It will be looked for with considerable interest by the medical frater-nity, and will add to surgical science an in-valuable paper, closing a link in the long chain of fractures, which has heretofore been left open; and will also solve the doubt which has taken such hold upon doctors generally, that broken necks can not be saved.

ATTEMPTED MURDER NEAR LATROBE.-On the night of Sunday, February 20th, the body of Jacob Myers, assistant brewer at St. Vincent, near Latrobe, was found lying near the engine house of the Monastery Coke Works in an insensible condition. After having been conveyed to the Monastry for medical treatment, it was discoved that his breast had been crushed in by some heavy instrument, and his head and other portions of his body bruised to a considerable extent. He was attended by Dr. Donnelly of Latrobe, but remained unconscious until a few days for his honesty he felt that it would have been ago, when he made a statement of the ocimpugning his motives had be offered him a curence to his physician. In his statement he says, that while walking near the engine house of the Coke Works, he was accested by a man and a woman, and after returning an answer to the man, the latter drew a re-volver and fired at him, when he made an attempt to escape, whereupon four men rushed from concealment and commenced beating him with clubs and stones, during which his first assailants fired two more shots at him. Unconsciousness ensued from the blows upon the man's skull, and while he has recov ered his reason for the time, it is believed by his physicians that death must result from concussion of the brain. It is said that four of the assailants have fled the country, and a fifth has been arrested, who claims that he took no part in the assault. LOCAL CORRESPONDENCE.

CHERRYTHER, March 1, 1861. DRAF FREEMAN—The rain on Sunday and Sun-iny night made an ordinary railing flood in the iver here, and yesterday the lumbermen were usy rafting in their square timber, such as spars, soomsticks, etc., and had the warm weather conboomsticks, etc., and had the warm weather continued a goodly nember of rains would have been got ready for the ran by to-morray evening. This morning, however, found from two to three inches of snow upon the timber, with the mercury several degrees below the freezing point, which of course put an end to railing for a time. But as the ground hog's six weeks will be out in about two weeks more, and as March came in like a tion, as it certainly did this morning, and is to go out like a lamb, if there is any truth in the old adage, we may rely on having warm weather the latter part of this month. That, at least, is the way Mr. Thos. Long, who has several millions of feet of logs to float out of Cush Cushing creek, which empties into the river at this point, seems to look at it, as he has commenced cutting the see on McKesage's dam, one half mile or more above the month of the creek. On motion of Aivin Evans, an order was granted Isaac Evans, Borough Collector, for one half mile or more above the month of the creek. He will have to open a channel thirty or forty feet wide for a distance of three-fourths of a mile thro wide for a distance of three-fourths of a mile throthe tee, which is probably 26 or 28 inches thick.
The cutting is done with cross-cut saws, and the
question with the boys is, who takes the end under
the ice? Two or three other dams will have to be
cut through on the same stream, though none of
them are so long as this one.
The feer remains firm on all the dams from here
to the menth of Chest creek, but below that point

the river is open.

SUBJECT-As follows : " Now let me think : the Holidays are over, and for these two months I really believe I shall have more time than dur-ing any part of the year. In March and April spring dress goods will come out, so my time will be taken up then, and I'm sure I don't want to have much on hand when warm weather comes; so I'll just see what I need for Housekeeping, got the things ready, and make them up. "There are sheets, pillow-cases, and per-hars some other articles for bedding; then I must have a supply of table cloths, nap-kins, towels, and—and—oh! a good many things, so I'll send a postal card for a Housekeeper's Price List, and see what I to want. If I go to the city I can then have my memorandum made up, and if I don't go I'll order by letter, at I have

done before, and get promptly just what I want at the same prices that I would pay if in person.
"Of course something might not be just exactly as I expect it, so I must send my order to a store that will let me exchange or will pay my money back if I want it To do this, and have the greatest variety f goods in any one establishment in the United States to select from, I must address my postal card 'John Wana-Maker, Grand Depot, Philadelphia."

"There, I came near forgetting! This is a good time to make up underwear, too; so I'll add to my postal card—' Send me an Underwear Price, List,' and see if it won't be cheaper to get it already made, and save all that tiresome cutting, sewing and trimming."
