#### EBENSBURG. PA., FRIDAY. - - NOVEMBER 27, 1885.

THE Republic n majority in Iowa is still growing smaller as the official returns from the back counties come in, and now falls below 5 000. It looks as though the once banner Republican State in the Union will cast her vote for a Democratic President in 1888.

THE Truth, a London paper, has made a careful calculation and declares that the money grants by Parliament to the royal family during the reign of Queen Victoria have been upwards of £29,000.000. The general and strong feeling against royal grants, says the Truck, is very likely to develop into an abhorrence of royalty as an institution, unless the great herd of Princes and Princesses are very careful of their proceedings.

It is related of Henry Ward Beecher that he once had a servant girl who was a Protestant, but who wished to become a Catholic. She consulted Henry W .. who, finding that she was sincere, sent her with a letter to Rev. Constanting C. Pise, of the church of St. Charles Bor romeo, New York, of whom he wes an eld friend. His letter ran thus: "Here is a lamb who thinks she sees better pasture on your side of the feuce than she does on mine. Take good care of her. Yours in Christ, Henry Ward stance of such Democratic folly, and if Beecher."

MR. GREVY, President of the French Republic, is described by a lady who recently visited him, as a little, dried up old man, with a skin like sole leather. He was standing before the fire with his hands behind his back and had on a dirty shirt collar and hadly needed shaving. In this attire he had just presided at a cabinet meeting. His term of office will expire in January and he is announced as a candidate for re-election. The office of the President of France as compared with that of the United States is ornamental rather than invested with any positive power.

FEW persons have any correct notion of the magnitude of the business trans acted under the Postoffice money order system. It was established in 1866 and during that year the 766 offices author lized to issue money orders, did a business amounting to about four millions of dollars. During last year the number of offices ind increased to 7,855, and the orders issued amounted to one hun dred and twenty millions of dollars. The fees received for doing this large mount of business were about \$925 000 which of course left a very large margin to the government. THE Harrisburg correspondent of the Pitthurg Disputch, speaking of the adverse criticism which has been visited upon Governor Pattison for signing the tax bill of the last session, states that the Governor looked with disfavor on the act, and had not the Auditor General and State Treasurer represented to him that it would yield about one million of dollars a year to the public treasury, he would have vetoed it. According to the same correspondent the Governor himself says : "The Philadelphia Press almost threatened me with impeachment if I did not sign it, but now it cannot state. No public man in any It from the statute book." Accomping to a reporter who recentiv interviewed Rev. Burchard, whose "Rom, Romanism and Rebeilion " speech at the Eifth Avenue (N. Y.) Hotel, is held by most Republicans to have defeated Blaine in New York and thereby decided the Presidential contest. In favor of Cleveland, that rash and impulsive pu'pit orator states that he felt very badly at first that he should have been the means of causing Blaine's defeat, but that after some time he began to investigate Blaine's record in Congress and had become convinced that Blaine was not a fi man to be elected President. He could, therefore, only regard himself as simply the means in the hands of an all-wise Providence to defeat a man who ought never to be elected. All this may satisfy Burchard, but it will cause Blaine's friends to heap additional curses upon his he.d.

JOHN MITCHELL HIPPLE, the name by which he was known when he practiced law in Butler, this State, or John | The Romantie Marriage of a Virginia Girl Hipple Mitchell, the name he assumed when he went to Oregon about twentyfive years ago, was elected United States Senator from that State on Wedpesday of last week.
