elections in this county, as ascertained by the Return Judges at their meeting on Monday last, will be found printed elsewhere in our paper. It is highly creditable to the officers who conducted the elections in the different districts to say that no comptaint of unfairness in the discharge of their duties was made against any one of them; but, on the contrary that they had acted fairly and impartially, and that there had been an bonest count of the ballots. It is proper that this statement should be distinctly made in regard to the second trial of the Crawford County System in Cambria, whatever may be said against some of its features, and however much it may have falled to give general satisfaction in some other counties in which the system has been adopted. The fear entertained at one period of the canvass that in the Southern end of the county, the three aspirants for the most important offices, (Legislature and Sheriff), would probably all be successful, was happily removed by the good sense and | grinder until the end of the campaign. sound judgment of the voters; and so far as the locality of the candidates nominated is concerned, a wise discrim- has caused such widespread commotion ination has been exercised and justice as the arrest last week and imprisondone to all sections. THE re-election on Monday last by the new Democratic County Committee, of Mr. T. H. Heist as Chairman was a deserved compliment to that gentleman, who, during the past year has discharged the duties of the position to the cordial and hearty satisfaction of the Democracy of the county. Mr. Heist, however, felt constrained to refuse accepting another term for the reason, as he stated to the Committee, that his entire time from now until November will be occupied in giving his personal attention to the large and elegant summer resort he is erecting west of town. The Committee then elected ex-Sheriff John A, Blair, to be Mr. Heist's successor. Sheriff B, is thoroughly acquainted throughout the county-possesses any amount of energy-always reflects before he acts, and will no doubt conduct the campaign in a vigorous and effective manner-in such a way, indeed, as will do the most good. BEFORE intrusting the Democratic party with power, the people will be apt o inquire what its principles are and what its practical objects are. The principles of the Democratic party are clearly defined. They are excellently stated in the letter of Chauncey F. Black, the Democratic candidate for Governor of Pennsylvania, as including, among other things, opposition to the lavishing of 'needless millions snatched from the hands of patient labor upon objects not distinctly defined by the constitution." In other words, they include opposition to precisely such jobs as the River and Harbor bill, which a majority of both Houses present and voconvention in Fulkerson's district ting on its passage nevertheless disgracty by supporting. In what does the Democracy consist if a Democrat who over Fulkerson's head, Fulkerson has | talks about the "principles of Jackson," not clearly defined in the constitution?" > If there is any such thing as unconscious eroism, says the Philadelphia Times, Fannie Coman, a fourteen-year-old girl of New York, possesses it in a high degree. While playing near a boat house on the Harlem river she dived headlong from the end of a pier to rescue from drowning little Jessie Renton, her playmate. Little Jessie came to the third time, when she was grasped by her brave young friend and borne to a boat twenty feet away. After seeing the half drowned girl safe in the arms of her older brother Miss Fannie swam after her slipper, which had dropped from her foot as she dived from the wharf and which was bobbing up and down on the water some distance out in said afterward that it was a new slipper and she didn't want it lost, at the same time expressing childish surprise that any one should praise her for saving little Jessie.

—Two children, near Hestonville, Lincoln county, Ky., got into a quarrel, on Thursday ast, when one struck the other, whereupon the latter drew a pocket-knife and stabbed the former to the heart, killing him instantly. The boy killed was the son of Mr. Bishop and he other was a son of Dr. Clifford Fowler. Neither of the boys was yet 14. -A Mt. Vernon special to the Cleveland

Leader chronicles a singular accident to a four-year-old daughter of Alexander McGurgin. The child was playing with a piece of twine tied to the front door latch, and in some unknown way the door was shut. The cord caught around the little girl's neck and strangled her before she was discovered. Late on Priday night an altereation took place at Mill Creek, two miles from Pottsville, between Bernard Horne and John Gor man, respecting a fence between their prop erty. After some explanation Horne walked

There was a sensation in a prayer meeting at Jonesburo, Ark., the other night.
Rev. J. H. Porter, the leading divine of the lace, while exhorting his hearers to come forward, was noticed to gasp for breath and his eyes filled with tears. He at last recovered and cried out: "My God, is it so? Is my work done?" Before those nearest could catch him he fell to the pulpit chair. He had been stricken dumb, and all efforts to restore his voice have proved unavailing. The best hysicians of the neighborhood have given the case their attention, but it is believed that he will never be able to speak again.

A STRANGE STORY .- The Arestock Result Hoon tells this story, and a queer one it is: A young man by the name of Micah Shorms

AUGUST 11, 1802 - St.

A young man by the name of Micab Sherman, the closes son of a widow Niching in the town of Hampden, on the Penohecot river, had been in falling health for some time, and thinking that a sex voyage might be beneficial, he started in the barque Templar, Captain S. Bartlett, for a voyage to Liverpool and the Chincha Islands and from there home.

His half-brother, Mr. Jashua Sherman, now of Bangor, was first officer of the ship. It was from him that we had this singular story.

It seems that the poor boy derived no advantage from the voyage, but steadily grew were until at last when near Cape Horn, he seemed to be in the last stages of consumption.

n a sort of drowsy state. One day when his brother visited his sick bad he suddenly said— "Joshua, I have been home and have seen

the slok girl was dead. Said he, "I went home and they were having her funeral."
A few days after that he died. When the brother got home he found that his step mother lead married again and her hushand had quite a family there, and that one or the children—quite a young woman—had died.

Upon comparing dates they found that the girl had actually died and was buried on the very day the stek boy had described, and all he had said was true, even to the removal of the buildings.

A FIRNDISH PLOT AMONG SOUTHERN NE-GROES. -An organized plan to kill the white residents of Choctaw county, Alabama, is thus detailed in a Mobile telegram of Mon-In Cheetaw county, Ala., on the 15th test., a

In Cheetaw county, Ala., on the 15th inst., a bundle of papers discloring a well organized plot among the negroes to kill the entire white population of the town was found near one of their rendezvous by two gentlemen. The matter was laid before the solicitor. On the 18th inst. a quiet meeting of the citizens of Mt. Sterling and Butler was called at Butler to consider the best mode of suppressing the intended outbreak and massacre. After the discussion it was agreed that the ring leaders, Jack Turner, F. D. Barney, Jesse Wilson, Peter Hill, Willis Lyman, Aaron Scott and Rango West, to whom had been assigned the duty of leading the respective squads to Butler, Mount Sterling, Piectville and other places, and killing all the whites at each place, should be arcested and lodged in jail, The arrest was effected on Thursday without disturbance or bloodshed. The same day a mass meeting of the citizens of all from the Government the exclusive right to establish the National Art Studio. He located the ground, ten acres, and the plot was recorded by the custodian of the Park. The ground selected is in the heart of the geyser basin, and is a very beautiful spot. While photographing last fall he discovered one geyser that sponts gold, that is, by holding a piece of any kind of metal in the geyser during eruption, the article becomes plated with a durable thickness of gold. Mr. Haynes' watch-chain is a proof of the lasting qualities of the plate.—Salt Lake Tribune. were about one hundred and diffy negroes, who atter hearing the papers read, by an almost unant-mous vote decided that Jack Turner was a turbulent and dangerous character, a regular prebrand in the community and that the public demand his immediate death, and he was accordingly hung at 1.15 P. M. in the presence of the multitude. The crowd then dispersed and all signs of disturbance closed. Everything was quite Saturday night.—The other prisoners are still in juil to await further developments. er developments.
