Noted in both public and private life for his unswerving integrity and all those sterling virtues that ennoble manhood, Dr. Pierce ranks high among those few men whose names the Empire State is justly proud to inscribe upon her roll of honor. UTOPIA, March 4, 1878. DEAR MR. EDITOR—Having lately taken a lit-tle trip through a portion of the western part-of our State for the purpose of recaperating my health, which has been somewhat shattered health, which has been somewhat shattered in the effects of arluous labors. I would from the effects of artifolds into it. I would felgin express, through the medium of your journal, the feelings of delight which I experi-enced in some of the localities which I visited. I note a pince of less importance, but more quietness, where I enjoyed myseif with untoid contentedness. Mr. Editor, on last Sunday I had the pleasure, to me an exquisite one, of being present at divine service at St. Bartholomew's church, Wilmore, in your county. As the town is on the wayside, and is of little commercial consequence, I will not venture a description, but will give vent to my feelings as to the religious character and attractions of the place. Dear St. Bertholomew's! with what feelings of by-gone days—many of pleasure, some of sombered aspect—did I behold your beautiful spire and enter your sacred portals! But why dwell on the day. But why dwell on the days that are gone and the thoughts they inspire! As to the church, the exterior, which appears to advantage from the P. R. R. is a beautiful, well-proportioned structure, being in dimensions 115 by 55 feet, and standing on a most commanding location, with its commanding present. with its commodious parsonage in the reat The interior of the church, alth claborate, being of the most approved Gotbic style, still has a closte simplicity awakening in the beholder feelings of religious admiration. In a word, the church, both interiorly and exteriorly, shows forth not only the skill of the architect, but also the Zeai, picty and good taste of the present incumbent. Everything appears to me to be in the best taste and order. The altar is appropriately filed and chastely adorned with richest ornamentation, while everything in and around the sanctuary is eniculated to inspire devotion. It is almost a sure evidence of a devoted, saintly priest to have the house of God in good order. Although from my re-marks about the church the character of the good Father McHugh may be readily inferred, still I am constrained to give him a passing word of praise.

Father McHugh is a native of the parish over

which he exercises spiritual jurisdiction. He has had charge of the congregation some five years, and its present advanced spiritual condition attests the efficiency of his zealous labors. He is now in the prime and vigor of life, and to all appearances destined to continue his useful labor in his Master's service for many, many years to come. So may it prove to be, As toyears to come. So may it prove to be. As to-wards his people he is kind and zealous, so to his friends who may chance to test his hospita. ble worth, he is urbane, whole soutied and ex-tremely generous. I speak from experience. I had the extreme pleasure of hearing from bim what may be justly called a good and prac-tical sermon, going straight to the heart. This I call true pulpit eloquence. There was no beating the air, no tinkling symbol, no sound-

beating the air, no tinkling symbol, no sounding brass.

The good Father understands the spiritual wants of his people and knows how to supply them. A good pastor and a good flock—the pride of Wilmore.

What shall I say of the music? St. Bartholomew's church can fairly boast of a good choir, as last Sunday's music promistable process. as last Sunday's music unmistakably proved.

More than that I need not say.

the wild hunt after office in which we are so earnestly engaged could ever have tempted us to forget our innate modesty long enough to give place to the following kind Altoona Keening Mirror, who has piled it on so thick and strong that we are almost tempted to believe it was not ourself at all he had in his mind's eye when he gave vent to his feelings in this wise:

Our esteemed friend and fellow journalist, H. A. McPike, of the Cambria Freeman, wants all his political friends to understand that he does not intend to strike his colors even when he dies, for he expects to run for after until he makes it, if he has to make his Bob Ingersoll will never more trouble virtuons and religious editors. Jesting aside,

Mac. says: We don't know who originated the rumor that we had withdrawn from the contest for County Treasurer, but we are assured that such a ru-mor was prevalent at Gallitzin, and probably elsewhere, only a few days ago. It is proper to say that there is no truth whatever in the alleged withdrawal, our intention being to light it out on that line "until the last armed foe expires," unless it should happen, which is not at all improbable, that we should have to do a little expiring on our own hook before the other twelve or fifteen candidates have all received

their final quietus. There is no use talking, Cambria is booked to elect a Democratic treasurer every time, and this being the fact, nothing but the basest ingratitude can push aside the claims of Mr. McPike. He has fdone more for his party than any man in the county and de-serves recognition. We hope to see him make it, as he is a good fellow, a genial gentleman, an honest and capable man. Our Gallitzin friends may paste this in their

BUBOUCCELE, OR RUPTURE. - Over forty years experience in the application of trusses and the treatment of RUPTURE has enabled me to do the best that can be done in any such cases. I make and apply trusses which will always hold in a rupture or breach of any kind, and located in any part of the body. In a large number of cases I can effect a thorough and radical cure. there that will linger through life with this dangerous deformity when such assurances of safety are offered? No one. In cases of when the benefactors of humanity were al- children, a cure can always be affected, as well as in the cases of females, although the disease is as one to five in that of the other day, the benefactors of the people-the men sex. I likewise treat, successfully, every who devote their lives and energies to the disease of deformity and weakness needing outward supports, as well as chronic diseases of a difficult and stubborn character. "GERMAN STRUP,"-No other medicine in the world was ever given such a test of its curative qualities as BOSCRE'S GER-MAN SYRUP. In three years two million four hundred thousand small bottles of this medicine was distributed free of charge by Druggists in this country to those afflicted with Consumption, Asthma, Croup, severe Coughs, Pneumonia and other diseases of the throat and lungs, giving the American people undeniable proof that GERMAN SYRUP will cure them. The result has been that Druggists in every town and village in the United States are recommending it to their customers. Go to your Druggists Lemmon & Murray, Ebensburg, and ask what Regular size 75 cents. Three doses will relieve any case.

WE have cured some of the worst cases of scalding by hot water and steam on record. By taking cold, the burns of the sufferers had become aggravated, and being over the vital parts, the case seemed absolutely hopeless. We used E. K. Thompson's Great Healing Ointment as directed, cleansing the angry looking burns by dipping a sponge in warm Castile soapsuds, and squeezing it over the sores until thoroughly cleansed, then spreading the Ointment on a thin piece of cloth, and laying it gently on. This treatment was kept up for two weeks or more, and in a month or six weeks the patient was out doors as well as ever.

Prepared by E. K. Thompson, Titusville, Pa., and sold by Lemmon & Murray, Ebensburg, Price, 25 cents.

PLOER TWP., March 5, 1878. DEAR, FREEMAN-In reading oret the col-umns of your valuable paper I found a com-munication signed "A Would-be Union Man." in which the writer tries to be very witty and sureastic, but he certainly fafts short of either. sarcastic, but he certainly falls short of either. We are well aware of the fact that this detectable dish was partially cooked in St. Bonface, and then taken over to Carrolltown for the proper spicing. The gentleman having it in charge, but possessing the necessary brains to make it paintable enough for your numerous readers, secured the services of a gentleman of that village to paint in a particular that village to paint in the particular that village to paint in the particular that village to paint in the particular that that village to paint in the particular that that the particular that the that village to put it in proper shape. He says the election passed off very quietly. That is very true, and if there was any undue excitevery true, and if there was any undue excitement before or after the election, it was among the Union men themselves, for certainly the Elder men were cool and perfectly composed, well knowing that all differences of opinion would be made right at the proper time. As to the petition having been stolen or kept out of the hands of Jas. C. Fasly, Esq., till after the adjournment of the Argument Court, we assuredly have no knowledge, but we do know the Union petition was duly mailed by Mr. Thos. Out at his post office and received at the Carrolitown post-office. Now, the question arises, who lifted (bis petition out of the office. Was it James C. Easly himself, or was it some Was it James C. Easty himself, or was it some one, among his friends who are in the habit of litting his mall matter that took it out and held litting his mall matter that took it out and held it till after the adjournment of the Argument it till after the adjournment of the Argument Court, and then (courningly, for a joke on friend Easly.) mailed the petition at Eoensburg back to Carrolltown?—or did the P. M. at Carrolltown to Carrolltown? - or did the P. M. at Carrolltown in his hurry in changing his mail, send it on to Ebensburg? Such mistakes not unfrequently occur with the best of post-masters. We conclude that this petition has been manipulated in one of these two ways, though our friends lay the aforesaid piece of rascality, as they call but the decrease the Edge ways. t, at the doors of the Elder men; yet, as our old friend Fritz would say, "The Union men they sit all de times; but ovar a whiles the Eder men sit not a tail." That all the officers elected on the 19th ult.

are good men and true we freely admit, and the only fault we have to find with the citizens of the new township is in nor re-electing Mr. Paul Yahner as School Direcor, he being one of the foremost and best qualified citizens in

the township.
As to Dr. Pillsbury's quack nostrum plasters, the Elder men are not in need of any of them, but advise him to apply a few of them to the mouths of some of his brawling friends, especially the "Would-be Union Man," in hopes that they might have the desired effect of stopping some very windy holes, which are becoming rather too numerous in this latitude. We hope, however, that our Union friends become reconciled to their fate, and that in harmonizing henceforth with

fold they may succeed in making themselves as happy and contented as any Elder in the faith. Come, ye sinners, poor and needy, Weak and wounded, sick and sore; Come to the living waters of Elder,

PROOF THAT ADVERTISING PAYS. The American public is familiar with the Advertising Agency of Geo. P. Rowell & Co. If any firm doing business on the continent can afford to "move on" with a SPLENDID reputation through these hard times, this would seem to be the one, It is advertised by an appreciative newspaper fraternity very largely without charge; yet, in view of all these facts, the list sent us for use next month, for which they pay us a fair price, in money, per inch, is devoted largely to their own business. The order takes us somewhat by surprise and it would reassure us if we were disposed to doubt the wisdom of rushing business through the hardest times. We add for the benefit of the Thomases who may read that Geo P. Rowell & Co. come ne rer knowing all about the advertising business than any other firm, having handled millions and millions of dellars thus appropria-ted. Another feature worth noting is their iber-ality with. "Uncle Sam." They have doubtless expended more money for postage during the last quarter of a century than any other firm in the United States.—Chattan.oogs Times.
