DESTRUCTIVE FIRE IN GAYSPORT.-On Thursday morning of last week, shortly be fore 5 o'clock, a fire broke out in the engine room of the extensive foundry and machine works of Messrs. McLanahan & Stone, in Gaysport, Blair county, and before the firemen could get the fames under subjection, entirely destroyed the large brick marhine shop, 120 feet long, the three story brick and frame building used as a pattern room and office, as well as the extensive storing sheds on the rear of the lots, and also hadly damaged the large brick foundry. A double frame tenant house occupied by two famiies and a frame stable owned by Mr. John Lowe, a frame stable owned by William Kellerman, and a frame stable owned by McLanahan & Stone, were likewise burned to the ground. The firm's loss is estimated at \$46,000 and would greatly exceed that amount if the stoppage of business was taken into consideration. They offset this with an insurance of only \$23,000, divided equally between the Etna, Phoenix, Fire Associa-

tion of Philadeln'sia, North British of London, and the British American of Canada. Mr. John Lowe, who owned the double house and stable, had no insurance; his loss is over \$800. William Kellerman had \$200 insurance on his stable, which fully covers the loss. The largest foundry building was saved with the loss of the roof and unper timbers, and no doubt will be repaired and timbers, and the few days. It is not exactly known how the fire orig. Mr. John Lowe, who owned the double house and stable, had no insurance ; his loss

nated, but it is thought that it was caused y hurning ashes which had been drawn from under the boiler and thrown outside of the building, where they were fanned into a flame and communicated with the frame huilding. The machinists lost nearly all their tools, some of them not saving a tool, The machinists lost nearly all and to them the loss is very heavy. About seventy-five men are thrown out of work, some of them having large families. It is the intention of the firm to rebuild at once.

South Fors MINERS STILL OUT .- The Johnstown Tribune of Tuesday says there is nothing new to report in relation to the ex-isting trouble between the miners of South Fork and vicinity and the coal operators of that district, beyond the fact that no steps have as yet been taken toward a settlement of the trouble in relation to a difference of opinion as to the commensation for mining, which is the bone of contention between the mine owners and their employes. To the credit of the latter it can be said foat no overt acts looking toward lawless proceedings have been manifested thus far, and no fear is anprehended that excesses will be committed on the part of the men who have voluntarily quit work on account of what they believe to be insufficient wages. One of the principal operators states that nearly one-half the numher of men who were engaged at the several collicries in that neighborhood have taken their departure, with a view of bettering their condition, if possible, while those who remain are not in the least disposed to resort to arbitrary measures with a view of trying to force their point. The chances are that ere many days a solution of the problem will be arrived at by mutual concessions, and that the coal industry in the South Fork district will not suffer materially by reason of the enforced idleness which has prevailed for some two weeks.

HEMLOCK, AWg. 22, 1881. DEAD PRESSION—The coal mine of S. H. Smith & Co., near Rensereek, was the scene of a tracic accident on Friday last, by which a man named Levi Mosey lost his life. The unfortunate man, it appears, was a miner of considerable attractioner, baving been employed by the same firm for nearly four years, and was a tried and trusted evaloye. The accident was caused by a barrer rock folling on him and crushing out his life nefore assistance sould be rendered. On Sunday his remains were taken to Newry and interred in the Lutheran cem-etery. He was a quiet, inoffansive young man, about 20 years of age, and unmarried. Hitherto our village hus had only one church in it, and that has been but poorly attended, services being held only ones a month; but now the clurch tever has struck us and two huildings are in course on evaluation intended for religous purnoses. BALLOU'S MONTHLY ILLUSTRATED MAGA-AINE.—The September number of the hand-somely illustrated and popular Ballou's Magazine is issued, and is so full of interesting matter that we hardly know which article to mention first. There is an illustrated review of Chinese life, an illustrated statement of fall fashious, some choice poetry, ten or twelve stories, and a large lot of miscellan-eous matter, besides five pages of humorous matter, which alone is worth the price of the magazine. This is a magazine that should he read by a million people ; for it is got up for the people, and not for a clique. Published by Thomes & Taibot, 23 Hawley Street, Boston, Mass., at only \$1.50 per an-num, postpaid, and for sale at all the news

IMPROVEMENT FOR MIND AND BODY,-For genuine merit there is no tonic sold that begins to compare with Parker's Ginger Tonic. One 50 ct. bottle contains more life and strength-restoring power than a bushel of malt or a gallon of pure milk. As an appetizer, blood purifier and kidney corrector, it meets with astonishing success, and invalids find its use promptly followed by renewed energy and vivacity, mental and physical improvement, and gradual restoration to perfect health.
