### WESTMINSTER ABBEY

#### ITS MONUMENTS AND TOMES.

A writer in Appleton's Journal for : tember says of Westminister Abbey : the celebrated monument to Sir Fra-Vere, beneath which he seems to be alor ing, four kneeling knights bear up a s upon which his armor is laid, and the fi of one of them is so life-like, as he look at you with parted lips, that Roubilins said to have once wispered, "Hush ! how ne will speak presently." Shakespen leans in Poet's Corner, musing of "ele clapp'd towers and gorgeous palaces' "the baseless fabric of this vision." Hat is looking up, with an exquisitely-chise ear, in rapt attention to an angel play

Addison is in his dressing gown steppi is thrown aside a cortain with air. So everwhere you may happen cast your eyes. Lady Walpole, as i figure of "Modesty," stands in Henry VI. hapel. Mrs Siddons looks the "Trag Muse ;" Kemble is in the character "Cato," James Watt, a gigantic first James Watt, a gigantic figure in one of the chapels, is engaged with pair of compasses, forming designs. Sil Isaac Newton, in the Nave, is lying with his arm on some heavy folias, and pointing to a scrott. Earl Stanhope, on the other side, also recumbent, is reolining upon his arm. Crages, n one chapel, is leaning on an urn. The Duchess of Somerset, in another, is gazing ap at a group of cherubin. The Baron of Cinsale is reposing under a canopy. So is SirCloudesley Shovel. Admiral Tyrrell is rising from the sea, General Hargrave is struggling from the tomb, while Time is engaged in breaking the darts of death over his knee. On Sheffleid's monument Time is bearing away his children. The Norris family are in attitudes of prayer, one of them gazing cheerfully upward. Sir G. L. Staunton is expounding the law to an Eastfindian. Sir R. Pecksall and his two daughters have risen from their couches to fail on their knees. Lord Russel is reclining with his face toward the spectators, but his daughter is scated erect u a chair, pointing to a skull at her feet. Lord Burleigh, an aged man, is down on his knees in his robes of s ate, with his family near in splendid attire Dr. South is recumbent in his robes. Dr. Busy, with a pen in his hand, seems to be criticia ing his own epitaph. Sir George Hollis stands erect, in the costume of a Roman general. For is on a mattress in the arms of Liberty, with Peace reclining on his knee and an emancipated slave close by. Lord Mansfield is presid. ing in court, with Justice and Wisdom on either hand. Canning is making an oration in the north transept. The Earr of Chatham is gesticulating near the door. Wm. Pitt, in the robes of the Chancellor of the Exchequer, is speaking with great animation at the end of the nave. Wilberforce lounges back in a chair, with one leg crossed over the other. The figure of Fame is very active everywhere. Even Death itself makes a terrific intrusion upon the scene by burshing out from behind the folding doors at the base of a well known monument, and aiming his dart at one of the affrighted figures above it. I gave these examples in such number as much for their curious interest and variety as for their descriptive effect in sugdon't on any account whatevor, let that gesting the universal aspect of life in the Abbey. BE SOMETHING, -It is the duty of every one to take some active part as actor on the stage of life. Some seem to think that they can vegetate, as it were, without being anything in particular. Man was not made to rust out his life. It is expected that he should "set well his part." He must be something. He has a work to perform which it is his high duty to attend to. We are not placed here to grow up, pass through the various stages of life, and then die, without having done anything for the benefit of the human race. It is a principle in the creed of the Mahometeus that every one should have a trade. No Christian doctrine could be better than that. Is a man to be brought up in idleness ? Is be pledged his word that it should make a to live upon the wealth which his appendent of the bave acquired by frugal industry. Is he placed here to pass through life an automaton?
