The increase in the grossed, I cannot divest it of the regret entertained on account of the unfortucost of food has not resulted from any cause within the control of capital or labor. The prospects of fair crops gives every reason to hope for cheaper bread and meat in the due order of production. But the day of relief cannot be hastened by force or transit. A strike is no second by or tamult. A strike is no remedy for dear bread. It only makes the bread larded to get. HANGED FOR SIX HOURS. - A Mexican by he name of Senobio Martinez was brought yesterday morning from the Me dina, in Baxter county, who had a thrilling tale of terror to teil rivaling some of the desperate acts of the Baxter county Vigilance Committee in it paimiest days, when Mexi-can horse thickes might be seen hanging from the limbs of adjacent trees on almost any day in the week. During those days, too, several well-known gentlemen were ac-cused of going to church with ropes in their pockets. But to the subject, as far as we could glean, Senobio Matinez's story runs about thusly : He lives on the Medina, and for a long time past has concurred the dis-pleasure of his neighbors from the fact that Senobio has been suspected of appropriating other people's horse flesh to his own use, and disposing of the same for private gain. On Tuesday night a mob of unknown men went to the house of Martinez, took him away and hung him to a tree, leaving him shortly alterward for dead. The mob, how-ever, neglected to tie the man's hands behind his back, and by holding the rope about

The poor fellow cannot tell who the parties were who committed this outrage, nor how many there were in the gang. He only knows that he went through the borrors of death, and is still bruised about his face and neck. He was brought to this city, and is now out on the Alazen creek, near town, with friends. SAN FRANCISCO, May 1.-Shortly'after the announcement of the death of the Prince Im-perial in Zululand, Phillippe Berre came to America and visited this city, where he had relations. He was suffering from a pulmonary compleint, and was sent to a hospital, where he died recently. Before his neath Berre made a startling confession to the physician in attendance. It was to the effect that the Prince Imperial was not slain by the Zulus in Africa, but murdered by agents of Commune, who accompanied Zululand for that purpose. After the funer-al the physician fold the story to a reporter of the Chroniele, which in brief is as follows Young Berre was an active member of the Paris Commune, the members of which were of opinion that the petted Prince of Corsican descent would encompass the run of France on his return to Zululand. What follows is from the lips of the self-confessed murderer:

Berre personated an artist in search of the sensational. Tonnelet and Valousky went to Dunbar with the Commissary Department of Lord Cheimsford's command and the oth-er associate, who is yet alive, joined a company of borse. Several plans were decided on to carry out their murderous decigns, but all miscarried. The confession continued : At last the sveniful day arrived.
