-Ladles' and girls' gossamers at Barkers'. -A young lady mened Stalb, living in the family of John H. Douglass, Esq., in Clear-field township, ran a needle in her hand about three weeks ago, the needle breaking dent of near Johnstown. Not yet sentended, them'th we Joseph O'Donnell-fermication and basardy: Ethen Beinrick, prosentir's. The jury find the defendant guilty, and he is sentenced to pay a fine of one dollar, costs of prosecution, and in further may to Ethen Beinrick the sum of \$20 lying in expenses, and the further sum one dollar per week for the support of the bastral for the term of begen years from the first of September, take are off, and since then she has suffered uniold orments. Her arm became greatly swillen, numing sores broke out on her wrist and 1882 sto. Com'th vs. August Abler-forni atlan and bas-

tending physician has thus far failed to find the piece of needle, but we are glad to learn that the young lady was much better at latest accounts. m'th vs. Wm. Mellon-resisting officer and

PERISHED IN THE FLAMES. A DISASTROUS FIRE IN MILLVILLE BOROUGH

-TWO CHILDREN ROASTED TO DEATH. Three frame tenement houses, a stable and an office, situate in Miliville borough, below

Johnstown, all of them belonging to the Cambria Iron Company, were burned to the ground last Friday morning. There were forty seven head of horses and males in the stable when the fire was first discovered, but they were all successfully removed before the bames reached the building. The rear portion of one of the dwellings was occupied by Hiram Berkeybile and his family, and it was in that part of the building the fire originsted. There are, however, conflicting statements as to its cause. The family consisted of the father, mother and five children Four of the children occupied a large bed in ommon, and the other, a babe, slept in a crudle in the same room with its parents. The father who is employed in what is known as the nine-inch mill, had gone to work before the fire occurred, and Mahlem, one of his sons, who works in the same mill, was on the night turn, and had come home soon af-ter 5 o'clock and gone to bed. There was then, as he says, no fire or light about the house except the lamp in his mother's room. A few minutes after 6 o'clock, Sarah, about A rew minutes after 6 o clock. Safah, about eight years, called to her mother, saying : "Mamma, there is fire : f hear it cracking." Her mother at once recognized the presence of smoke in the room, and springing from bed, clasped the babe in the cradle, crossed the hallway to the stairs, and finding escape cut of by the flame and smoke, she passed through the nomination occupied by the four chil-chren to the purch and leaped with the child in her arms to the ground. The other chil-dren were quickly aroused and Mahlem suc-cessed in leading Harvey, ten years old, from the house and was returning to rescue Neilie and Sarah when he was overpowered and prostricted by the dense volume of smoke. He was dragged from his perilous position and it was found that his left arm had been terribly scorched and roasted while he was fighting his way, to the bed-room of his brother and sister. Meantime the flames spread rapidly, and although the fire engines were soon on the ground no effective work could be accomplished before the neartments occupied by the Berkeybile family had been reduced to ashes. It was hoped that the two children, Sarah and Willie, had succeeded in some way in making their escape and were at the house of some neighbor, but between 9 and 10 o'clock their charved and blackened trunks were discovered in the cellar, directly under the room in which they had been sleeping. Their funeral took place at three o'crock in the afternoon. Neither the father nor mother of the children saw their bodies after they were found, having been dissua-ded from viewing the remains, which were taken to the office of the Burgess. The famllies who were deprived of their homes by the flames have been amply provided for, the Cambria Iron Co, having given orders that their necessities must be met, in supplying which they have been generously aided by the authorities of Millville, as well as by private citizens. We are indebted to the

Wm. G. Osgoodby, the well-known safe manufacturer of Buffalo, Philadelphia, Pitts burgh, Newark, and Atlanta, Ga., says :

OFFICE OF USECODDY'S IMPROVED SAFES, 17 S. Aroad Street, ATLANTA, GA,, Oct. 17th, 1881.

ATLANTA. GA., Oct. 17th. 1851. Dr. Rush's Medical Association : Dram Doorons—The three bottles of "Dr. Rush's Regulator" I ordered were received by express last week. I have taken nearly one bottle and am thoroughly satisfied with the result. For over two years I have been troubled with shurp pain st my heart. My physician, upon examination, pro-nounced it enlargement of the beart, and was un-able to five meany relief. The trouble grew worse, until I had become convinced that I could not be cured. While in New York city has week I called on one of the mean prominent physicians there, who charged me 525 for an examination and then recommended sont "Regulator." Knowing you to be a regular Missinal Association, and not a pat-ral medicine scheme, I ordered the three bottles. I have not been troubled since I commenced taking it, but shall continue and take the ontire three bottles so as to obtain a permanent cure. You have more thore in the contine of the providence there who that all continue and take the ontire three bottles so as to obtain a permanent cure. You have

Thanksgiving Christmas.

Twenty business days intervene between these two holidays. and we propose to make them, if possible, the greatest days of all the year for Oak Hall sales. We are thoroughly prepared with Overcoats and Suits for Men of all sizes and Boys of all ages. All that remains is for the people that trade in Philadelphia to believe what we say and come for our goods.

Prices are Extremely Low.

Our goods have been well bought, and most of them cannot be replaced at cost prices. Costs, however, have nothing to do with our selling prices. Prices are made in Oak Hall solely with reference to the cost of reproducing the goods. If we make, it is well, if we lose it is bad; but make or lose, the buyer has the least possible price.

The stock contains, made and making, over 10,000 Over-COATS; over 200 lines of men's and young men's suits; over 160 lines of suits for large and small boys. The value of this stock was, thirty days since, over

One Million Dollars.

It is less now, but still very big, and big enough for all who will come. Fresh goods put in stock daily.

A special bargain now on our counters is our

\$12.00 Fancy-back Cassimere Overcoat,

which, however, is only one among a great host of interesting things.
