Fighting Fire

On last Saturday morning Mr. John J. Evans, one the most substantial farmers in Cambria township who made arrangements to- have his grain threshed out that day, went out to his large barn about six o'clock -The thirtieth annual statement of the to feed his stock. As it was not day light he took a carbon oil lantern with him and on his arrival at the barn he set the lantern down on a sill. While he was carrying the hay past the lantern be knocked it down and in an instant there was explosion and the flames shot up into the hay. He vainly endeavored to put out the flames and at the same time shouted for assistance. The family hearing his cries ran to the barn and commenced fighting the fire which had by this time got up into the mow where about fifteen tons of hay were stored. A well was severely hurt. She is, however, rapidly stood close to the barn and supplied plenty of water which they threw on the hay. The farm bell was rung and the neighbors bearing the alarm gathered in as also the hands who were coming to thresh. From about half past six o'clock to eleven, men women and children fought the fire. Men stood up in the mow nearly blinded and

suffocated with smoke and whenever the blaze made its appearance kept it back with water while others were busy carrying the hay outside. As fast as those in the mow got sick and gave out others took their places. The fifteen tons of hav were taken out, the fire subdued and the only injury to the barn was where some of the weatherboarding was knocked off to get the hay out and one of the corner posts was partially burned from the sill up to the square of the barn. Mrs. Evans, who is quite eged and not been able to be out of bed, while the fire was going on got up, went to the barn and turned out all the cattle. A number of snow drift and upset the sleigh. The horse was the hardest fought battle against fire

TIMES BUILDING.

BEFORE STOCK TAKING.

At no time in the whole year can we offer you more inducements to buy than just now. In a few week; we take an annual inventory of stock and wishing to have it at its very lowest when the painful duty commences, have resolved to reduce the prices on winter goods such as Overcoats, Heavy Weight Suits, Underwear, Fur Caps and Gloves to such a figure that will insnre their speedy disposal.

This may seem a funny thing to do in the middle of the coldest weather but we well know that in one month more the demand for such goods is abated and they are then doomed to be carried over for another season.

Our motto is and always will be "New Season, New Goods," and now is the time to strike us for a bargain that counts. Don't take our word for it see for yourselves. Our \$8 overcoats, our \$10 suits, our 90c fur caps and our 50c gloves then you'll talk.

L. M. WOOLF & SON, Johnstown, Pa.

THE BOTTOM IS REACHED AT LAST.

The largest stock of hardware ever offered in the County can be found at my store. I am now selling many goods at much less than I can replace them for, but I will continue to sell at Bottom Prices until I am compelled to replenish my stock. When you want a cooking or heating stove, tinware hardware, nails, iron, glass, trunks and farming implements, call and see my stock and learn my prices. Aug 15, '85.

THE GOLDEN AGE COOKING STOVE.

FOR ind Co., Add Our of the part of the control of the co., asi Canal St., New Yor. The control of the part of the

ramed worth \$51 for \$9.75, not good after Feb. 1, '87.

In presenting to the favorable consideration of the public the Golden Age Cooking Stove, we do so with the utmost confidence in its merits as a successful operating cook stove. It has been thorougly tested, we having sold in the last three years over 50,000 of them. We would call attention to the contour of the stove, it being in the highest cdegree graceful and well

proportioned. For weight, smoothness of castings and perfect fittings it is unequalled. As a BAKER IT IS PERFECT, and we believe that this, our latest production, is, without exception, the finest and best operating cook stoves made to day.
