The following sensible, appropriate and much-needed reproof to lazy and stupid editors, so called, which originally appeared in the Perry County Demodignantly-commended to the praverful onsideration of those newspaper harpies who prey upon other men's brains y confiscating their editorials and palm-

> "If editors of country papers ever expect to acquire journalistic reputations they must act fairly with each other. Too many of hem disregard the plainest principle of right in appropriating to their own use, without credit, the editorials they find in their exchanges. "If an article is worth transferring from

another paper to your own columns it is en titled to the proper credit. To refuse this is neither honorable nor just. To appropriate to one's own use the product of another's orains is not less wrong than the appropria-tion of the proceeds of the work of another's hands to his own benefit and behoof,

"Literary theft is entirely too common among country editors and they do themselves great injury by its too frequent prac-tice. Their readers, somer or later, discover that much of that which purports to be their own is not original and they finally come to the conclusion that all this class of editors display as their own belongs to others. This certainly must tend to disgust the reader and to degrade the editor.

There ought, of right, to be a new de-

Plagiarismus now practiced to such

journalistic hive.

'The constant 'borrower' of 'editorials' ecomes a bore, for in this enlightened day there are many persons who do not confine all their reading to one newspaper and the rand at length becomes notorious.

The Lancaster New Era says that Mr. John Rice, a noted fisherman residing at Mount Nebo, that county, informs the editor that he "cannot discover any evidence that the black bass produces its young by means of eggs. He says he has caught quantities of them in the Susquehanna, and never in a single instance did he find any evidence of eggs in the body of the fish." Is this so ? If it is, how does the black bass propagate its species ?

rope, which was stretched from the Court House to the hotel opposite, broke loose from the hotel, precipitating both men to the ground, a distance of fifty Vicential and the active supervision of old Watch, the house dog. Watch is a collie, about 4 years old. The came to the farm a pup, and has developed in to a dog of surprising sagetly. On Friday last Wr. Garrison made some garden beis, and sowed onions peak and lettuce. At sundown, while seat ed in his house, he looked through the window and saw the turkey, and chickens shuffling in his beds. The dog lay on the floor, near the open door. "Hallon" wild Garrison. "the chickens are to the section."

He kept at this work until the box was filled. Then, as the air was growing chilly, he gravely closed the door, cast a reproachful glunce at the boys, stretch-ed himself upon the floor and went to sleep. A few minutes afterward he overheard Mrs. Gar-rison say that chickens were in the kilchen. Iu an instant he bounded down stairs, drove out the in-traders, and closed the kitchen door. He has been taught no tricks, and, unlike many men, seems to be actuated solely by the desire to make himself neeful.
