EBENSBURG, PA.,

January last, arrived at San Antonio, on He was an uneducated man, but possessed the Madeira river, the point at which the of an unlimited amount of check, which, in 28th of February.

THE State Senate adopted a resolution last week, which, if the House concurs, authorizes the appointment of screa Senators to inspect the fish-ways at the Columbia dam, and the hatching houses near Marietta, and appropriates one thousand dollars to pay their expenses. Something similar to this takes place at every session, and is a very fishy business. These seven wise men of the Senate will travel about thirty miles on the Pennsylvania Rail Road, over which every one of them has a pass, will have a good time of it generally, and will know as little about the mooted question of a fish way at the Columbia dam when they return as when they started. It is simply infamous in times like the present in this reckless manner, but it is in perfect . keeping with the whole course of the preseut worthless Legislature.

-----A session of the Legislature of one hundred days is estimated to cost the State \$550,000. At the end of that time the present R-publican Legislature had passed precisely fourteen bills, and eleren resolutions, and, on the basis of the estimate above stated, each one of these bills and resolutions cost the State the modest sum of twenty-two thousand dollars. This is a pleasant picture for the taxpayers of the State to contemplate, and yet, at a caucus held last week by the Republican majority. until the 24th of May. This will entail an additional expense on the State of nearly a quarter of a million of dollars. There being no remedy for this, the people, to use a common phasy, must simply "grin and bear it." If the act of Assembly, instead of allowing the members ten dollars a day after the expiration of one hundred days, had fixed it at three dollars, all the important and really necessary legislation would have been disposed of and the session brought to a close before the 10th of April. It is the per diem that has caused all the mischief and placed the Legislature in its present unenviable position. ------THE inventive genius who writes letters man is about as competent as another to from Harrisburg to the Philadelphia Times speaks of "the defeat of Hopkins in Camcratic popers in Groens ourg declaring that they are strongly in favor of Hopkins. -----IT has always been a matter of grave doubt, not only among civilians, but in army circles, whether great injustice was not done to General Fitz John Porter by his conviction by a military court, and his dismissal from the army, on a charge of having disobeyed an order of General Pope, who fought and lost the second battle of Bull Run in 1862. On two or three occasions General Porter has carnestly, but nusnecessfully, appealed to the proper source at Washington for a review of his case by a military board, on the ground of new and important evidence bearing on it which was not obtainable by him at the time of his trial. On the 9th of March he sued detailing Major-General John M. Schofield, Brigadier General A. H. Terry, and Col. G. W. Getty, with Major Gardper as Recorder, as a Board, to convene at West Point on the 20th of June, to hear Gan. Porter's new evidence, and to report what action, if any, in their opinion, justice requires should be taken on the applieation for a review of the case. In his let-

At one time he ex-THE Philadelphia Record, in referring of New York, controlling its government, to Blaine's opposition to Judge Thorman's its elections, and at least two of its Courts, bill, which passed the Senate last week, all by the corrupting influence of patroncompelling the Pacific Rail Road compa- age and money. He bought up the Legisnies to secure the payment of the amount lature of the State, whenever he wanted it, advanced to them by the Government, with as much facility as a man can pur-calls him "a twisty statesman," and ma-chase a drove of cattle or sheep, and he

from the rich taxpayers. Of course such a career of fraud and villainy must end in dishonor and disgrace, as it has done in the case of New York's great "Boss." Although Tweed is dead, Tweedism is not, and there are few cities or large towns in the country that are not robbed and plnndered by smaller Tweeds, and in the same way that he fleeced and plundered the people of New York.

----It is said to be the intention of the leadiug managers of the Greenback or National to waste and squander the people's money of Lycoming county, for Governor, Judge party. The main purpose in forming such to escape the responsibilities and cares of maa ticket is to compel the Republican State convention to acceptArmstrong and Agnew, convention to acceptArmstrong and Agnew, fessional both of whom are as strong Republicans as Hoyt and Sterrett, the prospective nominees of the Cameron ring. The only possible obstacle to such a coalition between the Republicans and Nationals is a fear on the part of Cameron that the fusion might ally true of the married women, who have a return a Legislature of such a mixed char- prompt obedience to the laws of God and nature acter as to endanger, if not defeat, his reelection to the Senate. To sacrifice Sterrett it was decided not to end the session finally for Agnew might produce very unpleasant results in some of the Allegheny county legislative districts, and for that and other first considerations, if Armstrong and Agnew should be nominated, they will not be accepted by the Cameron crowd. What by means of legislation, the power of the put Cameron wants, and what Mackey, Quay & Co, will exert all their dark ways to secure, is a straight Republican Legislature under the present infamous apportionment bill. Cameron would of course then become his own successor, but with a Greenback legislative ticket in the field in every district in the State, his chances would be desperate. With four State and county tickets to be voted for in November, one

The following from the editorial columns THE SECRET ORGANIZATION WHICH MAY

"Boss" Tweed, as he was familiarly called. presents a picture of sin and shame that is

The crime of abortion, in view of the extent s revolting crime is carried may be derived in the pecuniary prosperity of one of its in of dollars, though for many years she ercised almost imperial power in the city had lived in an extremely hazurious and exrefarious profession probably amounted to several millions, and her husband, who was a professional perpetrator of this crime, had also massed a considerable fortune. They lived in linest regal magnificence and their patients or patrons in many cases were married women moving in the bast society-wives who were upwilling to devote any time or attention to Eciously adds : "It would be a new thing never stopped to count the cost, for he was cridences of their shame. But, though Midam and a surprising thing to find Mr. Blaine plundering the city treasury of millions festional abortionists of New York, they were not alone in their infamous business. Hunon one side of the question, and a strong through fraudulent contracts, and in other deeds of others in a minor way were and are dobby with plenty of money on the other dishonest ways. As a public plunderer we know of only two men who excelled him-Lating Course in appoint and Lord Cling in Julius Caesar in ancient and Lord Clive in majority of them succeed in keeping their crimes concealed, and the infernal work by which they thrive goes on from day to day and liberal to the poor, as he was, because every dime he gave them had been stolen defined of adult victims of her maipractice must have been numbered by thousands, and the thousands of others who are plying the same devilish vocation are thus annually perpetrating thousands of secret murders. Not or lirect way did the Restells commit murder but indirectly by means of medicines and through advice contained in circulars sent to their customers, and no doubt others of their accursed calling also commit this crime indirectly as well as by their immediate action. -The prevalence of this enormity is a foul blot upon our civilization and upon the age in which we live. In pious New England, where more religion is preached and less practised than in any other part of the country or Christendom the decrease of population is attributed by the statisticians and the few sincere moralists of that region to the prevalent practice of abor-tion and it is gravely argued and asserted that the gaining of the Catholic upon the Protestant population in Boston in particular, and in New party to nominate William H. Armstrong, of Lycoming county, for Governor, Judge Agnew for Supreme Court Judge, and to select for Lieutenant Governor and Secre-tary of Internal Affairs two persons who have heretofore acted with the Democratic churches habitually resort to criminal means
