THE Republican Congressional conference of this district, which reassemled at Somerset on Tuesday of last week and continued balloting until Saturday without any result, adjourned to meet at the same place on Wednesday last. It is not at all likely that we will be able this week to publish anything definite regarding the action of the conference. The supreme folly of each county in a Congressional district empowering its own candidate to select his FOR SECRETARY INTERNAL AFFAIRS, selects as his conferrees men whom he knows will adhere to him-men who will die in the last ditch. Wherein is the difference between this personal devotion of the conferrees to the man who is the choice of their county, and authorizing the candidates themselves to meet and make a nomination? The absurd conclusion to which this custom may lead has just been illustrated in the Crawford, Mercer and Butler district, where the conferrees after balloting for weeks have confessed their inability to agree, and have turned the matter over to the Republican State Committee for adjustment, with the chances largely in favor of Roberts, the Crawford county candidate. Why? Simply because he is enormously rich, and will contribute liberally to the campaign fund of the on the Republicans of the district whom JACOB SHAFER, Allegheny Twp. it is well known they do not want. An Efficient Remedy

In all cases of Bronchial and Pulmonary Affections is AYER'S CHERRY
PECTORAL. As such it is recognized and
prescribed by the medical profession, and
in many thousands of families, for the
past forty years, it has been regarded as an
invaluable household remedy. It is a
preparation that only requires to be taken cold or cough will effect a speedy cure, and may, very possibly, save life. There is no doubt whatever that

Ayer's Cherry Pectoral

Has preserved the lives of great, bern of persons, by arresting the development of Laryngitis, Bronchitis, Pronchitis, Pronchi should be kept ready for use in every family where there are children, as it is a medicine far superior to all others in the treatment of Croup, the allevistion of Whooping Cough, and the cure of Colds and Influenza, allments peculiarly inci-dental to childhood and youth. Promptitude in dealing with all diseases of this class is of the utmost importance. The loss of a single day may in many cases, entail fatal consequences. Do not waste precious time in experimenting with medicines of doubtful efficacy, while the melady is constantly gaining a deeper hold, but take at once the speedlest and most certain to cure.
