posed that when the government reassembled at the capital after the Christmas recess it would begin the work which Congress and presidents are chosen to do; that is to say, the work of governing the country in such wise and honest fashion as to secure for all the people the highest degree of prosperity, peace and happiness. Such is the duty of all governments, and it was but a just a reasonable expectation that the country indulged when it expected the president and Congress to devote their time, intelligence and labor wholly to public interests. But reports, ru-mors and more tangible and reliable evi-dences multiply to indicate that the govern. ment's first work will be that of making a policy for use in the next presidential campaign. Political interests, personal ambitions are to be served, and if there should be any time or opportunity or energylleft over, possibly they may be devoted to the real affairs of ernment

The situation, either as it concerns the The gaudy scarf of the great Michigan welfare of the country or that of the Repub-lican party, is not at all brilliant. Old quar-rels should be permitted to pass, ancient feuds forgotten, and personal aspirations and interests should give place to patriotic purposes and national needs. But the old quarrels are not to be permitted to pass. the ld, distracting, sundering feuds are to be revived, and the aims of the leaders are to be as narrow as personal amoltions can make them. At least so all reports and rumors, and all likely circumstances indicate. Pres-ident Arthur would like to unite the party, to close up the breach between the Garfield to close up the breach between the Garfield Republicans and the Stalwarts, for he sees that if the party is to achieve victory in 1884, it must show a sold front to the Democracy, who in each new national contest lessen the majority which defeats them. Murphy and his wife were both addicted to drink and quently became intoxicated. Several of his fellew laborers boarded with him, and on

the day before Christmas Murphy went to Lloydsville to lay in some supplies, includ-ing turkeys and whiskey. On the same day four of his boarders and his son went to Al-toona, the young man taking with him a gal-lon jug, which he got filled with whiskey in that city. He and his four companions returned home before his father did.

young man's stepmother, as well as the boarders, soon became drunk, the woman so helplessly so that they had to put her to bed. The old man, who had also got very drunk in the meantime, returned very lat at night, and when his wife opened the door to admit him he saw her condition and charg ed her with being intoxicated. She denied it, but according to the testimony of the boarders, who were in bed but heard all that

occurred, Murphy became very angry and made some wicked threats against his wife. At last there was a scuffle and the woman was heard begging him not to kill her. All was then quiet, and in the morning Mrs. Murphy was found dead in her bed. A post rtem examination showed that she had received internal inturies sufficient to cause her death. It is quite pointed and has a beautiful curvature for "raising hair." It appears to have been originally stuck into the lase to the depth of about three fourth or inclusion.

three-fourths of an inch and remained there for at least one hundred and fifty years, as the growths of the tree covering it clearly in-dicate that length of time. Of the landle nothing remains. Upon the blade there is stamped a crown surmounted by a cross, and beneath it is a winegizes or goblet reversed It is certainly an intersting question : How came the knife there? By whom was i thrown and at what or whom? and why did they leave it remain, for it must have been very valuable in its day and generation, as it seems to be made of the best of steel? other question: How far was it from the ground one hundred and fifty or two hun-dred years ago? Or, in other words, does a tree increase in heighth all through its length or only at the top? We would like to have this question answered by those versed in forestry .- Altoona Tribune, Dec. 20th.

McVeagh, the embodiment of progressive independent politics, did not linger long enough in the Executive antehamber to be kicked out. Windom lingeren long enough to receive the kick ; James, who had refused to side with Messrs. Arthur, Conkling and Platt in the New York Senatorial fight, was made to walk the plank, and Blaine, the "Plumed Knight," was retired to obscurity to give place to Freylinghuysen, the Grant Stalwart. All of Garfield's Cabinet has gone by the board. In less than three months after Garfield was ouried the Stalwarts captured every branch of the Government. The sweep in the Post Office Department is a clean one, and the place that knew James will know him no more forever. The Stalwarts have now got what Grant and Conkling imperiously demanded at the beginning of the Garfield administration. THE CONTINENTAL INDEPENDENTS.

The reform-within-the-party 'Continental' Independents are not making much head-way. It is real independence that is bother-ing them, and they have not yet fully reing them, and they have not yet fully re-solved to be independent. They are holding confidential conferences and issuing ad-dresses to the people, but issuing addresses is very harmless pastime, and bosses are not in fear of addresses. They read declarns of the Continental King of independent addresses with calm satisfaction. The reform-within-the-party independents are far more independent with the tongue than with the ballot, and they will find out that the ballot is mightier than the tongue. The reform-within-the-party independents are he great humorists of the day. Everybody

laughs at their jokes. THERE'S & SIGGER IN THE WOOD PILE. Gen. Grant and his chaplain, Parson Newman, of fragrant hot seotch memory, have jumped the Methodist Church and joined a Congregational one with an \$80,000 debt upon it. "There's a nigger in the wood upon it. "There's a nigger in the wood pile." The public has seen Grant a sot, a soldier, a President, and a mendicant, and now he appears as a churchman.

WHO SHALL THEY RE ? Now that it is known to be a certainty that General Beaver reseived the Republican nomination for Governor of Pennsylvania at a Stalwart conference in Washington city, the names of various Pennsylvania Democratic leaders are being freely discussed in connection with the Democratic nomination for Governor. It is conceded among the po-litical leaders of both parties that the one that wins the Pennsylvania battle of 1889 will have a lease of power as long as it keeps on its good behavior. The contest this yes will be for the control of every political department of power in the State-Governor, Congress, Legislature, Pardon Board, and the Congressional, Legislative and Judicial

Guitequ not hanged.

If Gitean escapes the hangman, it will be because of lawyers, doctors and experts. Fame is capital to a man, and fame is keeping the Guitean trial alive and kicking. This is the 2d of January, six full months since Garfield was shot, and Guitean not hanged get. At first nothing but threats were re-seived by the assassin; but now he receives great contestants to agree to the tossing up a letters of condoience and enclosures of mo-If Guiteau had as much money as the Government he could heat it out of countefittle games and would probably save the party from defeat by divisions - Philadeighia nance; but the Government foots all the bills on both sides of the case, and se long as the Government does that, so long will lawyers, doctors and experts keep the thing going. Opportunities are said to make men, Gui teau made his own opportunity, and with it made the opportunity of many others. He made opportunities for doctors and lawyers ette. -first for the doctors then for the lawyers and next for the experts. The Guiteau is a

grand combination case for all three, and I reiterate that if Guiteau escapes the hangman it will be because of the lawyers, dotors and experts. Law is a big thing, medi-cine is a big thing, and science is a big thing. These three big things have all taken hold of the assassin Guiteau, and their hold can only be broken by some more accurate Mason, some more careful Jones, or some more cour-ageous McGill. The doctors first pounced through, and lawyers never let go while there is money in a case. Death has no quieting influence on gentlemen of the bar. The public must not get impatient-but wait until the lawyers get through. The 2d of July, 1882, may come and Guiteau not be hanged The Government has a deep pocket, and as long as lawyers, doctors and scientists can reach it Guiteau will not be disposed of. Guiteau fired his fatal shot on the 2d of July, 1881, and this is the 2d of January, 1882. Arthur is President, Garfield forgotten, and

MARRYING TWICE IN TWENTY-FIVE MINures.-In the matter of marrying, says the Eincinnati Gozette, a young woman of Seneca Chichman or order a young woman of Seneca county, Ohio, plainly appropriates the cake. Her maiden name was Melissa J. Remsburg, but wheather it is new Mrs. Chauncey L. Wyant or Mrs. Wesley M. Kline, or both, the future must disclose. As the story is chron-icled, Miss Remsburg told Mr. Wyant that she would meet and marry him in Tliffin, fifteen miles from her futher's house at 8 fifteen miles from her father's house, at s o'clock on the afternoon of Monday succeed ing Christmas. She also told Mr. Kline that she would see him and wed him in Tiffin at 814 o'clock on the same day She kept both promises, for she became the wife of Mr. Vyant at one end of the town, and married Mr. Kline at the other end, twenty four minutes only elapsing between the performance of the ceremonies. Immediately after the first wedding the bride had excused herself, 'just to run down the street to see a friend.' and thus it came about that she had time to marry Mr. Kline and take a westward-bound. tasin before Mr. Wyant suspected treachery. As to the purpose of the woman everybody seerus to be in the dark.

F. B. Brake's Sufferings.

F. H. Drake, Esq., Detroit, Mich., saffered beyond all description from a skin disease, which appeared on his hands, head and face, and nearly destroyed his eyes. The most careful doctoring failed to help him, and af-ter all had failed he used the Cuticura Resolvent (blood purifier) internally, Cutlcura and Cuticura Soap (the great skin cures) externally, and was cured, and has remain-ed perfectly well to this day.

spouses, is one with it in this usiness. One loves "this ad interma-admin-Istration" no better than the other, and between them they are likely to make its path a thorny one. Behind them both stands "the man from Maine," and behind him stands the whole corporate and money power of the East

In this coming battle of the political giants Arthur is thus fa; way ahead, and the only question is: Can be keep his lead? His henchmen-Logan, Cameron and Robeson-have captured Kelfer and made his commitees for him, which are not only wonderfully but dangerously made. Their composition has offended the Democrats in a body, and also the Garfield Republicans. Not only do they represent every species of jobbing and extravagance, but the chances are many that they will make so had a record before the first session closes as to give the opponents of the administration all the ammunition they need to blow it to pieces. In this factional fight what is to become of the party? That should be considered before the old quarrel is renewed and the breach becomes too wide for the Stalwarts, or their oppo-nents, to close or overleap. What is the use of Arthur or Blaine fighting for the empty honor of a nomination if, by dividing the party, they are going to give the next president to the Democrats at the polls? To set ap a convention is easy enough, but to carry a national election is more than difficult

enough. In the interests of party success, great contestants to agree to the tossing up a penny for the office of president? That would be quite as respectable as their other

A HORRIBLE AFFAIR-The large frame boarding house of Garrate Abois, near Rich-burg, N. Y., was destroyed by fire at 1 o'-clock Sunday morning. Gas from an oil well was used as fuel in the cooking stove, and an unexpected pressure set the kitchen a front recent parsaire set the known in a front recent parsaire at the time, and her husband, who is seventy years of age was sitting at her bedside. He was much exhausted from prolonged watching and fell asleep, but was awakened by the smoke and discovered that the entire rear part of the building was in fames. Selzing his wife he carried her out and laid her down in the snow in her night clothes. He then went back to awaken three children who were sons up stairs were also dangerously burned in making their escape.

The exposure Mrs. Abois was subjected to will, it is feared, hasten her death.
