CARROLLTOWN, Pa., July 23, 1878. DEAR PREEMAN-Now that the winter of poifical discontent has come to an end, temperance is getting to be the all absorbing topic of the day. And quite in accordance is it too with the laws which nature has set up for her preservation, for as the soil, after three or four menths of hard freezing, is again in fit condition to bring forth good crops, so Carrolltown and township after the preservation. and township, after the unexpected "freeze" at the late convention, have become fertile fields wherein the friends of the temperance fields wherein the friends of the temperance cause can scatter seed and wherefrom they can expect to reap a plentiful harvest. The T. H. T. A. S. is still doing a thriving business in the good cause. The number of its members is rapidly increasing, and now that it has rented Mr. Wirtner's large hall, it will doubtless have constantly on hand a full supply of lectures, addresses and entertailments wherewith to treat its thends. Letter from California.

TURLOCK, Stanislana Co., Cal., FRIEND McP.-I have just exceived the sad rews of your defeat by an ungrateful people, for which I am proloundly stry; yet I am alad that you are not alone, but that soveral other aspirants were decapitated at the same time.
