

THE CAUSE OF DEATH.

We know, almost for certain, how death takes place in all individual diseases...

MRS. VAN BUREN'S LADIES' TONIC.

THE GREAT FEMALE REMEDY. A POSITIVE CURE FOR THE DISEASES OF WOMEN.

"Ladies' Tonic" is prepared by Women's Medical Institute of Buffalo, N.Y.

What, then, is it that usually causes death? Does it not look very much like the sudden action of a powerful poison...

Experiments that have lately been made, and which we have to thank for the discovery of the Ptomaines...

"LADIES' TONIC" is the favorite prescription of the Women's Medical Institute.

What may all these investigations, and their attendant results, mean to you?

CLIPPING FOR THE CURIOUS.—A walnut produces about seventeen gallons of oil and five pounds of ivory.

During the Middle Ages, when the social distinctions of the people were sharply drawn and defined, the hat, by its form, its material and its decoration...

"VACCINATION" FOR CHICKEN CHOLERA.—Mr. W. H. Griffith, of Zanesville, O., says that during the past two years he has vaccinated 1,000 fowls...

I saw so much said about the merits of Hop Bitters, and my wife who was always doctored and never well, fessed me so urgently to get her some...

CAN THIS BE TRUE?

"I would like to have an advertisement inserted." This is a slogan that would recur to a dead man behind a newspaper counter...

"Clear type, black ink and white paper are good enough for me," was the response.

"All right; want head-line in type in ink, bold than Jenkins' ad in next column, or will you have it put in upside down, or your name in crooked letters like forked lightning all over it?"

"No; a plain, straightforward advertisement with four inches will answer my purpose."

"Good enough. Want about ten inches of notice free, don't you? Family history; how your grandfather blacked Washington's boots once; mention of yourself as a member of a circulating library, church, fire company, co-operative store, base ball club, and other important public positions?"

"Of course," said the clerk, "you want a free paper sent to each member of the firm; one for yourself, with the privilege of taking half a dozen copies of the counter every week or two because you advertise?"

"The newspaper man expected to pay for the paper and asked the price of advertisement. The delighted clerk figured it up, and then asked: 'If you send the bill around in about a year, you can tell the boy when to call again, can't you?'"

"No, I can't pay you now," said the other, faking out a roll of bills. The newspaper man's eyes bulged as he said: 'Ah! you want to ask for seventy-five per cent. discount and twenty-five per cent. off for cash?'"

"I am ready to pay a fair price for your regular rates and here is the money." A beautiful expression overspread the wan face of the worn clerk, and he murmured: "Stranger, when did you come down, and when do you expect the Apostles along?"

"BABY ELEPHANT." Barium is employed at his acquisition—the baby elephant—and declared that \$300,000 could not buy it.

"A CURSE FOR SCIATICA."—A cure for neuralgia and sciatica—and, as I am told, an unfailing one—is too valuable not to be recorded.

THE HOUR DOCTOR.

Rub sprains, bruises, and lameness with the paste made from salt and the white of an egg.

For a cold, or burn, apply immediately pulverized charcoal and oil. Lamp oil will do, but linseed is better.

Charcoal forms an unrivaled poultice for wounds and old sores. It is also invaluable for what is called proud flesh.

A teaspoonful of charcoal in half a glass of warm water often relieves a sick headache. It absorbs the gases and relieves the distended stomach.

A good remedy for warts and corns: Drop a little vinegar on the wart and cure it immediately with cooking soda or saleratus; let it remain ten minutes.

Take a moderate sized potato, rather large than small, and boil it in one quart of water. Remove the part affected with the water in which the potato has been boiled as hot as it can be borne at night before going to bed; then crush the potato and mix with the soft part as a poultice.

It has never yet failed to be successful. —Vanity Fair.

USEFUL SUGGESTIONS.

Raw starch, applied with a little water, as a paste, will generally remove all stains from bed ticking.

To clean and polish tortoise shell, dip a drop or two of sweet oil, and rub it thoroughly with the ball of the thumb.

To remove spots from furniture, take four ounces of vinegar, two ounces of sweet oil, one ounce of turpentine, mix and apply with a flannel dipped in the mixture.

To clean iron, use a lump of browned steel wool, one ounce of turpentine, and two ounces of lard soap, wash with hot water, and then scour with a rag or paper sprinkled with salt.
