—David Auker, a Juniata county farmer, while mowing one day last week, stepped out on the mower tongue to fix something, when the horses started throwing him to the ground. The knives of the machine tore off one of his legs and an arm, and when picked up he was in a dying condition.

—The excursion party from this place to Coalport on Thursday of last week had a very pleasant trip and enjoyed themselves heartily. They were accompanied by the Ebensburg Brass Band which furnished them with music at intervals during the day, and the party returned home in the evening well pleased with their trip.

—The famous "Iron Spring" at the Bedford summer resort is lost. Flowing as it has been for a century almost, it suddenly this spring sank out of sight. Men were puttio work below the old one and all around it, digging for the new outlet, but no traces have been found of it. It looks as though it had gone to stay.—*Everett Press.*

—James Rose purchased in the vicinity of Martinsburg, Blair County, in the last two weeks about $5,000 worth of walnut timber for the European market. He travels on foot, and consequently finds all places where walnut grows. It is said that Mr. Rose has walked 185,000 miles to this country during the last twenty-three years.

—The corner stone of a Catholic church was laid Sunday in Clearfield, amid imposing ceremonies. A special train from Hontzdale brought vast throngs of people. Bishop Mutler, of Erie, conducted the services, assisted by four priests. The building will be of stone and will be handsome. Two hundred dollars were raised on Sunday toward building the edifice.

—Frank W. Barkley was found on Sunday morning last in the kitchen of the West End Hotel, where he had been employed by the proprietor, James E. Neason, in an unconscious condition. He was taken to the Altoona hospital where he died on Tuesday morning last without having regained consciousness. Heart disease is supposed to have been the cause of his death.

—The Johnston Steel Street Rail company have purchased about two acres of ground from the Cambria Iron Co. at Woodvale, where they intend erecting large shops. The estimated cost of the buildings and fitting them up will be in the neighborhood of $100,000, and when completed will furnish employment for two hundred men. Work will be commenced on the excavations for the foundations within the next thirty days.

—Go to J. & H. A. Shoemaker to buy new mowers, reapers and twine binders. They have the best and will sell cheaper for the same quality of machines.

—One farmer on Saturday morning at market sold eight hundred quarts of huckleberries at ten cents a quart, or three quarts for twenty-five cents. He sold most of them for the latter figure. While raking in the proceeds—about $64—he changed but one five-dollar bill. All the money handled by him was in silver—mostly quarters and halves—and his pockets were bulged out like small balloons with the specie.—*Johnstown Tribune.*

—An exchange says to remove a particle from the eye take horse hair and double it leaving a loop. It the object can be seen, lay the loop over it close the eye and the mote will come out as the hair is withdrawn. If the irritating object cannot be seen raise the lid as high as possible and place the loop as far as you can, close the eye and roll the ball around a few times, draw out the hair, and the substance which caused the pain will be sure to come with it. This method is practiced by axemakers and other workers in steel.

—On Friday night the store of Isaac Michaels, in Belsano, was burglarized and robbed of goods amounting to about one hundred dollars. The thieves gained an entrance by prying open the door and when in, selected what suited them and tossed the goods around about promiscuously. A basket containing a lot of goods was found in an alley adjoining the store the next morning. Two suspicious characters who had spent the day in Ebensburg and who were seen in that neighborhood in the evening are suspected with doing the work.

—Mr. Pavel Theodoroff, a native of Bulgaria, will will lecture in the Presbyterian church on Thursday evening, this week, at half past seven o'clock, on his native country, the manners and customs of the people, their sufferings from the Turks, their religion and the missionary work being done there. He comes very highly recommended as a lecturer. He is a student for the ministry, preparing himself to go back as a missionary to his country, and is helping himself in this way. He will appear in native costume. Admission free. A collection will be taken after lecture for his benefit.

—On Sunday last, two men representing themselves as peddlers, went to the house of Philip Jones in Blacklick township and telling him that their wagon had broken down some distance away and that they were obliged to dispose of some of their goods, offered to trade him some flannels, boots and shoes and other goods for a watch worth thirty five dollars and Mr. Jones was finally induced to trade. Since then Mr. Isaac Michaels of Belsano, whose store was robbed on Friday night has indentified the goods as part of those stolen from him and Mr. Jones will unfortunately be the loser of his watch

—On Saturday last a picnic was held at the farm of Mrs. McHugh, about three miles from Munster on the Wilmore road. Augustine Eberly of Munster township was in attendance, having driven there with a horse and buggy which he tied near the barn. Some time after his arrival his horse and buggy were missing and they were said to have been taken by John Skelly of Portage and driven in the direction of Jamestown. Eberly borrowed a horse and followed, but when overtaken Skelly refused to give up the horse, laid the whip on the horse freely and drove off at full speed to Jamestown where he left the horse which was recovered by Eberly. He then took charge of his own horse and gave the horse he had been riding to a young man named McHugh to return to the picnic ground who, however instead of returning it rode to Wilmore, and Eberly had to follow it there to get it back. On Monday Eberly came to this place and made information before Esquire Kinkead and had a warrant issued for John Skelly on the charge of taking his horse and buggy.

—On Thursday of last week a daughter of Judge Clayton, of Delaware county, this state, whose family is spending the summer at the Mountain House, Cresson, while out riding on horseback was thrown from her horse on the grounds near the House. She said at the time she was not hurt and immediately remounted and finished her ride. That evening she felt in good spirits and appeared to be in good health. Some time in the night about twelve or one o'clock she went down into the parlor and commenced playing the piano and kept up the playing until some of the other guests called the attention of the watchman and requested him to have the playing stopped as it interfered with their rest and kept them from sleeping. The watchman, while speaking to the lady, noticed that there was something wrong with her and notified her relatives. She was taken to her room and a physician summoned when it was found that she was suffering from acute insanity which was growing worse. Since that time and up to Monday evening she was entirely out of her mind, talked incoherently, and required to be constantly watched to keep her from tearing up her clothes and escaping from the house. On Monday she was taken to her home in Delaware county where it is hoped that with good care and kind nursing she may speedily recover.

Select Excursion to Atlantic City, Cape May and Sea Isle City

The third select excursion to points on the New Jersey coast will leave Pittsburg, via the Pennsylvania Railroad, on Thursday, August 5th, and will embrace in the points of destination Atlantic City Sea Isle City, and Cape May—three of the most popular resorts on the Atlantic Coast. Atlantic City is so well known and its many attractions are so thoroughly recognized that it is needless to say a word in its praise. Everybody who has been there will go again and those who have thus far failed to enjoy the pleasures of life at Atlantic City should not allow this opportunity to pass. Cape May, noted for the magnificence of its surf, the excellence of its beach, and the variety of its miscellaneous attractions, is at its best in August, and the visitor could select no better time to spend a few days at the Cape. Sea Isle City, though younger than either of the others, is a very charming point. The bathing is excellent, and the fishing and boating ranks with the best on the coast.

Excursionists will spend the night in Philadelphia and proceed to the shore by any regular train of the next day.

THE STARVING LABRADORIANS

Harrowing Details of the Destitution Prevailing North

ST. JOHNS, N. F., July 27.—The schooner Barrett has put in here, bringing the latest news from the Labrador coast. For nearly two weeks she was blockaded in York Harbor, forty miles east of Northeast River, by a field of ice. She brings five families who had reached that point from Sandwich Bay, over 100 miles inland, in sledges drawn by ponies on which they subsisted after their arrival. York Harbor is crowded with fugitives, but those came from the southern coast and know nothing of their northern neighbors.

On July 19, a two days' snow storm buried the entire Labrador, cutting off all communication with its population of 15,000 persons. The snow has closed all the trails. The relief vessels will now go direct to York Bay to relieve first the sufferers there.

A White Bay dispatch states that whalers report that Hudson Bay Strait is again frozen over, which is an unprecedented occurrence at this season.

The report that the temperature is ten degrees below zero is, however, denied. It has not gone lower than ten degrees above. The cold results from immense masses of Arctic ice along the coast, and it does not extend beyond 200 miles from the sea. Up to date 626 survivors have arrived here. The number that have died is estimated at 3,500. Since Saturday an east wind has blown off the banks, increasing the firmness of the coast ice.

A special examination will be held at the Superintendent's office, Oct. 1, for districts not supplied with teachers at the regular examinations. Applicants for the special examinations must present a request signed by at least four directors where applicants expect to teach.

The examinations will consist of oral and written work and will begin promptly at 8:30 A. M. Applicants are expected to be examined in districts where they apply for schools. This the law requires and teachers should comply accordingly. Applicants should come prepared to write with pen and pencil: the pencil tablet is recommended for general examination work. Paper for pen and ink will be supplied.

The general requirements for provisional certificates as announced to teachers by circular letter, should enable all to make thorough preparation, and then applicants can have full confidence in their ability to perform the work of the examination satisfactorily. Directors generally desire to make their appointment of teachers on the day of examination and unless classes are unusually large, certificates will be ready at the close of each day's examination.

All teachers are requested to present their cards given during visitation of schools last term; from these certificates will be marked in "practice of teaching." During examinations, teachers will have an opportunity to subscribe for educational papers at club rates.

Directors, patrons of the schools, prospective teachers and all friends of education are cordially invited to attend the examinations.

The number of people annually afflicted with this most annoying malady seems to be greatly on the increase. * * * The editor of this journal is an annual victim, and, with a view to discover a specific cure, has tried numerous remedies.
