That the Society is entirely worthy of confidence seems to be evident from the following, which we find in the Harrisburg Patriot of the 21st ult. :

-Rev. J. H. Cleuver, D. D., who a few Harrisourg Fatrici of the 21st un.: The Pennscivania Mutual Aid Society, whose of-face is at 25 North Third street, through their Sec-retary, Mr. J. spent a couple of days, including the ever to be revered Fourth of July, of our recent vacation" among the enterprising and hospita ble people of Cherrytree, twenty-three miles north of this place, it is an open question with us whether the people aforesaid or our-self personally are under the greater obligations to our clever and considerate friend and townsman, Dr. Creery. The reason for this doubt is that had it not been for the kind invitation and urgent solicitations of the gen-tleman named, ourself and "better half" would not have joined the Doctor, wife and two daughters, not including the one in arms with each of us, in the enjoyable jaunt to which we refer, and as a consequence the courtrous citizens of that goodly borongh would have been deprived of the pleasure (?) of seeing us for the first but we certainly hope not the last time in their midst. Leaving aside, however, the question of thanks, which the Doctor neither seeks nor desires, we come down to the solid fact that we found much to please and nothing to regret in the trip. We found the most elaborate celebration of the nation's birthday we ever witnessed, the occasion not only attracting the largest num-ber of people, fully three thousand, that ever assembled in that place, but the program in cluding a big feast well worthy of the name served in a delightful grove by Mr. L. A. Cra ver, of the Henderson House, a monster pic me, with all that the word implies, a balloon ascension, or rather three balloon ascensions, a tub race on the river, in which four youths participated, each of whom captured a prize hung above their heads on a rope stretched from shore to shore, a fine display of fire works in the evening, and all the other con-comitants of a first-class celebration of the most glorious event in our country's history gotten up as it was by a patriotic people, not a few of whom have thousands of trees on im-mense tracts of land in that vicinity, but not one of whom has a spark of treeson lurking in his bosom. We found, in addition to all thus, a very cordial reception from such representative citizens as our boyhood friends Mr. Porter Kinports and Capt. R. H. Mc Cornick, who personally and through their excellent wives and families extended to us the hospitalities of their elegant and cheerful homes-courtesies which we will be glad to reciprocate at any time. These two ger tienen, as well as a number of other public-spirited eitlzens, among whom we may name Capt. Weaver and Messrs Jesse Harter and J. O. Creery, our attentive correspondent, Mr. Tonkin, Mr. Henderson, owner of the Henderson House, who owes it to himself and the coming census to hunt up a good wife as soon as possible. Mr. Driscoll, of the drug firm of Driscoll & Hosack, who are also proprietors of the Cherrytree Record, (said gentleman, by the way, being in no need, if rumor speaks true, of the advice we have obtruded upon Mr. Henderson), Brother Ba-ker, the good-looking, enterprising, industrious and affable young local editor and pub-lisher of said paper, and a number of other gentlemen we can't name, did much to make us feel that it was indeed good and pleasant for us to be there. We found these things and many more in about Cherrytree, which

THE PRINTERS' PICNIC.—We agree with the Huntingdon Local News when it reminds those who are apt to be dissatisfied with Bedford as the place for holding the printers' picnic that there is no law to prevent them going where they please, and then adds: "Bedford was chosen because it is a prominent watering place in the Juniata velley, and having already been at Cresson and Lloydsville, it was the object of the commit-tee to go the rounds. The disadvantages of getting to Bedford and the springs were taken into consideration by the committee at their meeting on Friday tast, and it was not until provision was made for sufficient amodations for all the printers and their families, at very moderate rates, that the committee by unanimous consent decided to go to Bedford in September next. KILLED BY LIGHTNING — A very sad case of instant death under the most distressing circumstances occurred at Loretto, this county, on last Thursday afternoon, the facts as we have learned them being that the residence of our old and excellent friend Francis O'Friel, Esq., was struck by light-ning and a niece of that gentleman, a young lady named Annie Kerr, instantly killed. It seems that the subtle fluid entered the house at or near the chimney, and after tearing off

some of the shingles and a portion of the weatherboarding, descended to the lower floor, when it struck Miss Kerr, who was in the parlor at the time, with the terrible re-sult stated. The fearful messenger of death, if we are rightly informed, traversed the entire length of the house, and finally passed out at the other end of the building, as was evidenced by some of the weatherboarding being torn off at that extreme. It also set the upper part of the house on fire, but the frames were speedily subjued without any serious damage being done. The unfortunate young lady thus suddenly, shockingly and unexpectedly summoned from this to we hope a better world, was aged about nineteen years, and had been in this country very little if any beyond four months having come from Ireland direct to Loretto, if we mistake not, some time in the early part of last March. Like the greater portion of the daughters of Erin, she was a very ex-emplary member of the Catholic Church, as well as a most excellent young lady, and those of the rule of faith will understand us H when we say that she had just completed the jubilee, as we have been informed, and it is SENSATIONA therefore to be presumed that she was fully prepared for the dread summons which came without a moment's warning. May her soul rest in peace. ....

Oatman, who has had so much to do with the enterprise, reserves the right as Superintendent of the line to control the build-ing and management of the same, which of course includes the location of the offices. Just where these will be put remains to be seen, but when the line is completed, as there is every reason to be-lieve it will be in the near future, the question of futing the offices will soon be determined.
