The scepter of leadership of Tammany has passed from the hands of John Kelly. Frail in health and indifferent to politics, he abandons the exciting field in which he has so long been a master spirit, and which be ruled with a rod of iron. He has not been a success as a city boss. Possibly he was too honest. Certainly he was too blunt, aggressive and self-reliant-took too little account of others, trampled out apposition and ansorbed the whole power of the or-

ganization. The World says. Strange as it may seem, the uncompromising and burning Roman Catholic took to his bosom men of all creeds. He showed not the slighest tinge of religious blootry. His methods of ruling was simple. If a man differed with him about a pomination presented each of the ministers he would gather in the most wonderful collection of facts covering the question in all its nearings and then he would sit down and McDade and George Diener, were patiently and persistently with an argument to jail on Monday last, the former that would sweep the ground from beneath his opponent's feet. His powers of slow, and halfery and the latter to await detailed and subtile argument were simply marvelous. He would never use force where argument could carry his point. But if he failed to convince a man he would seize him with the rough hand of a Cromweil and throw him out of the Council. Each man was but as a machine guided by Kelly's brain and will. If a stranger had wandered in he might have thought that an animated struggle was going on and that Kelly was -ome mere spectator, but under neath the surface was his iron hand and cool, far-seeing mind, pulling, pushing, prompting, curbing and crushing on all sides. For thirteen years his autogracy was so complete that the "slate" of candidates was never broken but once. Tam many became a smooth machine with oiled wheels san Bartisbaugh, of Banks township, and the lever was in the hands of one man.

Seth celebrated his seventieth birthday on the 6 b of last State. His early manhood was spent in Illinois. In 1848 he crossed the plains to Oregon, where he remained two or three years. He returned to Illinois, but in 1849 again crossed the plains and settled in Callfornia, where he has made his home ever since. His fame as a daring hunter and trapper is broader than his State. He has killed the largest grizzly ever known in the Rockeys. Fortune has smiled upon him and he lives a life of luxurious case. Rehas just completed a chair which he proposes to present in person to President Cleveland. In a letter to a business firm in this city, from whom he purchases stores, he describes the chair as being one of the finest he has ever made, although he has completed and presented four Presidential chairs. All his chairs have been fashioned from sections of wild animals. The first he presented to President Buchanan on May 23 1857. The second he gave to Presi dent Lincoln on November 29, 1864. The great popularity of this preparation, after its test of many years, should be an assurance, even to the most skeptical, that it is really meritorious. Those who have used HALL'S HAIR RENEWER know that used Hall's Hair RENEWER know that it does all that is claimed.

It causes new growth of hair on baid heads—provided the hair follicles are not dead, which is seldom the case; restores natural color to gray or faded hair; preserves the scalp healthful and clear of dandruff; prevents the hair falling off or changing color; keeps it soft, pliant, lustrous, and causes it to grow long and thick
