NEW SUBSTITUTE FOR LEATHER.—The last issue of Scribner's Monthly contains an interesting sketch of a new product designed as a substitute for leather. This product is named by the writer as "vegetable leather;" but why the name "leather" should be applied to it, considering the definition of the word is "the skin of an animal dressed and prepared for use," is a question, as the new invention is composed entirely of vegetable matter. Passing the question of title however, we present as a matter of interest, an account of the material and process used in manufacturing the so called vegetable leather: The materials are cotton, or cotton waste, dust, cocoanut fiber and other textile by products and fucus crispus, a marine moss abundant on the New England coast. The waste is first carded into sheets of wadding of uniform thickness, and then laid on zinc plates, kept at a high temperature and treated with a decoction of the fucus till thoroughly saturated. The sheets quickly become dry, and in a few minutes may be lifted from the plates and passed between hot polished rolls adjusted to give any desired thickness to the finished leather. These rolls are under heavy pressure and completely felt the materials into strong, tenacious and flexible sheets. The sheets are next coated with boiled linseed oil and dried in the open air, or in a dry room. When dry, they are coated with vegetable wax and run through hot fluted rolls, and are finished by a final passage between polished rolls. The leather may then be bronzed, silvered, varnished, or otherwise treated like ordinary leather. To produce a white leather, clean cotton is used and the whitest pieces of dried moss and bleached linseed oil.

SURE REMEDY FOR HOG DISEASE.—Col. Joel L. Lightner, of East Lampeter township, an experienced farmer, sends to the Lancaster *Intelligencer* the following, which will no doubt be read with great interest by, and may prove of decided value to, our agricultural and stock raising readers:

In your paper dated Nov. 29th, I saw an article headed "Destructive Disease Among Swine near Morgantown." Now my experience in doctoring hogs is that when they get sick, they mostly refuse to eat, and it is very difficult to give them medicine. For several years I have used but one remedy and it appears to be like some of the patent medicines of the day, a *cure all* for sick hogs. It is the root of the plant called the Christmas plant, by the Germans it is called Christwurtzel. I think the botanic name is Black Hellebore; its application is simply to pierce the ear and insert a bit of the root; in a few hours the ear will swell very much and in about two weeks a small piece will drop out, leaving a hole the size of a penny. I have used it successfully as a hog *preventive*, and I do not know of any case in which the ear swelled that the hog died.—Many years ago my father learned the virtue of the plant from an old German who had a number of hogs to die from a disease something like the one now prevailing near Morgantown; he checked the disease and cured the sick ones by using this root.

A WONDERFUL CLOCK.—The Liverpool, London and Globe Insurance Company, of Chicago, received lately from London a clock, which is now on exhibition at their office, No. 124 La Salle street. The specific characteristic of this clock is that, while having a center dial 14 inches in diameter, on which is shown the correct Chicago time, this is surrounded by twelve dials of seven inches diameter, giving the time in the principal cities of the world. Thus, when it is 12 M. in Chicago it is in London 5:50 P. M.; Paris, 6; Berlin, 6:43; Constantinople, 7:46; St. Petersburg, 7:51; Calcutta, 11:44; Hong Kong, 1:26 A. M.; Melbourne, 3:30; New Orleans, 11:50; Philadelphia, 12.50 P. M.; New York, 12:55, and Valparaiso, 1:05. It is an eight-day clock of the newest and most approved design, beating 85 5-7 vibrations to the minute, and is so constructed that, placed in the window, it has one dial showing on the street and one for the window. It is enclosed in a very elegant mahogany case, and is valued at about $1,000.

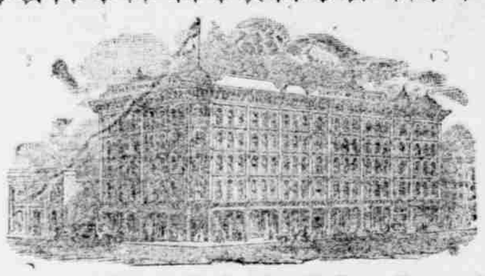
APPLE PORK PIE.—Core, peel, and quarter some fine juicy baking apples. Make a nice paste with fresh butter and sifted flour, and line with it the bottom and sides of a deep dish. Put in the apples, and stew among them sufficient brown sugar to make them very sweet. If you can obtain a fresh lemon, pare off very thin the yellow rind, and squeeze the juice to flavor the apples. Prepare some fresh pork steaks, cut thin and divested of all the fat except a little at the edge, removing the bone. Cover the apples with a layer of meat, and pour in a tea-cup of sweet cider. The contents of the pie should be heaped up in the center. Have ready a nice lid of paste, and cover the pie with it, closing and crimping the edge. In the center of the lid cut a slit. Put it into a hot oven and bake well. This is a farm-house dish, and very good; try it.

A GOOD DENTIFRICE.—Dissolve two ounces of borax in three pints of boiling water; before quite cold add one tablespoonful of tincture of myrrh, and one tablespoonful of spirits of camphor. Bottle the mixture for use.—Add one wineglassful of the solution to half a pint of tepid water and use it daily. It preserves and beautifies the teeth, and arrests decay.

INFLAMED GUMS.—A drop or two of camphorated spirit rubbed on the gums will allay inflamation.

HENRY W. KANAGA. FRANK MACDONALD.

SEVENTH AVENUE HOTEL,



H. W. KANAGA & CO., Proprietors,

LATE PROPRIETORS OF THE GIRARD HOUSE, CHESTNUT ST., PHILADELPHIA.

Terms, $2.50 and $3 per Day. PITTSBURG, PA.

Loretto, Pa.

☞ Work executed promptly and satisfactorily, and as cheap as the cheapest. (4-12.-tf)

VALUABLE HINTS.

IT is said a pint of milk heated a little, but not boiled, taken every four hours, will check the most violent diarrhœa, stomach ache, cholera and dysentery.

BRASS cooking pans should be cleansed inside with vinegar and brick, then rinsed, thoroughly dried at the fire, and wiped with a clean cloth. White enameled pans require only a little soda and warm water to keep them clean and free from grease.

HAIR FALLING OUT.—The following well tried recipe is highly recommended: Glycerine and tincture of capsicum each two ounces, oil of bergamot one drachm; mix and perfume to suit taste. This is to be the only dressing for the hair. Wash the head occasionally with soft water and fine soap.

CHILBLAINS.—These painful inflammatory swellings generally attack the toes, heels and fingers, and are attended with an intolerable degree of itching. In common cases, the following treatment should be pursued: As soon as any part becomes affected rub it with spirits of rosemary, or aromatic camphorated cream; afterward apply soft linen, moistened with camphorated spirits, soap liniment, camphor liniment, etc. When the swellings break or ulcerate, apply poultices and emollient ointment for a few days. Equal quantities of sweet oil, lime water, and proof spirits form an excellent application for chilblains.

A NEW USE FOR IRON.—One of the most incomprehensible discoveries—if it be true, which is questionable—that we have ever encountered is announced in a French journal by M. Massie. He says that the mere introduction of an iron bar, in the box in which barley, rice, bran, biscuit, and like farinaceous victuals are stored, is sufficient to prevent either the ravages of decay or the attacks of insects. Full details of the experimental investigation are given. An iron bar three pounds in weight is reputed to have protected forty gallons of grain; and certain biscuits were preserved for seven months in excellent condition, while others, under like circumstances, but without the iron, were totally destroyed by weevils.

SWALLOWING A CENT.—DR. GIBBS, while on a railroad train the other day, was consulted by one of the employes on the train in relation to his little boy, who had that morning swallowed a cent. "What have you done for him?" asked the doctor. "We gave him a dose of castor oil," was the reply. "Good practice so far; as soon as you reach home, give him the whites of three raw eggs daily; let his diet be bread and milk and nothing sour." The directions were followed faithfully, the whites of the eggs repeated every day, and the dose of oil at night, and on the fourth day the cent was discharged. It was one of the new copper coins, and considerably corroded by the action of the gastric juice. Since fatal results often follow the swallowing of a copper coin, the judicious treatment advised in this instance should be remembered by all who have the care of children. The essential points to be borne in mind are simply these. Albumen or the whites of eggs, a bland die, free from acids, and castor oil.

EFFECTS OF TEA ON THE SKIN.—If you drop a few drops of strong tea upon a piece of iron—a knife blade for instance—the tannate of iron is formed, which is black. If you mix it with iron filings or pulverized iron, you can make a fair article of ink. If you mix it with fresh human blood, it forms with the iron of the blood the tannate of iron. Take human skin, and let it soak for a time in strong tea, and it will become leather. Now, when we remember that the liquids which enter the stomach are rapidly absorbed by the veins and absorbents of the stomach and enter into the circulation, and are thrown out of the system by the skin, respiration and kidneys, it is probable that a drink so common and abundantly used as tea will have some effect. Can it be possible that tannin, introduced with so much liquid producing perspiration, will have no effect upon the skin? Look at the tea drinkers of Russia, the Chinese and the old women of America, who have so long continued the habit of drinking strong tea. Are they not dark-colored and leather-skinned? When young they were fair-complexioned.

JOHN D. THOMAS,

Boot and Shoe Maker

THE undersigned respectfully informs his numerous customers and the public generally that he is prepared to manufacture BOOTS and SHOES of any desired size or quality, from the finest French calf to boots for the coarsest brogans, in the VERY BEST MANNER, on the shortest notice, and at as moderate prices as like work can be obtained anywhere.

Those who have worn Boots and Shoes made at my establishment need no assurance as to the superior quality of my work. Others can easily be convinced of the fact if they will only give me a trial. Try and be convinced.

☞ Repairing of Boots and Shoes attended to promptly and in a workmanlike manner.

Thankful for past favors I feel confident that my work and prices will commend me to a continuance and increase of the same.

TO ALL!

DR. SWAYNE,

The discoverer and compounder of the far-famed

DR. SWAYNE'S

COMPOUND

SYRUP OF WILD CHERRY,

And other valuable preparations, entered upon his professional career with the important advantage of a regular Medical Education in one of the oldest and best schools in Philadelphia and perhaps in the world. He subsequently served a faithful term of practice in the Philadelphia Dispensary, and for many years attended also in the Hospital. In these institutions he enjoyed the most ample opportunities of installing an insight into diseases in all their various forms as well as for ascertaining the best methods of their treatment. In offering, therefore, to the people of the United States the fruits of his extensive professional experience in the medical communities as the best result of his skill and observation, that he feels that he is but proffering a boon to every family throughout the land, resting, as he does, confidently, in the merits and efficacious virtues of the remedies as herewith commends. The vast amount of testimony from all parts of the world has established Dr. Swayne's Compound of Wild Cherry" the most efficacious remedy known, and it is admitted by our most eminent physicians, and all who have witnessed its wonderful healing properties. The Wild Cherry, in all ages of the world and from centuries almost unknown, has been justly celebrated for its wonderful medicinal qualities, but its great power to cure some of the worst and most distressing diseases among us, was never fully ascertained until the experiments of that celebrated physician, Dr. Swayne, had demonstrated its high medicinal qualities. In Dr. Swayne's Compound of Wild Cherry equally valuable vegetable ingredients, which, scientifically combined, renders its action tenfold more certain and beneficial in curing all diseases of the throat, breast and lungs. Dr. Swayne's Wild Cherry Compound strikes at the root of disease by purifying the blood, restoring the liver and kidneys to healthy action, invigorating the nervous and shattered constitution. It does so without prostrating or weakening the body in any way. It cures not only the lungs and liver, but every organ dependent upon a wasted or impoverished state of the blood.

A REMARKABLE CURE.

ABRAHAM HOLLENBACH, two miles from Shippack ville, Montgomery county, Pa., contracted a severe cold, which settled upon his lungs, resulting in a cough, pain in the breast, and short breath. The symptoms became every alarming; an abscess formed in the lungs and made its way through the side, and discharged large quantities of pus externally, so that his physician thought that the power or functions of one of his lungs was totally destroyed, and that he could not live. This continued state of things continued for a long time, until he was reduced and came to a skeleton. He was advised to make use of Swayne's Compound Syrup of Wild Cherry, and through its use was restored to health.

To convince those of this discovery, these persons who have been cured of consumption, in its several stages, by the use of Dr. Swayne's Medicine. Many have been restored to health after being confined to their beds, reduced to mere skeletons, and troubled with coughs, night sweats, hectic fever, and all other unfavorable signs of an fearful stage of disease. It is true that in all cases where cures are effected the patient must have some lungs regaining; but thousands of

VICTIMS OF CONSUMPTION

have descended to their graves who might have been cured if they had used "Swayne's Compound Syrup of Wild Cherry" in time.

PHYSICIANS RECOMMEND IT.

DR. ISAAC H. HERBEIN, Stumpstown, Berks county, Pa., says: I have used and sold Dr. Swayne's Compound Syrup of Wild Cherry for many years, and it always proves effectual in curing Coughs, Colds, Consumption, and pulmonary affections. I prefer it to the very best remedy of the kind in the market.

DR. THOS. J. B. GIBSON, Boyertown, Berks county, Pa., writes: Your Compound Syrup of Wild Cherry I esteem very highly. I have been selling and recommending it to my medicine for many years, and it always gives effectual relief in coughs, colds, bronchial and pulmonary affections. It is the best remedy for consumption in this section, and I consider it the best remedy with which I am acquainted.

☞ Describe symptoms in all communications and address letters to DR. SWAYNE & SON, 330 N. Sixth street, Philadelphia. No charges will be made for advice.

Sold by Druggists and dealers in medicines generally.

Itching Piles

Are generally preceded by a moist surface like eczema, exciting intense itchings as though you were rubbing it against a rough substance, particularly at night when warm in bed; after scratching worms, or rather a sensation as though worms were crawling around the private parts and fingers; to most sure sorely afflicted, extending into the bowels, producing very distressing diseases. Lasting long standing cases are permanently cured by simply applying

SWAYNE'S OINTMENT.

HERE IS THE PROOF:

DR. SWAYNE & SON: Enclosed please find one dollar for two boxes of your ointment for Itching Piles. These are for some of my friends who are afflicted with this distressing complaint. The box you sent me a year ago I am glad to say I am proud to say it made a perfect cure. I think its efficiency should be published through the length and breadth of the land. You can publish this if you think proper.

DAVID FRITZ, Sr.

Lashburg, Frederick Co., Md.

Reader! If you are suffering with this annoying complaint, or Tetter, and exactly similar skin diseases, go to your druggist and get a bottle of Swayne's All Healing Ointment. It will surely cure you. Price, 50 cents a box; 2 boxes, ($1.00); for $2.50. Sent by mail to any address on receipt of price. Prepared only by

DR. SWAYNE & SON,

330 North Sixth Street, Philadelphia.
