—Neighbor James, of the Herala, thinks he has got a sure thing on the post-office, now that Hayes has been counted in. Well, maybe he has, and again maybe he hasn't but if there is to be a change in that direc-tion, which is certainly not demanded from any lack of courtesy or efficiency in the of Blair, Bedford, Cambria, present management, we know of no one we would rather see "hold the fort" than neigh-

-The defeat of John A. Blair, Esq., for Assessor in the West Ward, it is proper to say, was due to the fact that the Democrats were led to believe that no Assessor was to be elected this year, and as a consequence made no nomination for that office; and when they discovered their mistake, if a mistake it be, which we have our doubts about even yet, the polls had been open for several hours and many Democrats who would have voted for Mr. Blair had already

deposited their ballots. -A weak-minded man named George Davis entered the office of Denniston, Porter & Co., at Hollidaysburg, on Saturday last, and presenting a pistol at Mr. Denniston, and presenting a pistol at Mr. Demission, demanded pay for work which be imagined he had done for the firm. THE CATHOLIC WORLD FOR MARCH .-THE CATHOLIC WORLD pursues its policy of giving prominence to some subject of immediate and general interest, and treating it in a manner that communds attention. Of all powers in the world to-day Russia is one of the most interesting, one destined to affect in a large degree the future of the world, yet one of the least known. The ar--Rev. Father M'Cort, who for nine ticle entitled "The Russian Chancellor" months past has been filling the position of will help greatly to lift the veil that enshronds this mighty Empire. With singular skill, clearness and force the writer has massed together the chief events which have made Russian history in the past and in the present. The present attitude and policy of Russia he ascribes chiefly to Prince Gortchakoff, the aged Chancellor, under week past to large and appreciative audiences at the Disciples' church in this place, trieved the losses she sustained in the Crimean war. Most interesting, too, is his view of the relations between Russia and Rome in the past, their probable relations in the future, and the political duel between the two Chancellors-Bismarck and Gortcha-Striking and bold, from the Catholic stand-point, is the manner in which the possible success of Russia in the East is regarded. The CATHOLIC WORLD takes a much more hopeful view of such an issue than is generally ascribed to Catholic writers .-

'English Rule in Ireland" is another powerful article, wherein history is splendidly condensed to elucidate principles. A future paper on the same subject is promised, and will be looked for with attention, as giving the brighter dawn of one of the darkest nights in history. "The Similarities between Science and Religion" deals in a livelier manner than is customary with the lit-erature of atoms. "Up the Nile" is a second paper, bright, pleasant, and chatty like the first. "De Vere's 'Mary Tudor' " is an appreciative review of a noble and strangely neglected drama. "A Bird's-Eye View of Toledo" must have been written by a very wise as well as witty old bird. It is one of those brilliant semi-historical sketches of famous cities, as they were long ago and as they are to-day, of which the CATHOLIC World has given us so many and all excellent. "Some Quaint Old Cities" is another dip into the pleasant past, showing that the north no less than the south of Europe is indebted to Catholic days and Catholic minds for much of their beauty and historic memories. The "Letters of a Young Irishwoman" go on as gracefully as ever, and "Six Sunny Months" continue sunny. "The Great Strike at Errickdale" is a strong though sad story, written with strange power. "Modern Melodists" discusses Schumann chiefly. Poetry is well represented in "Longings" and "A March Pilgrimage." The present number ends the twelfth volume of this magazine, which seems to grow

BALLOU'S MONTHLY MAGAZINE FOR MARCH. - A very interesting and delightful number is Ballon's Magazine for March. It opens with an elaborate illustrated article on Japan, and then follows several other engravings, and then comes the stories, just what will charm a honsehold ; for all of them are good, and many of them superior to anything published in this country. There are charming love stories, some nice adventures, one capital sea yarn, and poetry well worth reading. Take it all in all we feel assured that there is no magazine in this country that furnishes so much for the small amount of money as Ballon's. For only \$1.50 per year, or 15 cents single copy, an immense amount of reading can be obtained. Here is the contents of the March number: "Japan and the Japanese;" "The Locust;" "Elsie's Suc-"Victoire : or, The Turns of Fortune's Wheel;" "I Love Her;" "A Social Chang and Eng;" "Deborah Drake's Gloat Story;" and Eng; "Deborah Drake & Gloat Story;

SINGULAR CIRCUMSTANCES.-The cur rnt issue of the Tyrone Herald furnishes us with the following interesting item of information: Many of our readers, it says, will remember that Lewis Gonyer was sent to the penitentiary, about eighteen months since, for a term of seven years, for an outrage upon the person of a little girl, near Philipsburg. Two or three weeks ago Gonyer died in prison, and, when the news reached his wife, she remarked: "I believe I'll go up stairs and die too." She went up stairs, and some time afterward was discovered in bed, cold and lifeless. She had been suffering from a cold, but no one considered her case serious. No one can tell what was the real cause of her sudden death, as she had avowed that she would never again live with her husband, and considered herself as free as though she had never been mar-

me not a little.

1. They allow 5 per cent. commission on \$23.—
28. the amount charged the county for 94 deeds of unscated lands. Who ever heard of a commission being allowed a Treasurer on deeds?

2. They allow him 5 per cent. on \$86.86, exonerations on duplicate and registry, a sum he ever received nor paid out.

3. They allow him 5 per cent. on \$2,702.06, exonerations to constables, a sum he never re-ceived nor paid out.

4. They allow him 5 per cent. on \$804.05, com-missions to constables, which he never received nor raid out.

5. They charge him with \$820.84, being the 5 per cent, added to taxes when placed in the hands of constables for collection, yet they give him credit for \$34.05 commission to constables, being \$43.21 more than charged.

6. They allow him 5 per cent. commission on \$3,917.35 and 3 per cent. on \$3,952.35 - a total of \$2,759.46 - making the total sum paid out by him \$56,970.30. They put it that this 3 per cent. is on unseated land taxes, whereas it is only on the amount of unseated land tax paid to school treasurers and supervisors (\$3,952.35, as will be seen by the account) the total amount of un-scated and scated land tax paid to him in his office, and in which he had no trouble or reconsibility going about the county to collect.

have been allowed.

By their own published statement the Treasurer appears to have paid out only \$53.62.05.65, instead of \$56.970.30, the refere they have allowed him 5 per cent on \$3,946.25 never paid out by him; this per centage amounts to \$197.31. STATEMENT OF MONIES PAID OUT :

Total amount charged to Treasurer..... \$75,045,98 Deduct 94 deeds to county at 293.28 Deduct exonerations on duplicate and registry. ... 85.86
Deduct exonerations to consta-abatem't to taxpayers, 2,040.93 amount in constables' for 1876. 2.041 20 Deduct Treasurer's commission 2,709 45

On this sum he is entitled to a commission of 5 per cent, on the amount he collected in the various townships and boroughs in the county 

collected by constables and received from miscelaneous sources, ail of which was paid to him in his office. Amount of per centage should have been allowed..... been allowed \$3,418.72 Amount silowed by Auditors. 2,769.46 Over allowance to Treasurer..... \$350.74 This extraordinary allowance to Treasurers was first made in January 1875, to ex-treasurer Criste, when Messrs. John H. Fiske, Michael Sweeney and H. P. Freidhoff were Auditors. They gave Mr. Criste an over allowance

The present Auditors gave Criste for Loss to the county in three years .... \$1,183 14 The statement of assets includes only the amount of taxes in hands of constables for 1875

amount of taxes in hands of constables for 1875 and previous years, to which should be added the amount in their hands for 1876, being \$2,041.20, which would leave the assets of the county over the liabilities \$9,331.96, instead of \$1,790.76, as they state it.

And as the county has over eleven thousand dollars cash on hand why not pay off the \$2,900.00 of county bonds and save the interest at the rate of \$174.00 per year.

If the published accounts exhibits the above errors, what arrors may not the account to the books show if examined into.

The court should order a re-audit of the accounts for 1874, 1875 and 1876, and have all er-

serv d in county as well as in state and national affairs, and my party would be derilect in its countability for their extravagance and point out the true method of reform—a reduction of sainries when it can be lawfully done. Previous to the adoption of the new constitution there were complaints made by the Re-publicans with reference to the commissioners, any very solid reasors, but under the new in-strument, when the minority are entitled to a representative in the Commissioner and Au-ditor offices. I had supposed that everything would be lovely and satisfactory and more economical but the result has proved that ex-

travagince is the rule.

1 write this communication merely to show the mx payers the manner in which their moncy is mis appropriated, having no personal or other motive so far as the commissioners and auditors are concerned.

As I am opposed to anonymous articles I append my name.

TROUBLESOME CHRONIC DISEASES ... There are multitudes of Chronic diseases which beset and affilet hundreds of our readers, which in a vast majority of cases, are easily within the reach of cure. The class embraces so many maladies that it were tedious as well as useless to name most of them -Dropsy, Scrofulä, Rheumatism, Old and Stubborn Ulcers and Fever Sores; Neuralgia,

Harid-aches, Contracted Limbs, all, or most of was bard, by proper treatment, curable. Consumption, Skid Diseases, Liver Com-plaint, Chronic Diagness, Piles and Fistula make up another class, equ. iv remediable under the improved methods of p. lieine, which deep research into its hidden powers have brought to light. It works like a charm in all cases of Consumption, Pneumonia, Hemorrhages, Asthma, severe Coughs, Croup and all other Throat and Lung Diseases. No person has ever used this medicine without getting immediate relief, yet there are a great many poor, suffering, skeptical persons going about our streets with a suspicious cough, and the voice of consumption coming from their lungs, that will not try it.
