the situation, and it is no more than proper that a light such as Mr. Lytle possesses should not be allowed to go unacknowledged.

A little son of Mr. John Schlosser, a resident of the village of Summerhill, in Croyle township, fell from a grape-vine swing on Thursday last week and sustained an injury of a character likely to prove fatal, if indeed they have not already resulted in his death. The only hurt apparent at the time was a laceration of the forehead, but a few days later, which was properly attended by Dr. Luke, but subsequently the lad's hand and arm began to mortify, and although still living, he is now in a precarious condition, and it is believed that he will not survive. He is about twelve years.

A brother, half brother and brother-in-law, Messrs. J. H. and Philip Brown, of this place, were in Zanesville, Ohio, on Thursday last, when the terrible explosion took place in that establishment, the former being at the time within fifteen feet of the boilers which blew up. Both of the gentlemen were situated only a short distance from the scene of the explosion, but strange to say none of the inmates suffered so much as a scratch.

Mr. Henry Gore, a well known Republican of this place, has been the recipient of a communication to the Johnstown Tribune in reply to a scurrilous attack on Mr. Ryan and a "highfalutin" puff of Mr. Davis made by a correspondent of that paper signing himself "Edmund Burke." Mr. Gore's reply, which has been published in the Tribune, has furnished a copy of it to the Johnstown Democrat, in which it appears this week. A "proof" of the letter was sent to us, or at least was expected by us, on Monday night, but it did not come into our hands until Thursday morning, we are forced to give it this place.

In the parties to a lawsuit are all put under water and the one who stands the pressure longest wins the suit. In this country the thing is reversed—the litigant who stands the least water in the suit, and the one who stands the most water in the suit, is the one who wins the suit.

Our respected townsman, C. T. Roberts, Esq., has sent to the Johnstown Tribune a card with a drawing of his name from the Record and Sentinel contest, thereby leaving the friends of Col. Lemon to fight it out in their own peculiar way and abide the consequences. Penning as we do this item on Wednesday morning, we cannot say in view of Mr. Roberts' withdrawal, what the result will be. It is a pity that the contest should be taken by the Republican convention, but it is a pity that the contest should be taken by the Republican convention, but it is a pity that the contest should be taken by the Republican convention.

George Hartzell, one of the oldest and most esteemed citizens of this county, and the father of our worthy friend, Jas. E. Hartzell, of Pittsburgh, was struck by the lightning on the 19th inst. while on the Pa. R. R., near the station below Summerhill, this county, about 1 o'clock on Monday afternoon last, and killed instantly. The unfortunate man had stepped from the north to the south track to see a freight train, and was struck by a lightning bolt while in the way of the special train going west. His body was picked up by the special train, and he was found with his skull fractured, his arms and one of his legs broken and nearly all of his ribs fractured. The body was taken to his home and interred in Sandy Vale cemetery on Wednesday afternoon.

The Republican Senatorial conference was held at a public meeting on the 19th inst. at the residence of Mr. Roberts, a gentleman who was at the time no candidate, his card of withdrawal being then in print. What transpired during the conference is of course not known to the public, but the conclusions reached may be summed up in these few simple words: John A. Lemon was then and there nominated and is now the candidate of the Republican party for the State Senate. Did we say this district? We will take that back and substitute Blair county, because Mr. Roberts' conference had no right to meet in this district, and the only person having by his voluntary withdrawal, the contest deprived them of all the power they had.

Tom Davis and his prospective deputy, Harry Kincaid, with a few other congenial spirits, were at the Chest Springs meeting on Saturday last, but as Mr. Ryan was likewise on the ground they didn't have a word to say about the alleged attempt of the Republican man to buy his nomination for Sheriff, which they dare not assert in his presence, knowing as they do that it is as base a lie as was ever told in this county.

An admirable lecture—The blind orator, Prof. H. McGinnes, delivered a lecture at the Court House, on the subject of "Education," on the 19th inst. The lecture was listened to by a comparatively small but very attentive and really delighted audience. And good reason they had for being delighted, as the lecture was in truth an admirable one, and the orator a most amusing and interesting one. The lecture was listened to by a comparatively small but very attentive and really delighted audience.

DESTRUCTIVE FIRE.—We are sorry indeed to learn that the elegant dwelling house, with all its contents except a sewing machine, of Mr. John G. Beare, of Susquehanna, was destroyed by fire on the 19th inst. in the recent Democratic Senatorial conference at Crescon, was totally destroyed by fire about 10 o'clock on Sunday morning last. The immediate cause of the fire is believed to have been a spark thrown from one of the flues, as the fire was first discovered on the roof. Mr. Beare and wife were in the house at the time, but when the conflagration occurred, the inmates of the house being three of the children, the oldest of whom is not more than ten years of age. Mr. Beare received the alarming intelligence in his own home, and immediately started for the scene of the disaster, but he was unable to reach the place until after midnight.

MONONGAHELA NEWS, PITTSBURGH.—Mr. McDonald Crossen, proprietor of this well known and popular house, announces this week that he has reduced the price of the "Monongahela" has been for many years the favorite stopping place for tourists, families, merchants, commercial agents and the business community. It is situated in a desirable location in the business centre of the city, with all desirable surroundings, commanding an elegant view of the Monongahela River, its City and the surrounding country. The building is of the most modern construction, and is well equipped with all the latest improvements. The tables are supplied with the best of the country affords. The cuisine prepared is of the highest quality, and is well adapted to the tastes of all. The price per day is \$2.50 to \$4, according to location of room, &c.

LARGE TREES FROM SMALL ACORNS GROWN.—Mr. John Wagonmaker, of Philadelphia, the renowned philanthropist and acknowledged friend of clothiers, has kindly sent us a small pamphlet which he aptly styles his "Red Book"—a designation given to it on account of the color of the paper cover which encloses it, but well deserving the name for the many valuable facts it contains, and that is that it ought to be read by everybody in the world and the rest of mankind. As a sample of the information this pamphlet contains, we will quote a few of the following brief story of the foundation and growth of the largest clothing house, or, more properly speaking, clothing store, in the world, and which, by its indomitable perseverance has outproduced in any age of the world.
