MR. HORNE, one of the members from this county, has introduced a bill ways, a way. At the session of 1850, into the House requiring laborers about thirty-five years ago, this same question coal mines and manufactories of iron of a new county to be called "Pine" and and steel, to be paid in lawful money Cherrytree as the county seat, was beand at least once in two weeks.

THE old Liberty bell was received with due honor at all points on its journey from Philadelphia to New Orleans, where it arrived on last Monday afternoon, having started from Philadelphia on Friday lastat 10 o'clock, A. M.

AT the meeting of the Democratic State Committee last week at Harrisburg, W. U. Hensel was re-elected Chairman, and the Executive Committee of last year was also re-elected, viz : Wm. F. Harrity, of Philadelphia; B. F. Myers, of Harrisburg ; R. P. Allen, of Lycoming ; Eckley B. Coxe, of Luzerne ; E. A. Bigler, of Clearfield ; Richard Coulter, of Westmoreland, and Wm. J. Brennan, of Allegheny.

Chairman of the Committee on Printing not "the gentleman from Clearfield" stitutional Reform, Federal Relations, Corporations, Appropriations, Insurance and Legislative Apportionment. Rep-Committee on Legislative Apportionlic Buildings. Representasive Gates is a member of the Committee on Centennial Affairs, Mines and Mining, Bureau of Statistics, and Printing.

THE business to which the Republican members of the lower branch of the Legislature have been devoting their special attention for several days, consists in the introduction of resolutions instructing our two United States Senators how to vote on certain measures now before Congress. As every tub. ought to stand upon its own bottom, the Republican statesmen in the House ought to stop their silly instructing business and permit Cameron and Mitchell, both of whom are of full age, to vote as they see proper. It will save the State

a warm contest passed that body by a small majority. The chances were that it would pass the Senate, unless it could be managed by the enemies of the bill to have it referred to a select committee of three members in that branch, with Augustus Drum, of Indiana, then the Senator from this district, as Chairman.

This was successfully accomplished by the then member from Jefferson county going to the then member from Clearfield county, who was the champion of the measure, and inviting him to go down to Brady's Hotel and get a drink of whisky. He went, and while he was absent, William Jack, now a banker in Hollidaysburg, but then Clerk of the House, took the bill over to the Senate, where on Drum's motion it was referred to a select committee of three, himself being Chairman, and that was the last

TWO EXPLOSIONS INSTEAD OF ONE. There were two explosions instead of one at the Parliament House. The second came three minutes after the first. One was near the House of Commons and the other was at Westminister ball. One man was arrested near the scene of explosion.

Saturday being visiting day at the House, Parliament buildings contained a number of sight-seers. Just before the first explosion a lady passing called a policeman's attention to a package lying on the steps outside the crypt .-unsuspecting policeman carried The It into Westminister hall, where it exploded. He was so badly hurt that his case is considered critical.

Its force also knocked down other policemen and badly stunned them. A lady and gentleman standing near the office were also prostrated. The great window over the main entrance to Westminister hall was smashed to atoms, and all the side windows were blown out,-In the interior of the House of Commons the only seat damaged was that occupied by Mr. Gladstone, A small chip was also torn off the speaker's chair. The explosion caused a panic building, and many ladies were bruised in the crush. The second explosion in the Parlia-

ment buildings occured three minutes later than the first and was far more destructive. The dynamite which caused the seconed explosion was placed under the Peers' gallery on the left side .-Little hope is entertained of the recov-

ery of the wounded policeman. The force of the explosion was such that it blowed one man to the earth who was 300 yards away from the place where the explosion occured, and the lobby of mol;shed.
