ALTHOUGH a Greenbacker was elected to Congress last week in the Indianapolis district, and also two in Iowa, it must not be inferred that these results were brought about purely by the votes of Greenback men. Each district was strongly Republican, and the Democrats made no nominations, but as a general thing voted for the Greenback candidates. If they had not done so, but had voted for men of their own party, there would have been no Greenback Congressmen elected in either of the two States. With Democrats it was a choice between two evils, and they chose the least.

THE Denver (Colorado) News, speaking of the vote at the late election in that State, says that every Democratic convert to the Greenback party voted the straight Greenback ticket, while the Republican proselytes of the new organization marched to the polls and voted solidly for the Repub. lican ticket. This nice little game was likewise played in Ohio at the election last week, and after it is re-enacted in our own State, in November, the Democrats who are now innocently training with the Greenback crowd will discover, only when it is too late, how completely they have been duped. One would suppose that the result in Colorado and Ohio ought to cause them to open their eyes, and to see the trap Philadelphia by any such red tape process. that is prepared for them.

THE true character of William Lilly, the eadet broker of Washington city, and the witness of Jacob M. Has his character improved any since that eventful period?

ALWAYS taking it for granted that every Democrat who is worthy of the name will support the county ricket, and thus preserve the organization of his party nebroken, we have not deemed it all necessary to make any urgent appeal in that direction. We have no sort of patience with men calling themselves Democrats who will attend the delegate elections and afterwards oppose the nominations which have been made by their own selected agents. As a general rule, a county convention is a lottery in which political prizes are to be drawn, and no man will dispute the fact that the present county ticket was as fairly and honorably nominated as county tickets asnally are. After the county convention had performed its work, it was not a question who ought to have been nominsted for the different offices, but who were. The path has been made plain by 30th of September, 1878-two years and the action of the convention, and no Dem. some mouths-116,088,525 copies of the ocrat ought for one moment to think of doing anything eise than his bounden duty the time, with a weekly circulation of 85,- owner first learned of the sale when the by giving the ticket made by the conven 800. His testimony would not be taken in a court of justice, and his evidence where he is known is damaging to the party who pays him. He is not one of the lillies of the valley, but a lily livered har. He is in short a notorious dead beat. And the assertion that he was or is a Democrat is as big a lie as Lilly is himself.

But last week's publication in the Democrat

stantial fruits of their devotion. In Ohio we have elected eleven members of Congress, a gain of three; but, while in a pitiable minerity of the whole popular vote, the Republicans have elected their State ticket by a small plurality, through the folly of our own people. A sufficient number of Democrats wandered into the Greenback organization to secure the defeat of their old faith and the temporary success of their relentless foe. The Republicans who pretend to be Greenbackers betrayed their professions, and at the polls deserted their new party. > THE CANADA TRISTLE -The Carlda thistle, as it is called, is a good pest and a great injury to the farmer It multiplies immensely every test How to get rid of it is a problem !solve which is worth thousand Several agricultural journals give the following method. Will any factors adopt it and get rid of this introle and curse? Cut off the thistle, at the its growth-the time of perfecting its seed. Let it remain during the season up to the time undisturbed, and alou its greatest vitality is in the week which is the time of flowering cut i off. The roots are then in an exhausted condition, having contributed the vitality necessary for the plant to mature its seed. The lost vitality is returned to the roots through the leaves from the atmosphere, and when the plant is destroyed the roots are left without the means to recuperate Possibly there may be enough vitality for the roots to throw up some new case, cut them off during the fall After this treatment, if you have say thistles the next year, there will be fewer of them, and another application of the same remedy will probably entirely relieve the farm of this terrible nuisance.
