As the delegate election approaches the political field is being well harrowed and furrowed and will surely be ready for planting by the time the convention meets, it would take a prophet and more than a prophet to foretell the names of the candidates who will be select-

JEWELS OF THE CROWN OF SCOTLAND -At Edinburg, Scotland, some years since, the Jewels of the Crown were locked in a box, that box in snother, and so on, until they were supposed to be barglar-proof. -They were then locked up in the vault of the castle, there to remain for one hundred years, the keys being placed in a mortar and fired into the sea. Scarce fifty years passed by, and the modern lock-picker opens the vault and boxes without trouble. So the science of medicine when studied with the aid of chemistry and the microscope, becomes plate and simple, and diseases that were regarded incurable a generation ago, now readily yield to remedies employed by the modern and progressive physician. A decade years since, and women were taught to believe that their peculiar diseases were incurable; but now hundreds and thousands of once bedridden women in the United States will testify to the fact that Dr. Pierce's Favorite Prescription has effected their perfect and permanent core.

Ever gratefully yours, GEO. BOBENMILLER. "Habit" is hard to overcome. If you take off the first letter it does not change "a bit." If you take off another you still have a "bit" left, if you take off another, the whole of "it" remains. If you take off another, it is not "t" totally used up.
