## NOT A STRANGE PLACE.

It isn't as if you were going to a strange place. The chances are you've been here before, and know something of our ways. Perhaps your neighbor has been here; and has told you it was a good place to go to. Perhaps you've only read that we sell a good many clothes, and say to people who buy them: Bring them back if you don't find them everyway to your liking.

Now this is really why we

are not strangers to anybody: because we deal with everybody as with a neighbor; and expect him to come right back if he has cause of complaint.

IF YOU DON'T COME.

But, suppose you don't come. How are we going to sell you just what you want to buy, without your seeing things beforehand? Try; write; say about how much you want to pay for a business suit, dress suit, overcoat, or whatever you want; say what your occupation is; say anything that has any bearing on what we ought to send you. It will not take us two minutes to guess what you want ; if we don't guess right, that's our loss, not yours.

Perhaps you want your clothing made to your measure. Did you suspect that we make to measure a half-million dollars'-worth of clothing every year for people we never saw and never expect to see? You may be very certain that we have a way of doing such work without much risk of a misfit: for a misfit, you know, comes right back to us. We are pretty careful about making blunders when we've got them all to make good.

OUR WAY:

Our way of doing business is to make the buyer welcome, at the outset, to all the advantage and all the guarantee he can ask for.
