One of the political parties has avowed its purpose pass through two successive legislatures, and submit to the people a Constitutional amendment forbidding the manufacture and sale of intoxicating quors in this Commonwealth. A third party, constituting in themselves that respectable portion of the people" referred to by the others in their platform, nsist upon immediate and total prohibition by legislative enactment, without waiting upon the needless and tedious process of amendment. Neither of these parties looks toward indemnification for the large amounts of private property which must be measurably destroyed by the enactment of such a law, or the adoption of such an amerdment. The Democratic party has, on the other hand, from its formation, consistently opposed sumptuary laws, "which vex the citizen and interfere with individual

But this denial of the right of prohibition implies the duty of regulation; and though the just power of the State does not extend to the prescription of the drink, diet or dress of the individual man, it does extend to the prevention of any abuse of his private right affecting his neighbor or society at large; and I favor the enactment of any laws, however stringent, which may be necessary to that purpose, and, in any event, the rigid enforcement of those now in existence. Conscious of the terrible evils of excessive indulgence, we do not attempt to eradicate them by a species of legislation which has never failed to increase them, but which inevitably brings on the desperate resistance of the citizen who feels himself deprived of a natural right, and with it a train of illicit crimes and ruinous disorders. I cannot better conclude this paragraph than by the following passage from the hand of the lustrious Tilden :-"Such legislation springs from a miscon-

ception of the proper sphere of government. It is no part of the duty of the State to coerce the individual man so far as his con-duct may affect others, not remotely and consequentially, but by violating rights THE letter of acceptance of Channey The enforcement of the articles of the which legislation can recognize and under take to protect.
