THE CAMBRIA FREEMAN.

EBENSBURG, PA., Triday Morning, - - Feb. 9, 1877.

CASANAVE, Returning-Board statesman, was examined by the House Committee on Powers and Privileges on Monday last, and the World prenounces his testimony remarkable for the fact that he contrived in the course of it to enrich the language, with the tremendous word "contabulated." He was weak enough, however, to allow Mr. Burchard to build ze him into confessing that he meant "consolidated." He appeared to know nothing about how the board contrived to "costabulate" the Republican candidates into office.

---Next November too State officers-an Auditor General and State Treasurer-will be elected, the first to serve for three years and the latter for two. Under a provision of the new constitution the incumbents of these offices are not capable of holding the same office for two consecutive terms. The present Auditor General is Justus F. Temple, Democrat, of Greene county, elected in 1874, and the State Treasurer, William Rawle, Republican, of Eric county, elected in 1875. The officers to be elected in this county at the next election are Prothonotary, District Attorney and Foor are House Director.

A BILL is now pending in the State Leg-Islature which provides for the erection of new counties. We have not seen a copy day. Humphreys is said to have held an of it, but learn from the Harrisburg Patriof that it provides that an old county shall not be so divided as to reduce its population below 50,000 nor make its territory less than 400 square miles, and that the new county must have at least 20,000 inbabitants and 400 square miles. The bill also provides that a majority of the voters in the territory sought to be made a new county shall decide the question of division. If this bill should pass both houses and be able to furnish our readers. signed by the Governor, new counties in this State will be like angels' visits, "few

As this proposed law the surface in connection with the Louisi- | vitally affects a very large and unfortunate ana election it is indeed refreshing, as the class of the people of this whole State, and Philadelphia Times well remarks, to find is of course applicable to the same class in one man who can speak the truth. ---MURTAGE, the immaculate and spotless patriot who runs the Administration organin Washington, calls upon Morton, Chandler and the rest of the faithful to die in the last ditch. "If we must fall," says the magnificent Murtagh, who was recently engaged in the fruitless offert of huine a Congressman into a house of ill fame, "let it be with no stain of cowardice on our splendid record. If we must give way to our political adversaries, let it be in a spirit of true manhood and courage that will re main in history to testify to the generations of the future of our greatness and heroism." Ab, truly, remarks the Pittsburgh Post, but there is not water enough in the broad Potomac to purify the garments of Murtagh and his fellow scoundrels. The ocean itself would be too limited for the job.

LUZERNE county is punishing some of its official rogues of both political parties, to the great satisfaction of honest citizens generally. On Saturday, Courtwright, ex-County Treasurer, was sentenced to four years and six months imprisonment, for the embezzlement of large sums of public money. He made restitution of \$20,000. Courtwright is a Republican and one of the pleas for a mereiful sentence was that he was induced by leading politicians to do what he did to raise money for polit. if it be not true, and part of a conspiracy, the ical omposes. A Democratic County Commissioner was fined a bundred dollars for extortion in office, and two ex-clerks in the Commissioners' office got four months each and \$800 fine for conspiracy in office. Another Commissioner, sentenced some time ago, is serving out his term of imprisonment. All this the Pittsburgh Post act of dishonesty, and yesterday's evidence pronounces good work. The editor of the Tribune is an old acquaintance of Wells, the forger and presidential auctioneer. He changed his opinions, or, to speak more accurately, has lately been expressing a very different opinion of this "eminent citisen" from that contained in his book "After the War," but the disclosures of Wells' confederates. Kenner and Littlefield, seem to remind the editor that it will not do to be ranked among his friends, and he now emfesses, with some if & however, that the old ras cal is at his old tricks again. The Tribune in a recent issue says :

"The returning board case grows darker and Carker, either for ex-governor Wells, or the men who may be conspiring against him. Sheridan did not tall half the truth about ex-Governor Wells; if it is false it is an amazingly complicated case of perjury. But bus Mr. Well- nothing at all to say?"

Certainly, "if false, this is an amazingly complicated case of perjury." But it is simply impossible that falsehood could be sustained by such an amazing number of

confirmatory facts. General Sheridan was certainly right in saying, when Wells and his associates were attempting to make way with the levee fund, "that he was dishonest himself and had not one honest friend." Certainly the editor of the Tribung himself was right when he said that Wells was utterly team to perform an errand to a short disfaithless and betrayed in turn every one who trusted him. Certainly Messrs, Wheeler, Hoar and Frye were right when, having convicted Wells of perjury in swearing to facts not only shown to be false, but facts of which he could know nothing, having been in a distant part of the state at the time they were supposed to have transpired, they re-instated in effice a Louisiana senator whom Wells had turned out on his own false affidavit alone; and certainly Littlefield is right when, with the original papers before him showing the crasures and false figures, he swears that it was by Wells' order the forgery was committed For what other purpose could Wells have refused to put a Democrat on the board. as the law required, or to allow a Democratic clerk to attend its sittings, or have refused the opportunity to the committee of ongress to examine the papers, but to afford himself the opportunity to commit such forgeries and to prevent their detection?

Nor is it any less certain that having offered to sell the vote of the state to the Democrats, who refused to buy, he has who upholds the power of Wells to make \$2,708 of that sum. this disposition of the state, whether before or after the act, becomes a party to it. This is just what the Radicals do. They assert the power of the returning board to dispose of the state at their discretion, and claim the presidency, because in the exercise of his discretion, and to enable him to sell the state to them, be has thrown out owing to the severe weather. We have not a Democratic majority of 8,000 votes. No learned that they suffered in this country intelligent man will believe that such a man would throw out this majority for nothing. says that she has been cured of pavalysis in direct answer to prayer, and several of the clergyman of the city vouch for the truth of her story. She was, according to her account, a helpless invalid for seven years. Physicians were in vain, and she stendily grew worse. Her jaws became fixed by long disuse, and she could not speak. One day, when particularly despendent, a physician having just told her that she could not recover, she read in her Bible the text, "All things whatsoever ve ask, believing, ye shallreceive." She had faith in that Scriptural promise, and she prayed fervently that she might be miracdonsly cured. Suddenly she was able to move her jaws, and to speak. She got up and walked without difficulty, and has been well ever since. - John D. Forrest died at New Castle on
