A Board of Censors and a Board of Managers were also appointed as the control of the co ointed, and a number of the members signed the roll, some for annual subscription and others for life, the fees for the former being \$10 on becoming a member and \$10 per an m afterward, while the payment by the latter of \$60 will entitle them to all the benefits of the organization for life. The Association will have the use of two elegant rooms in the rear of the court room.

As it seems to do the Carrolltown Fees an Immense amount of good to carp at the FREEMAN, and don't do us any harm, we suppose it is as well to let it enjoy itself in that way, though we are "just dying to know" when, where and how we, who were "only an invited guest" at the dedication banquet, found fault with the Carrollown band. Did the fault-finding consist in our play upon the words "band quit" and "banor in the pleasure expressed at the fact that the music began again after the banquet was over? Everybody who was there knows that the band didn't play, nor was it intended that they should, while the feast was going on, but how the mere mention of such a matter can be distorted into faultfinding is something which nobody but the erudite editor of the Newscan explain. And while he is in the explanation business, per-haps it would be as well for him to furnish the name of the party who, as he alleged, bought and therefore didn't steal a lot of oats, etc., on a certain night not many moons ago from Mr. Jacob Zern, of Carroll subject, and as the News man publicly called his veracity into question, simple justice begin to play again-if it has a mind to.

SOLD FOR A SONG, SO TO SPEAK,-The old court house and the old jail (we don't capitalize either because they have ceased to be capital buildings), in so far as the wood, brick and stone work are concerned, were sold at public sale last Saturday afternoon. The court house, around which clusters the memories of Michael Dan Magehan, Michael Hasson, Phil Noon, "Dos" Noon, Charley Murray, Abram Kopelin and many other extinguished lights which once burned brightly, was sold for the pairry sum of \$52. Ar nold Downing was the builder of the edifice, and it took him the major part of 1837-8 to complete the contract. He builded full up to the contract price, which was \$7,000, and the memory of Mr. Downing will go down with the fact that the foundations are found to day as solid as if they were solid rock. It is related of Mr. Downing that he incorpora-ted in the solid masenry of the wall a bottle of whisky containing the measure of a quart. By the provisions of the bill of sale, the building must be removed inside ninety days, though an extension of time is hinted at for the purpose of permitting the several county conventions to have a place to wrangle and quarrel in. But when the dismantling does come, that quart of what Mr. Francis Murphy is apt to style "the beverage of hell" will

Both gentlemen were employes at the time of a man whose name is a badge of honor to those who wear it—David H. Roberts. This pile was sold for \$50. Mr. Wm. C. DEAR McPikh-I have just returned from a drive through the country, for which I am indebt-ed to my old-time friend, Joseph Shoemaker, the proprietor of the Mansien House. Wonderful are the changes in and around Johnstown, and indeed of our acquaintameeship, as well as their hasbands, sons and daughters, to say nothing of their cousins, and uncles and aunits, that if they want to buy a pair of shoes which will stand the wear and make everybody else green with envy, they should—well

the changes in and around Johnstown, and indeed everywhere throughout Cambria county that I have been. Beddes the great growth of this place. I find a corresponding advancement in every portion of the county. The manner in which mountain regions have been opened up and utilized is resilly marvellous. The husbandman who first had the temerity to attempt to clear the curface of the mountain; the first surveyor with his compass, are and chain, and the first engineers, if living, will remember the chain carrying and rod-fixing through the mountain thickets, which were so dense that it was almost impossible to pass through them. They were almost as impenetrable as a Mexican chaparal. The very huntsman's life was in danger in attempting to penetrate the they are standing in their own light if they go elsewhere than to S. The very huntsman's life was in danger in attempting to penetrate the inextricable labyrinths of the laurel thickets.—
The laurel of the mountain, twisted together in every conceivable shape of knobs and tortuities and so interwoven, made it difficult for an animal to puse through them. The first engineer corps that lecuted the Old Portage Railroad across the mountain discovered the skeletons of several men who had been just and starred to death in the harrel thickets. I shall not now attempt a description of the progress of civilization, but will merely say that where a few years ago there were dense woods I now see fields of wheat, corn, etc.

In my run through the country I find that they the backward season has retained Spring work, no apprehension regarding the crops need be felt.— Fretting the silent forest in his sleep?

So sang an alleged poet the other day. His name bears the high-sounding title of Charles Tennyson Turner, the last name being proof positive that he is of noble descent. But the possibility is that in all his checkered career—provided it was interspersed with notleeable oplandes—he hought his clothing clackwhere than at James J. The corn crop will be two or three weeks late, but there is plenty of time yet; in fact it is a question with many farmers in this region whether the middle or last of June is not the most favorable period for the planting of corn. Much planting will be done this rear, as the crop of last year was a failure, and the high prices have impressed farmers in this region with the wisdom of making provision for last year's short crop, and are planting. ful ginzey brown. With the promise of a fruitful season there is also a promise of a good bemocratic crop. I can see the dawning of a brighter day politically for Pennsylvania. The whole machine of the government of the State has become rotten. The best Republicans in the State—the most competent and most deserving—have been ignored, and the money of the State has been used to punish the best men and roward the worst. Wilmore, Summerhill and surrounding vicinity met on Pringle Hill for the purpose of decorating the soldiers' graves. The opening exercises were ably conducted by Rev. Gross, who set forth in a very able and appropriate speech the causes and results of the late war; also, why we decorate the soldiers' graves. This speech was followed by music by the choir in a song entitled "America," after which Mr. W. S. Plotner recited a poem entitled "The American Flag." This poem was well rendered, showing evidences of good clooutien. Next was a song, "The Red, White and Blue," Rev. Gross then read a biography of the first soldier buried to Pringle Hill cemetery. The procession was then formed preparatory to marching to the cemetery. Chief Marshall H. H. Johns exhibiting great skill in the work assigned him. The order of the procession was as follows: First, reteran soldiers, fourteen in number: next a company of little soldier boys, thirty in number, all equipped with guns painted red, white and blue. This company was under the command of Capt. A. Frank Crum, who was ably assisted by Lieut. John C. Hess. The boys did remarkably well, going through the manual of arms and marching and countermarching as well as some of the older soldiers. Mr. Pringle then in a few brief remarks thanked those present for helping to commence the death of our brave soldiers. DEAR FREEMAN.—On last Wednesday morning Mr. Simon Noel, a worthy citizen of Clearfield township, came to my office in this place and informed me that he had just discovered the remains of a human being on his farm, and requested me to go up to his place and make such disposition of the remains as I should deem best, as he did not wish to dispose of them himself. Acting on his request, in company with Dr. J. McMulien. I visited the spot indicated by Mr. Noel and there found the almest entire skeleton of what was undoubtedly an Indian. The remains were uncarthed by the uprooting of a large hemileck tree which grow directly over the grave. The tree in falling tore up the earth to the depth of three or four feet, and also the remains of the Indian.—The rain had washed away some of the sarth and exposed a portion of the hones of the skeleton to view. After an hour's work with pick and shovel the Dector and I succeeded in getting the remains all together, and also found the poor follow's pipe and bends, which had been buried with him.—They must have been placed there over two hundred years ago, as the tree which grew on the grave is nearly three feet in diameter. The Foctor secured the skull and some of the sheads, and I took the pipe, a few beads and some of the teeth, which I enclose to you as a curjosity for those who may desire to see them. Please take good care of them, as I will call for them in about two weeks. I have no doubt but my friend, Mr. C. T. Roberts, can inform you of what kind of material those beads are made. We reinterred the balance of his remains near the spot where we found them, in a piece of grand old woods, about two and a half miles northwest of Sc. Augustine.

Commencing first week of June

Scotch people and old-time folks all know what is the meaning of an "unset sale." It is a term used when things are to be sold out to close estates, partnerships, etc.

We propose a sale of this nature. The prosperous season so far this year, the largest we have ever had, encourages us to

We want to sell out to make purchases for fall. We want to sell out to keep plenty work going.

to carry out our plans when we are in the right, and if the prices must be cut down, to gather the people,

Down go the Prices.

Even if we sacrifice our profits for one month, the people have done generously by us for many years, and we are satisfied.

IN A NUT-SHELL, THIS IS IT. The practical point of all this is a radical reduction in prices from June 1st. They are cut, some ten, some twenty, some thirty per cent., and some, on goods prepared specially for this sale, not at all. Compared with April 1st the average reduction is twenty-five per cent. Of the \$750,000 merchandise now held by us, about \$500,000 is involved in this sale. From the great list which might be made we only quote three Items
