

How L. D. Woodruff, one of Cambria's representatives at Harrisburg, delivered two brief but sensible speeches in the House last week, one of which was in favor of the act repealing the Jury Commissioner law and the other in opposition to a proposed law regarding the pay of Auditors and Commissioners appointed by the Courts to take testimony, etc.

John J. Patterson ought now to feel happy, having received a letter last week from the Attorney General of South Carolina, informing him that a full pardon had been intended to him for all the criminal offenses he has committed in that State, for several of which indictments were pending against him in the Courts.

The Johnson Tribune of Monday last, in referring to the rumor that Simon Cameron would succeed Mr. Wallace in the U. S. Senate in 1881, provided the Republicans carried the Legislature in November, 1880, stated that it would be a strange sight to see father and son (Simon and Don) on the floor of the Senate at the same time, and that such a thing has never yet happened.

When the bill fixing the salaries of the Judges was before the Senate last week, Mr. Butterfield, of Erie, in asking for an increase of the salary of the President Judge of that county, said that while there was a Judge in Philadelphia for each 45,000 of population, and in Allegheny for each 37,425, the occupant of the bench in Erie county represented 65,000 people.

We have been patiently waiting for the last three weeks for a member of the House to introduce the Montgomery resolution for publishing and distributing among the members of the two Houses ten thousand additional copies of Small's Legislative Hand Book.

While the members of the House at Harrisburg, at an estimated expense of one hundred and sixty thousand dollars to the commonwealth, have voted to furnish the National Guard with a military outfit similar in all respects to that in use by the regular army, the Senate with equal generosity has passed a bill to third reading, which provides for encampments, inspections, transportation, subsistence, additional officers, surgical instruments and medical outfits to be under the command of not less than thirty men.

That benevolent statesman, Hendrick B. Wright, who avowed in Congress that he was proud to be called a demagogue, was received by a committee, together with about five hundred of his Greenback admirers, headed by two brass bands, on his return from Washington to Wilkesbarre last week.

The American Club of Reading, a Democratic organization, of which Hon. Hiestor Clymer, State Senator Ebermstrout, and other prominent Democrats, are members, having expressed its preference for Governor Tilden as the next Democratic candidate for the Presidency, and having notified Mr. Tilden of its action, received a reply from "that wretched old man," as the Republican press styles him, in which the following is a portion:

Your committee has the distinguished honor of making its first and only report. We are happy to inform you that the Democratic General Government and the great commonwealth of Pennsylvania have elected to our support the distinguished and able statesman, Mr. Tilden.

The Pittsburgh riot bill has not yet (Wednesday) been reached in the House. There are different opinions expressed as to its fate, all of which, however, will be settled when a test vote is taken on the first session.

An extra session of Congress has always been regarded as approaching very nearly to a public calamity, and can only be justified on grounds of absolute necessity—such a necessity, in fact, as is conceded to exist by both political parties for the extra session which will begin on Tuesday next.
