Our Illi-nois friend brought with blm a half bushel or so of monster onions of his own production, and on Monday last presented us with four of the largest and finest vegetable eye waterers we ever sampled. These onions are of the Yellow Danvers variety and were grown from the seed, less than a quarter pound of which was sown on a piece of land about 18 rods square, and not only produced some 60 bushels of onions, but the same ground also brought forth 240 heads of cabbage and nearly half that number of beets. That is some more so-called poetry which is a few weeks behind date, but it will answer the purpose of calling attention to the fact that the New York Clothing Hall, 210 Main street, Johnstown, is so called because it solls men's, youths' and boys' wear at as low prices as the same article can be bought in Gothany. Indeed, the lowness of its prices is a source of never-ending wonder to its customers, while the fexture, style and make of its goods may not be caviled at. A VISIT TO THE QUAINT OLD TOWN OF EB-ENSBURG-BY WHOM IT WAS FOUNDED AND THE ORIGIN OF ITS NAME - HOW AND SCENES ABOUT CRESSON.

A CHOOKED BALLHOAD.

The town is not large, but it contains one of the handsomest brick court houses to be found in the State, which cost about 200,000. Its position is a conspiences one, and the tower is adorned with a clock. The jail, too, is in kenning with the temple of instice, only the walls are of stone and its front of a handsome specimen of sandstone. As the land rolls off to the right and the left the tourist is surof a handsome specimen of sandstone. As the land rolls off to the right and the left the tourist is surprised at the degree of perfection to which it has been brought earleulturally. Smiling farms dot the landscape, and the homes of thrifty husbandmen are seen in all directions. The stranger would not expect such evidence of thrift in the mountain region. Coal and from however, are the great staples of the county. There is also considerable lumbering yet, but that source of industry is almost exhausted. Ebenaburg is reached by a brench railroad from the main line at Cresson, eleven miles long. It whose around the bills and is as crocked as the fabled ram's born of the Israelites. In fact it is composed of one compound curve after mother. A mixed train runs between the two points at convenient hears during the day, and in order to give the traveler ample time to drink in the world over its main stem, allows one hour to mile! And yet there are narvous old ladies who are not happy over this rate of speed, just as there are others who are a darposed to grunnble when a train thunders along at the rate of a mile a minute. Local and the state of a mile a minute, because it don't make botter time! There are many queer people in this beautiful world, and we have a well as by the side of the moaning sea, or on the bosom of the dancing river.

Ebensburg has many kind, hospitable and jolly inhabitants. They are found in all mountain regions, just as the diamond is found in the sands. AS A SUMMER DESCRIP.

AS A SUMMENT RESORT.

Since Cresson has become such a popular place of resort, old Ebenslung has caught the fashionable fever, and now effers attractions to pleasure-seekers also. The Lioyd House presents as cheery an appearance as its proprietor, and it is reported fitted with summer boarders. Adjoining it is a magnificent growed institue trees, whose foliage is so dense that the sun its sancally able to penetrate it. Walks run in various directions, and in a shady deli not far away is a spring of pure water, which bubbles up through sandstone rock. No medicinal properties are claimed for it, the reader will be surplied to learn, further than what may be derived from pure water distilled by Nature in her own laboratory. As you climb the steep bill from the station and pass the stately Court House you come to an ancient hostelire called the Mountain House. The old turnpike, which passes on the principal street, once brought many customers to it. But turnpike days have departed. No conches of the older time roll over it now. The proprietor of this quiet old inn, Heist by name, looks forward to the day when Ebensburg will be a popular summer resort, and he has commenced the creation of a grant bottel at a place in the out. looks forward to the day when Ebensburg will be a popular summer resort, and he has commenced the erection of a grand hotel at a place in the outskirts, in a beautiful grove called Maple Park Springs. The building is 48x14s feet, three stories high and in the Queen Anne style of architecture. The grove contains fifty five acres, and the hotel is 2,250 feet above tide. The view in all directions is very charming, and in this rarefied atmosphere objects can be seen with great distinctions a long distance off. How different are things here since the austere Gallitzin passed away! The goddess of fashion had no show in his time. Now she has reared her altar in sight of his loved Loretto, and the sound of music, reveiry and mirth swells upon the air in sufficient volume almost to make the plons priest turn in his coffin.

Lattle did old Dr. Cresson think in his day that the sound of music, reveiry and mirth swells upon the air in sufficient volume almost to make the pious priest turn in his collin.

Little did old Dr. Cresson think in his day that this place was destined to become so famous and that his name would be perpetuated by one of the most delightful places of resort in the mountains. Such, however, was destiny. The Reystone Hotel has aircady expended \$35,000 in building the great botel known as the Mountain House, and in beautifying and adorning the grounds. But still the work goes on, and when another summer comes round the place will be found more inviting than now—there will be more flower beds, the hillocks in the grove in the rear of the house will be smoothed down, grass will be growing where wild brambles now thrive, the trees will be neatly trimmed more fountains will send up their spray and the little lake at the foot of the hill will be more of a lake than it is now. A monument will be erected over the grave of Minnequa, the dusky Indian maiden, whose bones have been transferred hither from Bradford county. The romantic story of her life will be engraved on a marble tablet and placest in a conspicuous position where palefaced maidens can peruse, study and weep over it.—There are many other delightful places in Cambria county. In fact it is as full of wonders as it is of mountains. Tourists need not journey thousands of upon miles and at an enormous expense to gaze the wonders of the Alps; they can find as grand sights, as glorious prospects, as sublime peaks, as wild canons and as gloomy dells in the Appalachin Chain as they can find in the land of the Swiss, the sturdy German, the vivacious Frenchman or the indolent Spaniard. The grandeur of these mountains is unknown, and although we talk at d write about them we know comparatively little of their hidden glories, and it remains for posterity to point them out and enjoy them. It is in view of this, no doubt, that the prophet of the Keystone Hottel Company directs that the work of adornment shall go on, beca

The thought that a jury could be bought in any case is repellant, but in this particular case it is horrible to contemplate. From the beginning to the end of the trial, the buoyant, hopeful and insolent demeanor of the Star route thieves, their lawyers and interested friends, gave sufficient reason to believe that they were confident of an acquittal,

HYMENAEL.

APEL-ROBERTS.—Married, in this place, on Thursday evening, August 24, 1882, by Rev. A. S. Morrison, Mr. Aldrier Aren, of Sammerhill, and Miss Marrie J. Roberts, of Ebensburg.

Some cake quite delicious, with the compliments cheery of the happy young couple, to our office, so dreary, came as a welcome memento of an event full of joy to the twain, whose inture, we hope, may have no alloy—that is to any, while down life's stream they puddle and float, may peace and contentment guide at all times their boat.

received by C. T. Roberts, is to see work and material which can't be excelled in the countries of the Johnstown Street Passenger plany awarded the contract for the Johnstown Street Passenger Passenger plany awarded the contract for the Johnstown Street Passenger Pass

PATENT IMPROVED

SPRING-TOOTH HARROW ONE OF THE BEST FARM TOOLS EVER INVENTED.

Tried and Tested Successfully. Cives Ceneral Satisfaction. TOOTH CANNOT SLIP.

Farmers can save the price of one of these Harrows in a very short time, in time and labor saved in going over the ground, as once going over propages and mollows it up in such a condition to receive the seed as would not be obtained in going over three or four times with any of the ordinary Harrows. It is also the best read-caverer in the world.

Ground propaged by this Harrow will yield a larger crop than by anylother agricultural implement, because it pulverizes the ground thoroughly, cuts the sold from the bottom, stakes it up, and leaves it is a loose condition; in so doing it shakes not all grass, this tie and woods, leaving them on the surface in the sun, where they die much quicker than if half covered up. WALNUT LEAF HAIR RESTORER. It is entirely different from all others. It is as clear as water, and, as its name indicates, is a perfect Vegetable Hair Restorer. It will immediately free the head from all dandrull, restore gray hair to its natural color, and produce a new growth where it has fallen off. It does not in any manner affect the health, which Sulphur, Sugar of Lead, and Nurstan of Silver preparations have done. It and Nitrate of Silver preparations have done. I will change light or inded hair in a few days to beautiful glossy brown. Ask your drungist for Each bottle is warranted. Smirth, Klink & Co. Wholesale Agents, Philadelphia, and C. N.
