> A REMARKABLE CASE .- The Mt. Pleasant Dawn of Wednesday last tells a very singular story, as follows:

On Monday we received the following informon Moninay we received the following Inform-ation from a gentleman from Pleasant Unity concerning the death of Mrs. Catharine Armel, which took place on Thursday last. Mrs. Ar-mel had been confined to her bed for some time, and her physician gave up all hope of her recovery some days previous to her death. Sae expressed a desire that a post mortem examination be made, for she believed that her physi-clan did not fully understand her disease, and

that an examination might prove of interest to the medical profession. Accordingly, on Thursday afternoon, Drs. L. Brown, L. T. Smith and Thomas Bair made a post mortem examina-tion of the remains. They discovered that the spleen was surrounded by three bairs, one white and two black the black holes bairs, one white spleen was surrounded by three bairs, one white and two black, the black hales being very long. The bairs were wrapped tightly around the spleen, as if they had been pisced there by hu-man hands. It is said to be the most singular case on record. Willsome one of the physicians rise and explain? Mrs. A., before her death, made all the necessary arrangements for her burtal, having ordered her coffin and selected the grave-digger. the varied forms of disease which depend upon bad blood are cured, or best treated, by such medicines as take up from this fluid and excrete from the system the noxious elements, it is not of practical importance that I should describe each. For instance, medical authors describe about fifty varieties of

skin diseases, but as they all require for their cure very similar treatment, it is of no practical utility to know just what name to ap-ply to a certain form of skin disease, so you know how best to cure it. Then again, I might go on and describe various kinds of scrofulous sores, fever sores, white swellings, enlarged glands, and ulcers of varying appearance ; might describe how virulen; poison may show itself in various forms of eruptions, alcers, sore throat, bony tumors, Decker, who located in this place a few months etc.; But as all these various appearing ago. ay about us when our back is turned : LILLY'S, April 1st, 1878. DEAR FREEMAN-As it does not often occur

MISS ELLES ROOT, of Beccaria township, this county, has just completed a quilt contrila-200 pieces. Were about to say that this wor that your readers find an article in your valu-able paper headed "Lilly's," I thought I would be hard to beat, but here comes McPike will devote a little time to writing up a few items of more or less interest. The first event to which 1 will refer is the advent of Dr. S. H. the Cambria championess, Miss Dunegan, who made one qulit with 6,400 pieces, another con-taining 7,400, and a third having [tell if not in Gata II 20,450 pieces]. That, of course, is one of Mover-cel Pike's fish stories. THE Bellefonte papers mutually charge each

he has been here, secured a very large practice and has performed several very difficult opera-tions, one of which was performed on the body of Mr. George Smith, an aged gentleman, who was severely afflicted with hydrocele of dropsy of the scrutum, taking from him three quarts other with stealing thunder. If they have any spare thunder over that way they ought to forward it to the legal heir, McPike, of the Free-man, who is known to be a regular old frosty son of Thunder, and would, no doubt, be highly pleased to see the old gentleman.

THIS is what the Osceola Rereille has t

of the scrotum, taking from him three quarts of water, which gave him immediate relic. It was thought at the time that there might have to be another operation performed, but the old gentleman improved so rapidly that it was found unnecessary. Another was the cutting and straightening of the feet of a child of Mr. Peter Risban, born with club feet. In the last operation Dr. M. H. Davis, of New Florence, Westmoreland county, assisted. I could enum-crate several other operations, but do not when to becker to any afflicted person in the coun-ty as a very skillful and strictly reliable physi-cian. MR, BUCK, eashier of Collins, Johnston & Co.'s bank, presented to McPike, of the Cambria Freeman, a new silver dollar. That was all right, as Mr. Mc, no doubt needed the morey, and it would be the proper thing for other cash-lers to emulate Mr. Back's example.
