OME of the Republican papers are sty disturbed because Lieutenant een, the officer of marines who capand old John Brown at Harper's Ferin 1859, has been given a small Feds office by Mr. Cleveland somewhere the far West, where Green has been ing. And yet the Republicans of the cole country are trying to elect to the vernorehip of Virginia John S. Wise, son of Henry A. Wise, the then vernor of that State, who caused own to be executed. And this son a Confederate soldier, too, and if had been old enough to have his own g, would have had old John Brown cures to feed on.

THE Republican managers in this end the county are circulating a ticket staining the names of all the Demotic candidates except that of John rabaugh, for Poor House Director, whom that of George J. Myers, the publican candidate, is substituted. on Rorabaugh is as honest and uptht a man as there is in Cambria unty, and was fairly nominated at the mary election, and we trust that in ery election district in the county no moerat will permit his ticket to go to the ballot box without having first safed himself that the name of John rabaugh is on it. Cassidy's Clear Case.

Attorney General Cassidy made clear and forcible presentation of the fore the Dauphin judges. His management of the cause of the State has been masterly and energetic, ever since he assumed it, and his final summing up of it showed the other side to be literally without defense. He very happily emphasized the evasion and double-facedness under which the attempt to get behind the Constitution officers to the front in the various capacities they fill, according to the exigencies of the occasion. THE following was promulgated on Tuesday by the President for the information of the public, and office-seekers in particular EXECUTIVE MANSION, Oct. 27, 1885

For nearly eight months a large share of the time of the President has been devoted to hearing applie tions for office and the deermination of appointments. Much of the time thus spent has undoubtedly subserved the public good ; some of it has been sacrificed to the indulgence of people in their natural insistence upon useless interviews, and much of it has been unjustifiably wasted. The public welfare and a due regard for the claims of those whose interests the Government are entirely disconnected with office holding imperatively demands that in the future the time of the President should be differently occupied, and he confidently expects that all good citizens will see in the propriety and reasonableness of the following plan

After November 1st the President will decline to grant interviews to those seeking public places or their advocates. On Mondays, Wednesdays and Fridays during that nonth, from 10 to 11 o'clock in the morning he will receive such other persons as call on public business, and on the same days at half-past 1 in the afternoon, he will meet those who merely desire to pay their respects. On all other days and times during that month he will receive only Cabinet officers and heads of departments.

Hardened Liver.

Five years ago I broke down with kidney and liver complaint and theumatism. Since then I have been unable to be about at all. My liver became hard like wood; my limbs were puffed up and filled with

All the best physicians agreed that nothing could care me. I resolved to try Hop. Bitters; I have used seven bottles; the hardness has all gone from my liver, the swelling from my limbs, and it has worked a miracle in my case; otherwise I would have been now in my grave. J. W. Mongr.

Poverty and Suffering.

"I was dragged down with debt, poverty and suffering for years, caused by a sick family and large bills for doctoring. I was completely discouraged, until one year ago, by the advice of my pastor, I commenced using Hop Bitters, and in one month we were all well, and none of us have seen a sick day since, and I want to say to all poor men, you can keep your families well a year with Hop Bitters for ess than one doctor's visit will cost.

surface indications" of what is beneath, are the Pimples, Sties, Sore Eyes, Boils, and Cutaneous Eruptions with which people are annoyed in spring and early summer. The effete matter accumulated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. While it remains, it is a polson that feature. while it remains, it is a poison that festers in the blood and may develop into Scrofula. This condition causes derangement of the digestive and assimilatory organs, with a feeling of enervation, languor, and weariness—often lightly spoken of as "only spring fever." These are evidences that Nature is not able, unaided, to throw off the corrupt atoms which weaken the vital forces. To regain health, Nature must be sided by a thorough blood-purifying med icine; and nothing else is so effective as

Ayer's Sarsaparilla,

which is sufficiently powerful to expel from the system even the taint of Hered-itary Scrofula. The medical profession indorse Aver's Sarsaparilla, and many attestations of the cures effected by it come from all parts of the world. It is, in the language of the Hon. Francis Jewett, ex-State Senstor of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."
