The order is said to be imperative and will be strictly carried out. It will be very hard on the tribe of deadheads who for years have been getting a free ride to State conventions, but it will relieve the conventions of both parties of the disreputable crowd of Philadelphia backs and bunnmers who are more fit to engineer a dog fight or a rat-killing match than to be present at a State convention, only to disgrace it by their personal broils and low profamity.

IT was supposed that after Hartrauft failed in getting the mission to Berlin and then accepted the Philadelphia postmastership, he would disappear from the public view as the champion office-seeker of the State. It seems, however, that he has again commenced to ply his vo--cation, and wants Haves to make him Secretary of War after M'Crary retires from that department in September next. Judging from Hartrauft's persistent office-hunting ever since the close of the war, it may be set down as absolutely certain that he will be found either in the possession of an office or in the hotpursuit of one when he finally "shuffles off this mortal coil." He is an officeseeking horse-leech without a peer or a parallel.

Two YEARS AGO, State Senator John A. Lemon had an inviting prospect of State Treasurer, but as his election would have created a vacancy in the Senate from this district which would have been filled by the election of a Democrat, the Cameron managers induced Col. Lemon to put aside for the time his Treasuryship aspirations, so that Cameron would not be deprived of his vote in January last for re-election to the U.S. Senate, As Col. Lemon's term will expire before another session of the Senate, he concluded to take another chance for the Treasury nomination this year, and until three weeks ago his success was regarded as pretty certain. Hull, of New York, was a most timely vindi-cation for the aged and unfortunate husband -A Presbyterian minister in Colorado has within a year organized two churches, built one house of worship and a parsonage, bought a church organ, established two Sunday-schools and Almost the only considerations which those who dieved in the innocence of Dr. Hull were able to kines as inconsistent with the supposition of his three prayer-meetings, taught three catechism classes and supplied six preaching stations,

We have before us, says the Havneville (Ala.) Examiner, a pine knot which the workmen, in digging a well for Mr. J. H. Norwood in this place, found twenty-six feet below the surface. The knot was found embedded under five feet of rock, and is in a perfect state of preservation.

at Holyoke, Mass., still maintains that he had a moral right to do as he pleased with their lives. He is an educated German, and an author in that language of a devotional book, containing a prayer and a hymn for every day in the year. His sanity is doubted.

A Colorado man lately walked across the Missouri river, at Leavenworth, with water shoes of his own invention. The current was running at fourteen miles

Head, Ringworm, Ulcers, Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhea, arising from internal ulceration, and uterine disease, Syphilitic and Mercurial discases, Dropsy, Dyspepsia, Emacia-tion, General Debility, and for Purifying the Blood.

This Sarsaparilla is a combination of vegetable alteratives -- Stillingia, Mandrake, Yellow Dock-with the Iodides of Potassium and Iron, and is the most efficacious medicine yet known for the diseases it is intended to cure. Its ingredients are so skilfully combined that the full alterative effect of each is assured, and while t is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those mpurities and corruptions which develop into loathsome disease.

The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over the country repose in it proves their experience of its usefulness.

Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are publicly known, they furnish convincing evidence of the superiority of this Sarsaparilla over every other alterative medicine. So generally is its superiority to any other medicine known that we need do no more than to assure the public that the best qualities it has ever possessed are strictly maintained.
