AT WANAMAKER'S

Visitors to Philadelphia are invited to visit the store, whether to see or to buy. Your parcels are checked; a waiting-room is provided, where you may rest with ladies and children; guides conduct you through the house, or you wander at will; there are many things of interest to see, and a welcome

For two years, perhaps, we have had the richest, largest, most varied and most exhaustive collection of dress-goods in Philadelphia. Before that, we may have had the largest, and even the most exhaustive, but perhaps not the richest. The slowest trade to come to a new merchant is the trade of luxury. It is the slowest to change from one to another. But it does change.

We may say our dressgoods of all sorts are at about their highest now. Becond and third circles, southeast from center

Silks of all sorts have come; and never were silks more acceptable. And these words have a meaning here beyond any they could have elsewhere; because of the greater variety of wants that look to us for supply. We must have all accepted styles, and all the approved qualities of those styles; and, as to colors, can you think of one that we can do without?

A store that has only one class of trade can get along with comparatively few silks. Which stock would you rather buy out of?

Next outer circle, south entrance to main building.

Two damask towels at 15 and 18 cents may serve to show what we gain by buying of the makers. The very same towels are in the wholesale trade in New York at about 21 and 22 cents, which means at least 25 cents at retail.

We are not going to say that all our retail prices are below New York wholesale; nothing of the sort. "More than one swallow to make a summer." But where such towels are to be got for 15 tents is a good place to look for bed and table-linen, and all the other linens. That's what we mean exactly; it's true, too.

Outer circle City-hall square entrance. A very wide and surprisingly good navy-blue twilled flannel for 50 cents; 45-inch.

Do you remember a 35cent flannel for 25 cents, of which we had 18,000 yards last fall? Afterward we got 7,000 yards more of it; and a little of it is left yet. That is 23-inch. This wide flannel is fully as good as that. Third circle, southeast from center.

All the warmer sorts of underwear are ready; for men, women and children: thick-cotton, merino, wool, and silk. All the sorts needed for all sorts of people with all sorts of notions; and, for people who want it, there is quite a little wit about underwear to be picked up at the counter. Where else would you look for it? Not in books surely; for goods are changing all the time; and so get ahead of books. West of Arcade, 1313 Chestnut;

JOHN WANAMAKER. PHILADELPHIA.

ONE AND THEN ANOTHER.

One step and then another, And the longest walk is ended; One stitch and then another, And the longest rent is mended; One brick upon another, And the highest wall is made; One flake upon another,

And the deepest snow is laid. So the little choral workers. By their slow and constant motion, Have built these pretty islands, In the distant dark blue ocean ; And the noblest undertakings Man's wisdom bath conceived;

By oft-repeated effort Has been patiently achieved. Then do not look disheartened On the work you have to do, And say that such a mighty task, You never can get through; But just endeavor, day by day, Another point to gain, And soon the mountain which you feared

Will prove to be a plain.

"Rome was not builded in a day," The ancient proverb teaches, And nature, by her trees and flowers, The same sweet sermon preaches. But duties which are near, And having once begun to work, Resolve to persevere.

TIED TO A TREE. BY ROBERT MORRIS, LL. D.

In the early settlements below Vicksburg, Mississippi, there was a want of law and morals. Might was right and weak-handed agreed to leave the miserable creature there justice had no chance to make her power

Among the ungodly reprobates who infested the country, living by no honest labor and to no useful end, was one George Davenport, by profession a gambler, by practice a bully, the terror of the few peaceable and law-abiding citizens. Davenport was a man of family, his wife equally lawless with himself, accompanying him upon his excursions, assisting him by counsel, and, unless common hand occasionally when an extra hand was whose intolerable venom aroused him

comprehensive declaration was enforced by oaths and pledges from the other three. But a Mississippi gambler in the old days was schooled against fear. Davenport had been too often under the crack of the pistol and cut of steel, and his reply was full of

"Whip away! But, if you begin, you had best kill, or I'll kill the whole four of you!" I need not describe the horrid scene. The endurance was equal to the occasion. The bardened ruffian was a match for the four, and although their whips were clotted with blood, and their arms weary with the exercise, his indomitable spirit defied them to the end. He fell into a dead faint, and the four lynchers consulted in dismay what they should do with him.

It was past midnight." The sultry, miasmatic air of the canebrakes, heated up occasionally by one of those hot gusts that come from no one knows where, spoke of an approaching storm. The bites of the mosquitoes that choked the very atmosphere with their abundance, were past endurance, and as the half-naked body of Davenport hung backward in its lashings, the strips of bloody skin torn loose by the whip lashes were quite concealed under their black and greedy forms. What should they do? The suggestion of Dr. Wells-the reader can surmise what it was-was not accepted. Finally it was until morning and return.

Left there among the mosquitoes !-left hanging to that holly tree, agonized with stripes! More kind the doctor's suggestion. But thunder clouds were darkening and roaring around them, and the party had great ado to follow the dim path and cross the river before the storm feil. Amidst the crashing of timber and the

All carpets, however, have a realty fiendish alacrity in collecting dust, which renders it absolutely necessary to take them up at least once a year, and subject them to the severe discipline of a thorough beating. It is an error to imagine that the dust which collects underneath carpets is placed there by any human agency. A carpet may be placed on the floor of a perfectly clean room, and the doors and windows may then be closed, and the room left unvisited for a year. At the end of that time the carpet will have gathered so much dust that no one can tread upon it without filling the air with dust, and the necessity of taking it up and collect dust is clearly due to the malevolence

of their nature, and it betrays an ingenuity which is as wonderful as it is shameful. Unfortunately there is no substitute for carpets which is satisfactory. India matting is cold in the winter, and wears out rapidly under the attrition of chair legs, while oil-cloth in all its varieties is utterly incompatible with the domestic virtues, -What is needed is a variety of carpet that retains the warmth, softness, and beauty of the present carpet, but which is also sufficiently elastic to admit of being stretched to twice its normal size, absolutely impervious to dust, and as durable as the softer grades of cast iron. Such a carpet is sometimes seen in dreams by weary and perplexed housewives, but it is almost too much to "Oh, but I am. It is shameful that a man will speak more impolitely at all times to his wife or sister than he would to given for what it's worth. We don't vouch one.
