

FRPD:1%, - - FEB. 7, 1979.

THE report that Sitting Bull at the head of his warriors numbering several housend, had grossed the boundary ine of British Columbia and was again in Montana, is without founda-Sion, as any one familiar with his charfacter mightbave known. Several of his band have arrived at Fort Keogh in a statying condition, but Sitting Bull is still near Fort Walsh, and declares that he will never again cross the line actween the two countries.

------The Governor has not yet announced the name of his Attorney General It is said that his decided preference is for Harry W. Palmer, of Wilkes-Barre, but that the Cameron ring 15 opposed to him, and demands the appointment of Lin Bartholomew, of Pottsville. If Hoyt possessed the necessary amount of pluck he would make his own selection, and not permit a set of scheming politicians, with niterior purposes in view, to make it for him, or in any way to control his choice in that direction.

THE long pending and bitter contest between Mr. Hayes and John Sherman on one side, and Senator over the confirmation of Gen. Merritt ship project he was never more deluded refused absolutely to sign it. "I canas Collector of the Port of New York, in his life, as he will quickly discover not," he exclaimed, "sign a decree su- in the service and in the line of duty. And if same port, was finally brought to a close in the Senate on Monday isst by a vote on the nominations, which resuited, in Merritt's case, for confirmation, 23; against it, 24. Buri's majority was larger. The vote was very much mixed, 27 Democrats and 13 Republicans and 7 Demograts voting ported favorably, which provides for a and one of the foremost leaders of the Republicants voting to confirm, and 23 to reject, while many Senators were paired, and others refrained from voting. The vote is regarded as a great victory for Hayes and Sherman, and as signal a defeat for Conkling.

For some unexplained reason, Ed. I cannot subscribe to them; two witnesses, in the presence of a magistrate, the continuance of the epidemic. home without having given the State any other ministry taken from the majority will be the only application required, and upon

A TERRIBLE PLAGUE THAT HAS DESTROTED 62,000,000 PEOPLE.

The black death, which has again appear ed in some parts of Russia, has proved very destructive and causes the greatest alarm. This is the same disease which, in the fourteenth century, desolated the globe, and it

United States service during the continuance skin of the sufferer. It is thought to have had its origin in China in 1383, some fifteen floods, earthquakes that swallowed towns

thunder storms were frequent in midwinter, and volcanoes, long considered extinct, burst torth afresh. The theory is that the extraordinary activity of the earth, accompanied by decomposition of vast organic masses-myriads of locusts, brutes and bodies of human beings-produced some change in the atmosphere inimical to life. Some writers say that the impure air was actually visible as it approached with its hurden of death. The plague owed its extension almost wholly to infection and con- grave and leading the way back to the tagion. Three years passed from the date of its appearance in Constantinople before count the claim is made; provided, that In any it crept by a huge circle to the Russian territories. Statistics were not obtainable then, but it is estimated that in China pension office, to the Adjutant General of the alone 18,000,000 people died, and in the remainder of the East 24,000,000, while in Europe 25,000,000 souls perished, making a grand and terrible total of 62,000,000 .-Although there is little danger of the spread and Mr. Burt as Naval Officer at the if ever he introduces his silly scheme perceding brave Generals, my friends officer to whom it may be submitted by start East-it is not strange that the Russians should be startled by the ravages the black death has already made. Persons attacked with it are said to die like flies, and the ignorant and superstitious peasantry are so

terrified by it that many are thought to have perished of pure fright. Fortunately the laws of health and the peculiarities of disease are much better understood now than in centuries gone by.

committee of the Russian Ministera have resolved as follows :

powerel to burn Wetilanka and other villages where it is necessary, the inhabitants to be removed elsewhere within the quarantine district. Troops to enforce the quarantine will be placed at the disposal of the civil administration. A delegate will be despatched to Artrakhan and the neighboring governments with power to adopt extraordinary measures, He will be accompanied by a medical commission to investigate the causes of the epidemic.
